Appendix I: Sample Locations and Sample Map

Appendix II: Laboratory Results

INTRODUCTION

Zion School District 6 implemented a proactive program of water testing at the Central Jr. High School. Water sampling was conducted by David Johnson an Aires associate consultant on March 30, 2017. Mr. Geoffrey J. Bacci, II, PE designed the study and developed this report.

All sampling methodology followed protocol required by The Lead in Drinking Water Testing Bill (LDWTB) and guidelines published by the Illinois Department of Public Health (IDPH). Detailed background information on testing requirements, methodology and lead health effects are included in the main report to the District that summarizes results and offers recommendations.

RESULTS

Field sheets identifying sample numbers and sample locations maps are included in Appendix I. Laboratory results are included in Appendix II.

Results that exceed 5 ppb must be communicated to parents in writing. Results that exceeded the EPA action level of 20 ppb are shown in **bold print**. The following locations are results that exceeded 5 ppb:

- CJH-W-01A: first draw drinking fountain maintenance – 12.7 ppb
- CJH-W-01B: flush drinking fountain maintenance – 16.2 ppb
- CJH-03A: first draw kitchen center sink – 10.2 ppb
- **CJH-S-05A: first draw kitchen south sink – 153 ppb**
- **CJH-S-05B: flush kitchen south sink – 68.3 ppb**
- CJH-W-14A: first draw drinking fountain outside room 203 – 7.39 ppb.

Remaining results should at minimum be posted on the District's website within 7 days. The results of all samples should be e mailed to IDPH within 7 days.

Drinking fountains that exceed the EPA action level of 20 ppb should be taken out of service. Sinks that exceed the EPA action level of 20 ppb should be labeled to avoid using as a drinking or cooking source.

Further investigation and corrective action is necessary to identify the lead source and identify corrective action to reduce lead levels.

PROFESSIONAL CERTIFICATION

Aires Consulting, a division of Gallagher Bassett Services, Inc. conducted this study in the interest of **Zion School District 6** to assist in meeting environmental obligations and regulations. In this respect, we hope the results of this study are useful. *This study was not intended to include every environmental exposure that may be present at the facility; only those items specifically addressed in the report were evaluated.* If you have any questions concerning this study please let us know.

Respectfully Submitted,

Geoffrey J. Bacci, II, PE
Director Operations
