

COOPERATIVE EXTENSION | NEWSLETTER

A Weekly Newsletter about the Kentucky State University Cooperative Extension Program

FAYETTE COUNTY EXTENSION OFFICE

5th Edition

Greetings

As always, we hope this newsletter finds you and your family safe and well. Many of us are making summer childcare plans. Over the years we have established routines and would know by how our children would spend their summers. Capacity building camps like Community Inspired Solutions, the YMCA, or even 4-H Youth Development Camps have become traditions. We often chose these places because we not only knew and trusted the staff, but because they provided a fun learning environment. Our children would learn life skills while creating memories of a lifetime. However, as you may be aware, many in-person youth camps have been canceled for the summer of 2020. Once again, COVID19 has challenged us to be flexible and creative. Our new normal of social distancing has left us once again searching for answers. This edition of the Fayette County Extension Office Newsletter will provide activities and camping experiences that can be conducted while creating safe distances. Take a look at the information listed, as always, please feel free to contact our office if additional information is needed

Kind Regards ,

Carla

Kentucky State University 4-H At Home!

Kentucky State University 4-H programming has gone virtual. Kentucky State University currently offers, KSU 4-H At Home!. This program for students in grades 3rd – 8th grade, is a one-stop shop with access to online resources available as well as activities and lesson plans created and developed by Kentucky State University 4-H Program. Students enrolled in the KSU 4-H At Home! program will be able to participate in online lesson plans and activities with the simple supplies and materials available at home! To register, create a Google account and register for our 4-H Google Classroom! Once registered, you will receive a link and each week receive hands-on 4-H Activities, online resources, and interactive videos in Science, Technology, Engineering, Arts, and Math (STEAM) Education.

Kentucky State University 4-H on the Go!

Starting in June 2020 The Kentucky State University 4-H on the Go! Program will provide hands-on Science, Technology, Engineering, Arts, and Math (STEAM) kits for 3rd-8th grade students. 4-H on the Go! Is an online subscription for youth to receive free hands-on educational kits. When students subscribe, they will become a 4-H Club member. Educational subscription kits for kids can be a great way to enhance your child's interest STEAM and expose them to new ideas. Each kit explores a new concept in STEAM.

Your monthly kit includes all the materials and inspiration for STEM projects such as circuits, robotics, rockets, arts and crafts. Complete each activity and earn points to receive prizes. other high demand products.

Please Note: 4-H Online Programs are currently available, however due to Covid-19, the delivery times of 4-H kits may be longer than expected limited due to

vendors and partners prioritizing shipping household items, medical supplies, and availability of selected vendors.

Kentucky State University 4-H Live Wednesdays!

Join us for live fun and hands-on activities every Wednesday from 1:00 p.m. to 2:00 p.m. 4-H Live is an extension of our 4-H summer camp programs. In this 8-day series from June – July, participate in live sessions in cooking, gardening, STEM, and arts and crafts projects.

To register for any of the programs previously mentioned, click [here](#).
