

SHAC MEETING MINUTES 5/23/2022

Chair Jill Breathitt called meeting to order at 4:07pm.

Present were Jill Breathitt, Stephanie Hadsall, Charleen Sprabary, Dixie Knight, RN/BSN, Dana Craddock, RN, Erin Quy, RN

Voted unanimously to proceed with recommendations to KISD Board of Trustees the Sexual Health Curriculum by NJ Physicians Group. This program would be implemented in the 8th grade after state testing for the 2022-2023 school year. Students in 9th grade would be given the opportunity as well for the 2022-2023 school year only.

In closing, the committee felt strongly that sexual health education provides critical information on topics of STI's, unintended pregnancy as well as support youth in developing healthy relationships now and in the future. We feel our students are deserving of medically accurate information about how their body works including fact-based sexual health education.
