June 5, 2023

Dear San Angelo ISD Community,

This afternoon Dr. Carl Dethloff, Superintendent of San Angelo ISD, announced his intention to retire in December. He has spent thirty-three years in service to Texas students in public education, fifteen of those years in SAISD. For the last nine years, he has guided our district as superintendent. As a school board, we want to take time to formally thank Dr. Dethloff and his family for his service to our community. His commitment to engaging all students and positioning our people to make a difference in the lives of our students will be his lasting legacy.

As a board, we recognize the importance of selecting our next superintendent. We understand our decision will affect students, staff, families and our community. We plan to engage with a search firm and create a comprehensive timeline for the process of hiring our next superintendent. Our board plans on gathering input from parents, staff, students and community members to create an ideal profile for our next superintendent. Our hope is to make the transition to a new superintendent as smooth as possible.

As a district, we are proud of our accomplishments under Dr. Dethloff's tenure, but we understand that our next superintendent will have to set a standard that leads to further student success and improved staff retention while navigating the changing landscape of public education.

We aspire for SAISD to be the premier school district in West Texas for students and staff. We will search for and find a strong candidate that supports our West Texas values and creates a culture that continues to develop students that can communicate, collaborate, create and be critical thinkers. The children of San Angelo, staff of SAISD, and our community deserve a superior candidate; it is our goal to find that candidate for our district.

Sincerely,

Taylor Kingman, MD
SAISD Board of Education - President
