Timeline of Financial Reporting

The accuracy of the District's budget projection for the next year is only as good as the assumptions that are used in developing the budget. When new data comes in, assumptions will change, so too will the budget. As a consequence, the major assumptions have to be carefully considered in evaluating the accuracy of next year's income and expense.

With the understanding that changing assumptions directly change the financial outlook of the District, the State requires all school districts to report its budget for the current year, as well as two subsequent years as follows:

Budget	Current Data	Approved
Adopted	Prior to Fiscal Year	By June 30
*Revised Budget	State Budget Adopted	August 15
1 st Interim	July 1 to October 31	December 15
2 nd Interim	July 1 to January 31	March 15
*3 rd Interim For Qualified or Negative Certifications	July 1 to April 30	June 1
Unaudited Actuals	July 1 to June 30	September 15

A school district operates during the fiscal year of July 1 to June 30 and during the months of May and June each year, the District finalizes its budget for the coming year.

The Adopted Budget, required to be adopted by the end of June, is based on assumptions for the upcoming and future years. These assumptions are based on current legislation, recent official guidance from Federal, State, or Local agencies, current data, professional demographic studies, and historical trends on enrollment and staffing, and District plans and priorities.

The 1st Interim Financial Report, therefore, is expected to have changes. The 1st Interim Financial Report is required to be adopted by December 15 of each year. This is timed to update the budget based on current actual data, instead of assumptions.

Actual data reported and to be incorporated in the 1st Interim Financial Report are:

- Enrollment
- Attendance
- Staffing
- Updates to Salary and Benefits
- State Adopted Budget
- Preliminary Federal and State Grant Allocations
- Potential impacts from the November Election cycle

In January, the District begins its planning for the following year's budget based upon the State's January Budget Proposal, enrollment projections, staffing considerations, and facility constraints.

Each of the two required Interim financial reports (1st Interim in December and 2nd Interim in March) require the school district to self-certify the overall financial ability of the school district. The certifications are classified as positive, qualified, or negative.

A Positive Certification is assigned when the district will meet its financial obligations for the current and two subsequent fiscal years.

A Qualified Certification is assigned when the district may not meet its financial obligations for the current or two subsequent fiscal years.

A Negative Certification is assigned when a district will be unable to meet its financial obligations for the remainder of the current year or for the subsequent fiscal year.

In addition, the county office of education may reclassify the certification of the school districts it oversees in accordance with the above standards.

The 2018-2019 1st Interim Report contains a **Positive Certification**. The certification is attained through the ongoing implementation of Board Resolution #1718-42 to take action(s) during the 2018/19 fiscal year for the District to meet the required State Minimum reserve for economic uncertainty for 2019/20.

Enrollment and Attendance

The most significant characteristic for determining District income is the calculation of the average number of students that attend school on a daily basis or Average Daily Attendance (ADA). ADA should not be confused with enrollment. Districts staff based on actual enrollment, but the State only funds school districts based on the amount of students attending school each day. This ADA is then multiplied by the District's Local Control Funding Formula Grade Span Rate per ADA to determine the total Local Control Funding Formula (LCFF) income for the District.

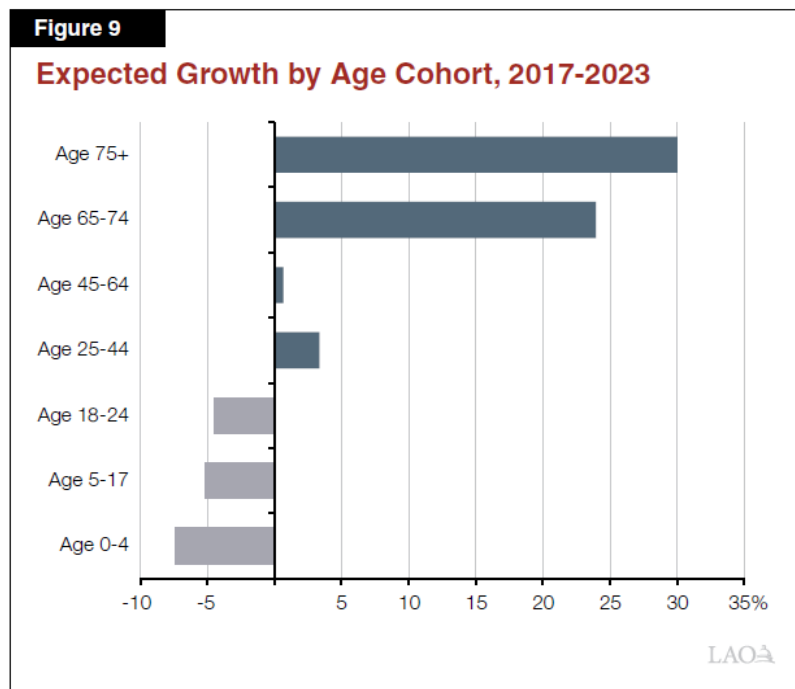

LCFF Funding is approximately 75% of the General Operating revenues received by the District. LCFF funding has three main factors in the calculation: Current Year and Prior Year ADA; Unduplicated Count (Unduplicated number of students classified as English Learners, Foster Youth, or are eligible for the Federal Free or Reduced Price Meal Program; and the amount of ADA lost and/or gained from prior year students leaving the District for an In-District Charter School.

Enrollment is fluid as families can move in or out of the District. Therefore, the State has an official annual enrollment count taken in the beginning of October. The following is Hayward Unified School District current projections on attendance and enrollment:

	Enrollment	Change Over Prior Year	Attendance	Attendance % of Enrollment
2015/16	20,947	(49)	19,930.90	95%
2016/17	20,771	(176)	19,731.99	95%
2017/18	20,429	(342)	19,404.90	95%
2018/19	19,917	(512)	18,933.77	95%
2019/20	19,624	(293)	18,651.93	95%
2020/21	19,272	(352)	18,315.30	95%

Italics are projections

Since ADA is such an important part of the District's income base, the projection of ADA for this next fiscal year is an important part in projecting the District's income. Currently, even a 1% change in attendance rates would be a \$2.3M change in the District's projected revenues.

Therefore, District attendance records are monitored monthly and ADA is updated throughout the year to ensure that the projected revenues are in line with the District's budgeted or revised projections. The District has a historical 95% attendance rate compared to enrollment.

More information regarding enrollment projections will be coming soon as we currently have a demographic study under development. The decline we have seen and are expected to see over the next few years is also expected across the State.

Local Control Funding Formula

The local control funding formula (LCFF) was enacted in 2013–14, and it replaced the previous kindergarten through grade 12 (K–12) finance system which had been in existence for roughly 40 years. For school districts and charter schools, the LCFF establishes base, supplemental, and concentration grants in place of the myriad of previously existing K–12 funding streams, including revenue limits, general purpose block grants, and most of the 50-plus state categorical programs that existed at the time.

LCFF was implemented with an adjoining document called the Local Control Accountability Plan (LCAP). The LCAP is intended as a comprehensive planning tool to support student outcomes and is an important component of the local control funding formula (LCFF). Under the LCFF, school districts are required to prepare an LCAP, which describes how they intend to meet annual goals for all pupils, with specific activities to address state and local priorities.

Below provides more of a breakdown for how the funding works.

HOW LCFF WORKS

All districts receive a **BASE GRANT** for each student. The base grant is larger for grades 9–12 than for other grade levels.

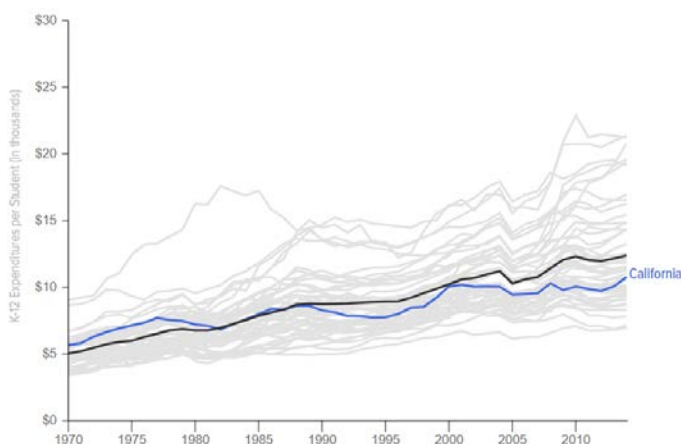

Districts receive a 20% additional **SUPPLEMENTAL GRANT** per student for students with higher needs – identified as children living in poverty, English learners, and foster and homeless youth. It's important to note that districts are eligible to receive extra funding only once per student, regardless of whether a student may fall into multiple high-needs categories. This is referred to as the “unduplicated” student count. Also, no additional LCFF grant funding is provided for students with other needs, such as those with disabilities that impact their ability to learn.

If more than 55% of children in the district are higher needs, the district receives an extra 50% of the base grant for each student beyond the 55% threshold. This is called a **CONCENTRATION GRANT**. These grants recognize that it costs school districts more to effectively address the challenges of high-needs students concentrated in high-poverty communities.

Fiscal Year	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21
Unduplicated %	81%	75%	78%	78%	76%	76%

Even with the implementation of LCFF, the State as a whole has seen a decline in spending for education compared to the Nation. Proposition 13, passed in 1978, was an adjustment to the tax structure of the State and provided a minimum guarantee of funding for education. However, this minimum guarantee once higher than the national average, has long since been below the national average.

State Pension Costs

The District is severely being impacted by the State's solution in 2013 to fund the California Public Employees Retirement System (PERS) and State Teachers Retirement System (STRS). The solution, as noted below, requires Districts to contribute continued escalating rates towards the two retirement systems. The costs are significant and ongoing whereby in 2020/21, we will be spending approximately \$20 million more annually towards retirement costs than prior to AB 1469.

Fiscal Year	Original Rate	Rate	Certificated Salaries	STRS Cost	Increase Over 2013/14 Rate

The result of the additional \$20 million in ongoing retirement costs means an ever increasing portion of our budget is spent on PERS and STRS.

State Economy

California is considered the fifth largest economy in the world with a Gross State Product of \$2.75 Trillion. The size of this operation also utilizes a robust General Fund of \$133.3 Billion in annual revenues, with over 71% of its revenues coming from Personal Income Tax.

General Fund Revenues vs Expenditures

(Dollars in Millions)

- State General Fund Budget for 2018/19

The State has a progressive tax system, whereby it is heavily dependent on taxing high-income earners

realizing gains from a healthy stock market (Capital Gains Taxes). The top 1% make up 25% of the Personal Income in the State, but 50% of the Personal Income Tax that the State depends on for stability. Dependence on Capital Gains Taxes does not translate into stability for the State.

Personal Income Tax Much More Volatile Than Economy

Percent Change From Prior Year

The Legislative Analysts' Office (LAO) is a non-partisan Fiscal and Policy Advisor to the State Legislature. They develop a Fiscal Outlook report each November to help the State begin their budget development process for the following year. Their current report projects the continuation of a healthy stock market, but – like they and Governor Brown have done over the past few years – warn the State Legislature that an impending recession is coming. This comes from a recognition that we are in the longest period of economic growth in the State's history and the stock market is volatile. Therefore, the LAO has recently amended their Fiscal Outlooks to include a scenario for a growing economy and a scenario for a modest recession. This alternative scenario highlights what the State will need to prepare for in the event of a downturn in the stock market or in the economy.

All LEAs that received ANY School Facility Program funding are required to deposit 3% into their Routine Restricted Maintenance Account in the year in which the LCFF is fully implemented, which is 2019-20.			

ADDITIONAL MULTI-YEAR PROJECTION CONSIDERATIONS

- The State is heavily dependent high-income earners and a healthy stock market. This results in both good and bad periods of volatility, which significantly impacts the District because 85% of its revenues come from the State.
- The State is experiencing the longest period of economic growth in its history.
- Governor Brown and the Legislative Analysts' Office (LAO) actively warn the State of an impending economic downturn. However, for the upcoming Budget Year, the LAO anticipates a modest increase in funding for education.
- New Governor Gavin Newsome and New State Superintendent of Public Instruction were elected to office in November 2018. New priorities or changes in legislation can positively or negatively impact the District.
- A 1% change in attendance or in COLA results in a \$2.3M change in LCFF revenues for the District.

Unrestricted General Fund Revenues

Most of the District's General Fund revenue is generated from the District's Local Control Funding Formula, which yields funds based on a State-determined dollar amount multiplied by the average number of students who are in attendance throughout the school year.

Unrestricted General Fund Revenues are what is used for the general operations of the school district. They can be used for any educational purpose and is the source of funding for mandated programs which are not self-supporting. For example, the next page notes \$41,204,562 on the Restricted General Fund Revenues chart to help support mandated programs such as: Special Education and Restricted Routine Maintenance.

Unrestricted General Fund Expenditures

Education is a service-centered industry, people are required to carry out the needs and services of the District. As such, most of the expenditures of the District are committed to the salaries and benefits for employees of the District. Over 90% of the District's budgeted expenditures, not incorporating the Transfers to Restricted Funds, are for the salaries and benefits of District employees.

The Transfers to Restricted Funds is required to cover mandated programs that lack sufficient funds for the program such as Special Education and Restricted Routine Maintenance.

Restricted General Fund Revenues

Restricted General Fund Revenues can only be expended for purposes determined by the grantor.

The largest categorical program is Special Education and has over \$50 million in expenditures, but only \$15 million in revenues. The remainder has to be supported from the Unrestricted General Fund. This program is federally mandated to provide support services based on qualifying students Individualized Educational Plan (IEPs).

Other Financing Sources are contributions from the Unrestricted General Fund to meet the expenditure and program requirements of mandated programs. For example, the 44% Transfers from Unrestricted Funds noted on the chart reflects the mandated programs which are not self-supporting, such as: Special Education and Restricted Routine Maintenance.

Restricted General Fund Expenditures

Unlike the Unrestricted General Fund, salaries and benefits make up 75% of the Restricted General Fund Expenditures. This is because more of the funds are spent on supplemental services, such as supplemental materials, specific trainings and conferences, and contracted services.

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)

2. Contracted general administrative positions not paid through payroll
 - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800. _____
 - b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

B. Salaries and Benefits - All Other Activities

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
(Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000) 220,066,237.92

C. Percentage of Plant Services Costs Attributable to General Administration

(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6) 3.45%

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. _____
Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

Part III - Indirect Cost Rate Calculation (Funds 01, 09, and 62, unless indicated otherwise)

A. Indirect Costs

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)	<u>12,504,185.59</u>
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	<u>891,985.61</u>
2. Carry-forward adjustment amount deferred from prior year(s), if any	<u>(776,881.47)</u>
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (5.54%) times Part III, Line B18); zero if negative	<u>0.00</u>
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (5.54%) times Part III, Line B18) or (the highest rate used to recover costs from any program (19.48%) times Part III, Line B18); zero if positive	<u>(1,651,318.01)</u>
D. Preliminary carry-forward adjustment (Line C1 or C2)	<u>(1,651,318.01)</u>
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	<u>4.21%</u>
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-825,659.01) is applied to the current year calculation and the remainder (\$-825,659.00) is deferred to one or more future years:	<u>4.53%</u>
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-550,439.34) is applied to the current year calculation and the remainder (\$-1,100,878.67) is deferred to one or more future years:	<u>4.64%</u>
LEA request for Option 1, Option 2, or Option 3	<u>1</u>
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)	<u>(1,651,318.01)</u>

Approved indirect cost rate: 5.54%
Highest rate used in any program: 19.48%

Note: In one or more resources, the rate used is greater than the approved rate.

Deviations from the standards must be explained and may affect the interim certification.

CRITERIA AND STANDARDS

1. CRITERION: Average Daily Attendance

STANDARD: Funded average daily attendance (ADA) for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since budget adoption.

District's ADA Standard Percentage Range: **-2.0% to +2.0%**

1A. Calculating the District's ADA Variances

DATA ENTRY: Budget Adoption data that exist for the current year will be extracted; otherwise, enter data into the first column for all fiscal years. First Interim Projected Year Totals data that exist for the current year will be extracted; otherwise, enter data for all fiscal years. Enter district regular ADA and charter school ADA corresponding to financial data reported in the General Fund, only, for all fiscal years.

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since budget adoption, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.

S9A. Identification of Other Funds with Negative Ending Fund Balances

DATA ENTRY: Click the appropriate button in Item 1. If Yes, enter data in Item 2 and provide the reports referenced in Item 1.
