What if I have questions about my DeltaCare USA Program?

Eligibility for you and your family

If you meet your group's eligibility requirements for dental coverage, you can enroll in the DeltaCare USA program. You may also enroll eligible dependents. Contact your benefits administrator if you have any questions.

Easy enrollment

Simply complete the enrollment process as directed by your benefits administrator. Be sure to indicate a dentist (from the list of contract dental facilities) for both yourself and your eligible dependents. Include the name of your group.

How your DeltaCare USA program works

Your selected contract dentist will take care of your dental care needs. If you require treatment from a specialist, your contract dentist will handle the referral for you.

After you have enrolled, you will receive a Delta Dental membership packet that includes an identification card and an Evidence of Coverage booklet that fully describes the benefits of your dental program. Also included in this packet are the name, address and phone number of your contract dentist. Simply call the dental facility to make an appointment.

Under the DeltaCare USA program, many services are covered at no cost, while others have copayments (amount you pay your contract dentist) for certain benefits. See the "Description of Benefits and Copayments" for a list of your benefits.

Please note: Dental services that are not performed by your selected contract dentist, or are not covered under provisions for emergency care below, must be preauthorized by Delta Dental to be covered by your DeltaCare USA program.

Provisions for emergency care

Under your DeltaCare USA program, you and your eligible dependents are covered for out-of-network dental emergencies. Your program pays up to \$100 for out-of-network emergency dental expenses per emergency for each enrollee.

My dentist is a Delta Dental dentist but is not on the list of DeltaCare USA dentists. Can I still receive treatment from this dentist?

You must receive treatment from your selected DeltaCare USA contract dentist. Please note that Delta Dental dentists are not necessarily DeltaCare USA dentists. With more than 3,800 general and specialist dentists, the DeltaCare USA network is one of the largest dental networks in California.

Do my family members receive treatment from the same DeltaCare USA contract dentist?

You and your eligible dependents may receive care from the same contract dentist, or if you prefer, you may collectively select up to a maximum of three individual contract dental facilities.

Can I change my contract dentist?

You may change contract dentists by notifying us either by phone or in writing, or by visiting our website (deltadentalins.com). If you contact us by the 21st of the month, the change will become effective the first of the following month.

Can I have my teeth whitened under the DeltaCare USA program?

External bleaching is a benefit under your program. See the "Description of Benefits and Copayments" and talk to your contract dentist about your options.

Highlights of your DeltaCare USA Program

Does my DeltaCare USA program cover tooth-colored fillings and crowns?

Porcelain and other tooth-colored materials are included as a benefit under your program. The copayment shows you what your out of pocket cost will be.

How long does it take to get an appointment with a DeltaCare USA dentist?

Two to four weeks is a reasonable amount of time to wait for a routine, non-urgent appointment. If you require a specific time, you may have to wait longer. Most DeltaCare USA dentists are in private group practices, which means greater appointment availability and extended office hours.

Are pre-existing dental conditions and work in progress covered?

Treatment for pre-existing conditions, such as extracted teeth, is covered under the DeltaCare USA program. However, benefits are not provided for any dental treatment started before joining the program (that is, work in progress, such as preparations for crowns, root canals and impressions for dentures). Orthodontic treatment in progress may be covered for new DeltaCare USA enrollees. See the "Limitations and Exclusions of Benefits."

How does the DeltaCare USA program encourage preventive care?

Your DeltaCare USA program is designed to encourage regular visits to the dentist by having no copayments (fees you pay to the contract dentist) on most diagnostic and preventive benefits. See the enclosed "Description of Benefits and Copayments."

Does my DeltaCare USA program cover specialists' services?

Your contract dentist will coordinate your specialty care needs for oral surgery, endodontics, periodontics or pediatric dentistry with an approved contract specialist. If there is no contract specialist within your service area, a referral to an out-of-network specialist will be authorized at no extra cost, other than the applicable copayment. If you or your dependent is assigned to a dental school clinic for specialty services, those services may be provided by a dentist, a dental student, a clinician or a dental instructor.
