

Your Legal Insurance Plan: Learn About These New Features!

As we near open enrollment, it's a great opportunity to learn more about the value your benefits provide — including your legal insurance plan from ARAG®. It offers you access to a nationwide network of attorneys and Network Attorney fees that are **100% paid-in-full** for most legal matters. What's even better, beginning January 1, 2017, the plan will include additional identity theft resources and services to help protect your personal identity and information:

- **Identity Theft Insurance:** You'll have coverage up to \$1 million in coverage for expenses associated with restoring your identity, including legal costs, loss of income and more.*
- **Full-Service Identity Restoration:** Restoration Specialists use a limited power of attorney to restore your identity with lenders, credit bureaus, the state, county courts and more.
- **Lost Wallet Services:** Restoration Specialists help you cancel and replace documents such as credit and debit cards, driver's license, Social Security cards, checkbooks, insurance cards and more.

You can also protect you and your family from losses that stem from identity theft by creating an online account — at no extra cost — and receiving these valuable services:

- **Internet Surveillance** constantly monitors websites and other online forums where criminals buy, sell and trade stolen identities and notifies you if any evidence of information is being traded or sold online. You have the ability to monitor the following elements:
 - Social Security Number
 - Email Addresses
 - Telephone Numbers
 - Medical ID Numbers
 - Credit/Debit Card Numbers
 - Bank Account Numbers
- **Single-Bureau Credit Monitoring** informs you of changes to your credit file — including loan applications, credit card activations, delinquencies and more.
- **Child Data Monitoring** provides you with an alert of the names, addresses and aliases found in public records associated with your child's Social Security number. The service also notifies you if there is any evidence that your child's information is being traded or sold online.

PLEASE NOTE: When you register online for these services, check the version of your browser — as your account information is supported by the latest two versions of the following browsers: Internet Explorer, Safari, Mozilla and Chrome. Be ready to provide any relevant personal, contact or account information for monitoring purposes.
