

Department of Teaching & Learning

Hi Families!

Welcome to the Summer Reading Program for Kindergarteners through Grade 3! We would love for your child to spend time reading over the summer. Reading is a key to success in academics. Studies show the amount of time that students spend in independent reading is the best predictor of reading achievement. Your child has been given a set of high interest decodable chapter books to keep as you build a home library. As your child reads the books, please complete the back of this form. If you would like to provide additional practice, there is also a QR code for a lesson on the back inside cover of the book. The QR code can be accessed using your camera from your phone, Ipad, or tablet.

Return the form next school year to your child's new teacher by August 31, 2023, to be recognized for their reading achievements.

Happy Reading!
