Thank you for taking time to consider supporting Tennyson High School, home of the Lancers. Since 1958, Tennyson High school has served the Hayward community, preparing students for colleges and careers. We serve one of the most diverse populations in all of the Bay Area, with a student body speaking over 20 different languages (23 to be exact).

To serve our students, we offer many programs like Puente, AVID, CMMA, BioMedical Pathways, World House, etc. all with the goal of helping students achieve their potential. In addition to programs, our school also hosts over 20 student-run clubs ranging from cultural clubs like the Mexican-American Club and Filipino Club to social clubs like the Queer Straight Alliance (QSA) and the Outdoor Adventure Club. These programs and clubs round out students' experiences in high school, providing opportunities like leadership pannels, social justice workshops, college trips, and more—experiences that students otherwise would not get.

In order to fully support these programs and clubs, Tennyson High School needs your help. Your donations can have a huge impact on students right here in Hayward. Please consider donating online or by paper today!
