

AP PRECALCULUS SUMMER PACKET

Welcome to AP Precalculus! I look forward to working with you this upcoming school year and preparing you to take the AP Precalculus Exam. While you are enjoying your summer, please take the time to complete the following assignment. This packet is designed to review concepts from Algebra 2 that will be needed for a smooth transition to AP Precalculus. It is expected that you are proficient on all of the material listed in this packet, as AP Precalculus is a rigorous and fast paced course. There will be very limited review of the following topics. The answers are at the end so that you can check your work. Please check your email for an invitation to our Google Classroom. I will use classroom to post links to video resources. If you feel like you do not remember a topic, please use the resources provided. Unless otherwise stated, all answers should be **exact**, no decimals. If you have any questions, feel free to reach out via email: melissa.prignoli@sayrevillek12.net
