Calculate GPA within EACH of the four APS requirement categories (Spanish Language Arts, English Language Arts, English Content, Spanish Content):

- Use the worksheet on page 3
- Letter grades are given a value of 1-4. To calculate the Grade Point Average, add the number for each letter grade earned (the average of both semesters, see page 1 for instructions) and divide by 4 (the number of credits required in each category). **Pick your highest grades in your content classes.**
- A = 4, B = 3, C = 2, D = 1, F = 0
- No extra points may be added or taken for +/- grades or for AP or Honors classes.
- If one semester of a Bilingual class is failed, it will not count for credit, unless the credit is recovered in Spanish.

Example:

Requirement: 4 years of Spanish Language Arts with a combined average of a C (2.0) or higher

Class title:	Semester 1 letter grade:	Semester 2 letter grade:	Average grade, both semesters (do not round up):
