COPIES: file

ITEM	ACTION	DISCUSSION
1		Value engineering floor plans, site plans, and updated exterior rendering were reviewed. The interior finishes were confirmed at the end of the meeting.
2		<p>The DAT generally was happy with the design and limited comments were received. The following comments were received.</p> <ul style="list-style-type: none">○ The DAT like the glazing on the east wall of the auditorium and would like to keep it in the design.○ The seating quantity in the auditorium was reviewed. 350 seats is only enough for the student population. The seating should include seats for teachers and staff. 400 is a more appropriate seating count. It was determined that the seating count is 400 and the 350 in the slides was a typo prior to the end of the meeting.○ The DAT liked the interior color schemes.<ul style="list-style-type: none">○ Liked the textured carpet.○ Liked the neutral accent wall.

END OF MEETING MINUTES

This record of the meeting is considered complete and accurate unless written notice is received by MOA within 5 days of issuance
