1	If YEP could provide Tyrrell with enrichment activities to explore and develop student relationships with peer and school staff, I would envision leadership training which prepares youth to set goals, work in a team setting, manage time, start conversations, facilitate meetings, and make effective presentations; all of which are positive life skills that they will carry into adulthood. Through youth leadership programs, young people gain the skills and knowledge to lead civic engagement, education reform, and community organizing activities. Youth Leadership programs enable students to lead or partake in events, engage with other cultures, speak to an audience, become role models, gain intergenerational knowledge and work experience.
