

ARTogether & CERl present:
in partnership with Samuel Merritt University

kids summer art camp

This summer, we're offering various art workshops for kids ages 6-11! **Kids can explore their creativity and express their imaginative ideas through art.** Camp activities aim to encourage children's artistic interest and self-discovery while having fun with friends! Activities range from guided creative art projects to educational and holistic art activities and freeform expressive art. Kids can look forward to fun projects like making clay sculptures, painting, collaging and exploring the styles of famous artists. Find out more at ARTogether.org.
