FAYETTE COUNTY PUBLIC SCHOOLS

**Executive Summary
Fayette County Public Schools Board Meeting
Agenda Item**

MEETING: Regular

DATE: August 27, 2018

TOPIC: Approval of a Revision to the BG-1 Project Application for the Construction of the New Elementary School at Athens-Boonesboro Road BG 17-185

PREPARED BY: Myron Thompson, Chief Operating Officer @ 381-4165

Recommended Action on: 8/27/2018
Action Item for Vote (REGULAR MEETING)

Superintendent Prior Approval: No

Recommendation/Motion: Acknowledge the potential need to execute a change order to the general contract with Griggs Enterprises for a cost estimated to be as much as \$1,261,058 (One Million, Two Hundred Sixty-one Thousand, Fifty-eight Dollars), approve an increase by that amount to the project Contingency Funds and approve a revision to the current BG-1 Project Application for a total of \$24,909,747 (Twenty-four Million, Nine Hundred Nine Thousand, Seven Hundred Forty-seven Dollars) for the construction of the New Elementary School at Athens-Boonesboro Road, subject to the approval of the Kentucky Department of Education, District Facilities Branch, per the provisions of 702 KAR 4:160.

Background/Rationale: The construction of the new elementary school to be located on Athens-Boonesboro Road is listed as priority 2a.1 on FCPS's 2013 District Facility Plan. EOP Architects produced final Construction Documents for bidding describing the construction of a new building totaling approximately 80,000 SF to serve 750 students. The program is consistent with other recent FCPS elementary school projects. The construction started on April 1, 2018. Final completion is planned for August 2019. Two weeks into the work at the site the contractor found construction debris buried over a large portion of what will be the main parking lot and front lawn of the school. The design team, the contractor, and the project geotechnical engineer (employed by FCPS) immediately went to work to determine the extent of the debris and the effect this undesirable material would have on preparing foundation and pavements. The pre-purchase geotechnical and environmental surveys conducted on FCPS' behalf detected only minor surface debris, visible in a couple of small piles. There was no indication that the area of debris was as large as a football field or that the depth of the buried material extended down as much as ten feet below the surface. The removal of the debris down to 1.5' under lawns and 3' under pavements, provides a considerable cost reduction by limiting the work to only those unsatisfactory materials that are in direct conflict with permanent improvements, and sorting compactable building remnants from trash that can't be compacted to provide a stable subgrade even under lawns. The quantities of materials to be hauled off the site are drastically reduced. In order to keep the project on schedule, a Construction Change Directive has been issued to the contractor indicating that FCPS requires the work to continue, that the debris should be removed as it is encountered throughout the construction progress, and that payment will be made based on the actual material quantities as verified by the project geotechnical engineer.

PROPOSAL: Based on the review of alternate strategies, the FCPS staff and the design consultants recommend acceptance of the increase of the project Contingency Fund by \$1,261,058, and approval of a revision to the BG-1 Project Application for a total of \$25,113,861 (Twenty-five Million, One Hundred Thirteen Thousand, Eight Hundred and Sixty-one Dollars). Upon the Board's approval, these documents

will be submitted to the KDE District Facilities Branch for review and approval. Recommendation/Motion: Accept the base bid (no alternates) as submitted by AstroTurf Corporation, approve the proposed contract in the amount of \$898,171.00 (Eight Hundred Ninety-eight Thousand, One Hundred Seventy-one Dollars), and approve a revision to the BG-1 Project Application for a total of \$1,022,548 (One Million, Twenty-two Thousand, Five Hundred Forty-eight Dollars), for the replacement of the athletic field artificial turf and running track at Bryan Station High School, subject to the approval of the Kentucky Department of Education, District Facilities Branch, per the provisions of 702 KAR 4:160.

Background/Rationale: The stadium was reconstructed in 2007 as part of the BSHS building replacement project. Due to normal life-cycle and wear-and-tear, the artificial turf field and track are now ready for replacement. The initial BG-1 Project Application for the construction, identifying the extent and cost of the work, was approved by the Board at its January 22, 2018 meeting. That action also approved Pearson & Peters Architects produced final Construction Documents for bidding describing the replacement of the artificial turf and running track. The project is planned to start November, 2018, and final completion is planned for June, 2019. On August 1, 2018, four (4) bidders submitted proposals on the base bid. APPROVAL OF INSTRUCTIONAL SCHOOL FEES **FOR 2018-19**

BACKGROUND:

Instructional fees are to be monitored at the school level to ensure that the district is keeping a current record of board approved fees for students. All instructional fees will be in compliance with Board policy 08.232 Instructional Resources which state that *fees for rental or purchase of instructional resources may be charged*; and Board policy 09.15 Student Fees which reports that *all student fees and charges shall be established by the Board. RATIONALE:

Approval of school fees will help to ensure consistency district-wide with school fees, as well as to establish an expense limit.

PROPOSAL:

INSTRUCTIONAL FEES IN ELEMENTARY

Establish a maximum dollar amount of \$120 per elementary student (primary/intermediate) for all fees (field trips, supplies, etc) for the school year. A spreadsheet will be kept for each teacher/teaching team to monitor requested fees so that at any time there is a current record of fees to date.

Any Extended Field Trips are exempt from the maximum amount.

School supplies requested from parents for students should be for individual student consumable use only. Principals should review all supply lists before distributing to parents. Supply lists should be posted on school web sites by July 1. Teachers need to avoid requiring items that are classroom consumables such as cleaning supplies, copy paper, ink/printing cartridges, etc.

TOPIC: Jessie Clark Middle School – Sinkhole Mitigation Bid Award

PREPARED BY: Myron Thompson, Chief Operating Officer @ 381-4165

Action Item for Vote (PLANNING MEETING)

Superintendent Prior Approval: Yes

Recommendation/Motion: Accept bid submitted by ABR Construction, Inc. in the amount of \$64,759.00 (Sixty-four Thousand, Seven Hundred Fifty-nine Dollars).

Background/Rationale: The lawn south of the Jessie Clark Middle School building is the site of one of several known sinkholes in the neighborhood. While LFUCG considers this sinkhole an active component of the stormwater drainage system, the ground around it has continued to collapse in the last few years and a dangerous condition has developed. FCPS engaged a geotechnical engineer to study the subsurface geologic features and the problem will continue to grow unless mitigation steps are taken. A design to stabilize the collapsing mouth of the sinkhole has been completed by the engineer. Bids were advertised on July 3 and NO bidders responded by the July 11 due date. Pursuant to KRS 45A.375, when no bids have been received from responsive and responsible bidders, the local public agency may proceed with non-competitive negotiations in accordance with KRS 45A.380.

Based upon the non-competitive negotiation process, ABR Construction, Inc. submitted a base bid in the amount of \$64,795.00.
