### Turlock Unified School District, Measures N and O Bond Oversight Committee DRAFT DRAFT

### **Meeting Minutes**

13, September, 2018, 5:30 PM, Turlock USD Office, Room 102

Meeting #7

### **Attendees**

Committee members in attendance: Lacy Elliott, Dave Folly, Bryan Tribble, Kathi Farber and Harry Carlson.

Not in attendance: Steve Soderstrom, Patrick Bettencourt.

TUSD Staff: Martell Taylor, Facilities Planner; Mike Trainor, Assistant Superintendent Business Services, and Bridget Shelton, Facilities Secretary.

Conducting Meeting: Chairperson, Lacy Elliott

Meeting Commenced 5:32 PM

### Approval of Agenda

Current Agenda approved by consensus. No changes were made.

### **Adoption of Meeting Minutes**

No changes were suggested in the Meeting Minutes from June 21, 2018 meeting. The Bond Oversight Committees adopted the minutes by consensus.

### **Staff Reporting**

Martell Taylor reported that the first group of fencing projects was complete, but the second group of fencing projects had not moved forward as quickly as was hoped. Because the bids on the second group of fencing came in so much higher than expected Staff recommended that the Board reject all bids. When these projects were put out to bid again Staff had broken the projects down into separate bid packages (and part left as in-house work), and tried to get more contractors to bid. Still the bids were high, so Staff recommended that only a portion of the work be approved; the other non-essential portions would need to be completed at another date. It was discussed that the higher bid prices might be because of amount of other work available, so that the contractors didn't need to be as competitive, or perhaps because of the steel tariffs. Bryan Tribble suggested that the additional gas prices could also be the part of the issue, as that created an increase in transportation of building materials and goods.

Mike Trainor commented that the high bids were creating an issue with the District being able to keep their promise to the community members of securing the school campuses with fencing in a timely manner. High bids versus the need to complete the job of fencing is creating a higher than estimated cost. This is going to limit the District's ability to pay for all the bells and whistles of certain projects. In some cases we will only be able to afford the fundamental function in order to stretch the bond funds as far as possible. We might not have enough to do everything. We couldn't afford mow strips under the fencing, or sidewalks at some sites. The District will have TUSD Maintenance and Operations staff complete some components of projects to save bond funds for more important items.

Martell brought everyone's attention to the financial report Wakefield Kinder Relocation project cost amount of \$1,888,549.90. He told the committee members that because there was a surplus in Developer Fees that they had asked Legal Counsel if they could pay for that project out of those funds. Since that project was a reconstruction

as opposed to modernization project, they were told they could use Developer Fees. So, the costs from that project are being reallocated to Developer Fee account, and won't appear under the Measure N Bond Funds on the next Expenditure Report.

More security fencing will be going in next year at Roselawn, eCademy, Julien, and Cunningham. The HVAC system in PHS's B Building was completed before school started. Currently a Request For Qualification (RFQ) has been posted for field work and fencing at Pitman. Martell pointed out the field map that the architects had designed, and the committee discussed the new layout of the fields. The field work will include a synthetic turf football field, an all-weather track, relocated practice fields, and a 30' safety fence. They are also designing for future bleachers, but those will not come out of bond funds. New girls' softball fields will now be built on the school campus. Previously they had to play at the adjoining City of Turlock fields and some believed that those fields were not equivalent to the boys program.

Martell spoke about some of the problems the District was having keeping the camera contractors on schedule. Mike Trainor talked about the camera system being used to enhance the safety of students and staff, to protect property against theft or vandalism, and to assist in the identification of intruders or any person endangering the health, well-being or safety of school community members. Cameras will generally be utilized only in public areas where there is no "reasonable expectation of privacy." Public areas may include school buses; building entrances; hallways; parking lots; front offices where students, employees, and parents come and go; gymnasiums during public activities; cafeterias; and supply rooms. Surveillance cameras will not be installed in "private" areas such as restrooms, locker rooms, changing areas, private offices (unless consent by the office owner is given), or classrooms. There will also not be someone watching the cameras at all times. The footage will be checked if an incident occurs and needs investigation. There is a monitoring station in the site Administrators office, and in the office of the SROs on the High School campuses.

Martell reported on the completed projects. Medeiros, Cunningham, and Pitman camera systems are near completion. Wakefield and Walnut are in the early stages.

The committee was informed that the District is struggling with the land acquisition of the property adjacent to Osborn that is required for the Osborn Expansion project. Martell will keep the committee informed of any progress.

Kathi Farber asked if the District planned on closing eCademy Charter School. Mike Trainor responded that eCademy was not closing and they would be remaining open. Staff doesn't have any plans to close eCademy, in fact we were planning on adding fencing to eCademy.

### **Expenditure and Expense Reports**

The Expenditure Reports were reviewed. No one from the committee had any questions or comments.

### By-Laws vs. Yearly Work Plan

Martell began a discussion regarding the by-laws vs. a yearly work plan. He talked about the differences between the two types of systems. The advantages to having a yearly work plan would be that the committee can determine the frequency, time and duration of their meetings, they would have more flexibility regarding the amount of absences allowed, and they would not have to go back to the Board of Trustees for any changes to their scheduled meetings. Harry Carlson suggested they approve the new plan. The committee agreed that would rather have a Yearly Work Plan then have to follow the stricter by-laws. Martell will take the Yearly Work Plan to the Board for adoption at the next regularly scheduled Board Meeting.

### Other Business

The committee also agreed to not have a meeting in December as that is a very busy time for everyone and they would rather have a meeting in January. They determined that the 1<sup>st</sup> Thursday in January would work best for everyone, that date is January 3<sup>rd</sup>. They also decided to have the January meeting at Pitman High School so they can get a tour of the site and see some of the bond projects.

Harry Carlson asked why the new fencing was moved back from the sidewalk at Crowell. Martell replied that it could be because that is a busy road and they want to be away from traffic, but that he would have an answer for the committee regarding this at our next meeting.

Kathi Farber is retiring from the Bond Oversight Committee. She is moving out of Turlock and will no longer be a resident of the community. She returned her binder and all the paperwork form the meetings. We thanked her for her service and Martell asked the members to please tell anyone they know about the committee and encourage them to join.

### **Meeting Minutes**

21 June, 2018, 5:30 PM, Turlock USD Office, Room 102

Meeting # 6

### **Attendees**

Committee members in attendance: Lacy Elliott, Patrick Bettencourt, Dave Folly, Bryan Tribble, and Harry Carlson.

Not in attendance: Steve Soderstrom, Kathi Farber.

TUSD Staff: Martell Taylor, Facilities Planner; and Bridget Shelton, Facilities Secretary.

### Guest

Matt Kolker, Government Financial Strategies Inc.

Conducting Meeting: Chairperson, Lacy Elliott

Meeting Commenced 5:31 PM

### **Approval of Agenda**

Current Agenda approved by consensus. No changes were made.

### **Adoption of Meeting Minutes**

No changes were suggested in the Meeting Minutes from March 15, 2018 meeting. The Bond Oversight Committees adopted the minutes by consensus.

### **Staff Reporting**

Martell reported on the completed projects. Security fencing is complete at Earl, Medeiros, Walnut, and Brown Phase 1 (sides and rear fence). He also told the committee about the Topographic Surveys that are new requirements of the State with ADA compliance and Fire/Life/Safety that are adding to the costs of our projects. These have been done at Brown, Crowell, Dutcher Middle School, Pitman High, and Turlock High. Medeiros's camera system has been installed. This is the only site that the security camera install is complete. There was some delay with the security company due to their staff not being fingerprinted when they said they had been. THS and DMS are the only sites that had cameras prior to the passage of the bond.

This summer and fall for following projects are scheduled; security fencing will be going in at Crowell, although there was a cost escalation resulting in a rebid without the concrete work. Brown Phase 2 (New entry office as well as fencing). Pitman HVAC is going on now and will continue through the fall. Pitman security fencing and athletic field work is scheduled. The fact that we are not putting in a stadium was discussed. Martell informed the committee that we do plan for a future stadium at some point but not with bond funds. Security cameras at Cunningham and Pitman are scheduled next, and then on to other campuses.

The projects that are still with the Architects are Dutcher parking lot/drop off, removal of the old relocatables, and modernization of the cafeteria. Turlock Junior High will be a complete modernization. Wakefield Phase 2 will include cafeteria, restrooms, parking lot/drop off and replacement of portables. THS is getting a STEM facility, fencing, roofing, cafeteria modernization, new restrooms, and replacement of portables. Osborn is being delayed

due to inability to acquire the adjacent property. Bryan Tribble asked if we were considering Eminent Domain to obtain the land required to expand Osborn. Martell told him the District has discussed that in great detail and was hoping to avoid going that route but we are ready to push forward if needed. The land owners have been informed that Eminent Domain is our next step if no agreement can be made.

A new alternate elementary school being built behind Walnut was discussed. Martell told the members that the new neighborhood school that would house approximately 480 students and would be built behind Walnut Elementary on land that the District already owns. A new school is needed on the north side of town since that is where most of the growth is taking place.

### **Expenditure and Expense Reports**

We began discussing the financial reports. Dave Folly asked about whether or not interest earned on bond funds for each measure is used for that individual measures' projects. The question was referred to Matt Kolker of Government Financial Strategies, Inc. He said that yes the interest for each of the bond funds goes back to that bond's account and is used for that bond measures' projects. He also confirmed with another financial colleague via text.

It was pointed out that Wakefield Kindergarten project is the largest expenditure to date, and that all the fencing project costs were lumped together. Martell asked the committee if that was acceptable and they said yes. Martell pointed out that the verbiage was changed on the report to say "Unallocated Costs" instead of "Administrative Costs" to avoid confusion since these are bond project costs not fees paid to the administration.

### By-Laws vs. Yearly Work Plan

The meeting was then turned over to Matt Kolker. He referred the committee to his PowerPoint presentation which began with a quick review of the Strict Accountability in Local School Construction Bonds Act of 2000. Everyone was allowed a few minutes to reread the law which was included as a hand-out. Matt talked about the history of TUSD General Obligation Bonds and the future expected amounts to be issued for Measures N & O. He briefly discussed the website. Everyone agreed that the District is doing a good job with making the bond information easily accessible to the public, and they were pleased with the general appearance and layout of the website. He discussed the different Bond Oversight Committees through the years, the current committee, and the challenges they face.

Matt then began a discussion regarding the by-laws vs. a yearly work plan. He talked about the differences between the two types of committee structure. The advantages to having a yearly work plan would be that the committee can determine the frequency, time and duration of their meetings, they would have more flexibility regarding the amount of absences allowed, and they would not have to follow Robert's Rules of Order. Each change o the committees schedule would not need to go back to the TUSD Board of Trustees for approval. Lacy Elliott commented that she would rather the committee rewrite the by-laws amending a few key points rather that completely doing away with them. Committee is undecided regarding this change. Matt Kolker was asked to provide a work plan example from another district. The rest of the presentation was skimmed through and lastly the committee was directed to a resource site for committee members of Calboc.org on page 30.

### Bond Oversight Committee's Annual Report to the Public

Government Financial Strategies provided a template for the report. Matt Kolker went through each section and discussed the format and requirements for BOC reporting. The committee read through the report and discussed briefly. Dave Folly requested that the period ending date of June 30, 2017 be added to the top of the report. The

rest of the committee agreed. Bridget Shelton made the requested changes, and Bryan Tribble voted to approve the report, the motion was seconded by Lacy Elliot. The committee unanimously approved the report.

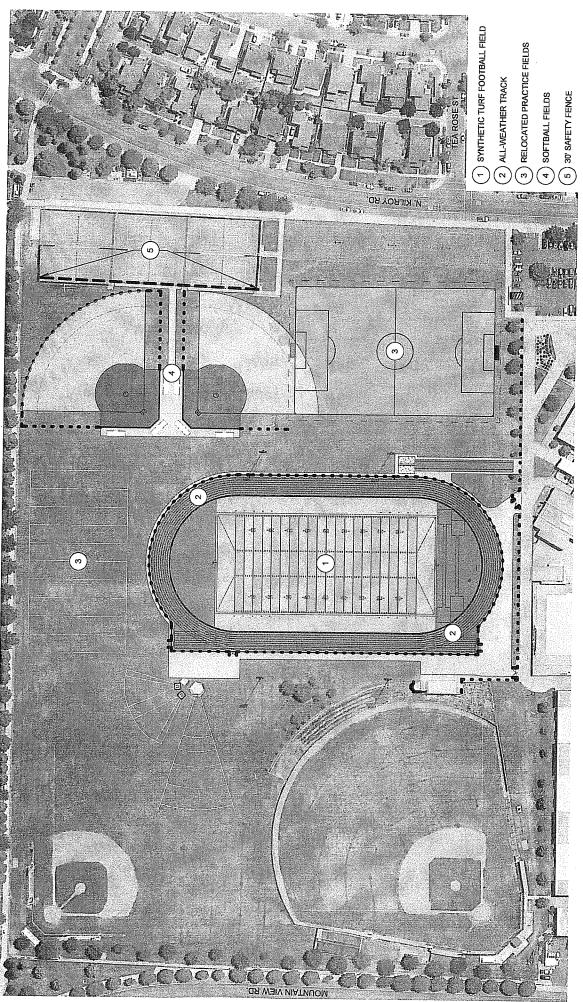

### **Other Business**

The committee would like a tour of one of the sites instead of a meeting. They would like the District to pick a site that a bond project is either completed or in process at. Harry Carlson suggested they skip the December meeting. Committee will have to vote on this suggestion at the September meeting. The members took action to change the date of the September meeting from September 21<sup>st</sup> to September 13<sup>th</sup>.

### Measures N & O

### Citizens' Oversight Committees

### Annual Work Plan for Fiscal Year 2018-19

### September 13, 2018

### Measure N

As approved by voters on November 8, 2016:

"To upgrade and repair elementary schools with local funding that cannot be taken by the State, shall Turlock Unified School District provide new classrooms/instructional technology, including necessary infrastructure, for core academics including math, science, reading/writing; modernize classrooms to meet health/safety codes; improve campus safety/security; repair, construct, acquire, equip, classrooms, sites, facilities; by issuing \$40,800,000 of bonds at legal rates, with independent citizen oversight, no money for administrators, and all funds used for Turlock Schools?"

The complete bond project list is in Exhibit A to the Board of Trustees' Resolution Number 30-2015-16.

### Measure O

As approved by voters on November 8, 2016:

"To upgrade and repair high schools with local funding that cannot be taken by the State, shall Turlock Unified School District provide science, technology/engineering labs; provide new classrooms/instructional technology, including necessary infrastructure, for core academics; modernize facilities to meet health/safety codes; improve campus safety/security; repair, construct, acquire, equip, classrooms, sites, facilities; by issuing \$48,000,000 of bonds at legal rates, with independent citizen oversight, no money for administrators, and all funds used for Turlock Schools?"

The complete bond project list is in Exhibit A to the Board of Trustees' Resolution Number 31-2015-16.
