HAS Frequently Asked Questions

Do High School students have to pay for their classes at Hayward Adult School(HAS)?

YES, students who transfer from (drop from HHS and enroll as an adult at HAS) HHS to HAS do have to pay for all of their classes every six weeks (generally for two day classes its $65). The advantage for some students is that our High School Diploma requirement is only 180 credits and not 220 credits like HHS. Students do not have to pay for a class if they are attending HAS on concurrent enrollment status.

Do students have to present a transcript showing that they have failed a class before being able to enroll in that class on concurrent enrollment at HAS?

Yes, students must present a transcript showing that they have failed a class before being able to take that class at HAS. The transcript must also be attached to a completed "Concurrent Enrollment" form (which means all four signatures) and the student must attend the appropriate orientation.

.

Is there a waitlist provided for students if a class fills up? Or do students simply have to wait until that class is offered again?

Yes, there is a waitlist for the concurrent classes and students are usually informed by the next day if they get into the concurrent class or not. That is why it is important to be early or on time to the orientations because classes are offered on a first come first serve basis.
