

Rules Governing Overnight Trips in a Hotel or other Facility

1. No members of the opposite sex are allowed in sleeping area together unless an adult chaperone is present. Visiting should be done in common areas prior to curfew.
2. The maximum curfew time (lights out) is 12:00 midnight, but the director may impose an earlier curfew based upon the next day's activities. Students will be in their rooms 30 minutes prior to curfew, with bed-check to begin 15 minutes before curfew, and **LIGHTS OUT** at the designated curfew time.
3. The chaperone bed-check procedure will consist of the chaperone physically walking into the room and checking to be sure everyone is present. Be sure you are appropriately clothed. The bathroom and closet will also be checked. Should students wish to be checked in prior to curfew, they must call the chaperone. Once checked-in, students are not to leave the room unless an emergency arises and a chaperone is notified.
