

Login Process for Wonders, Collections & enVision

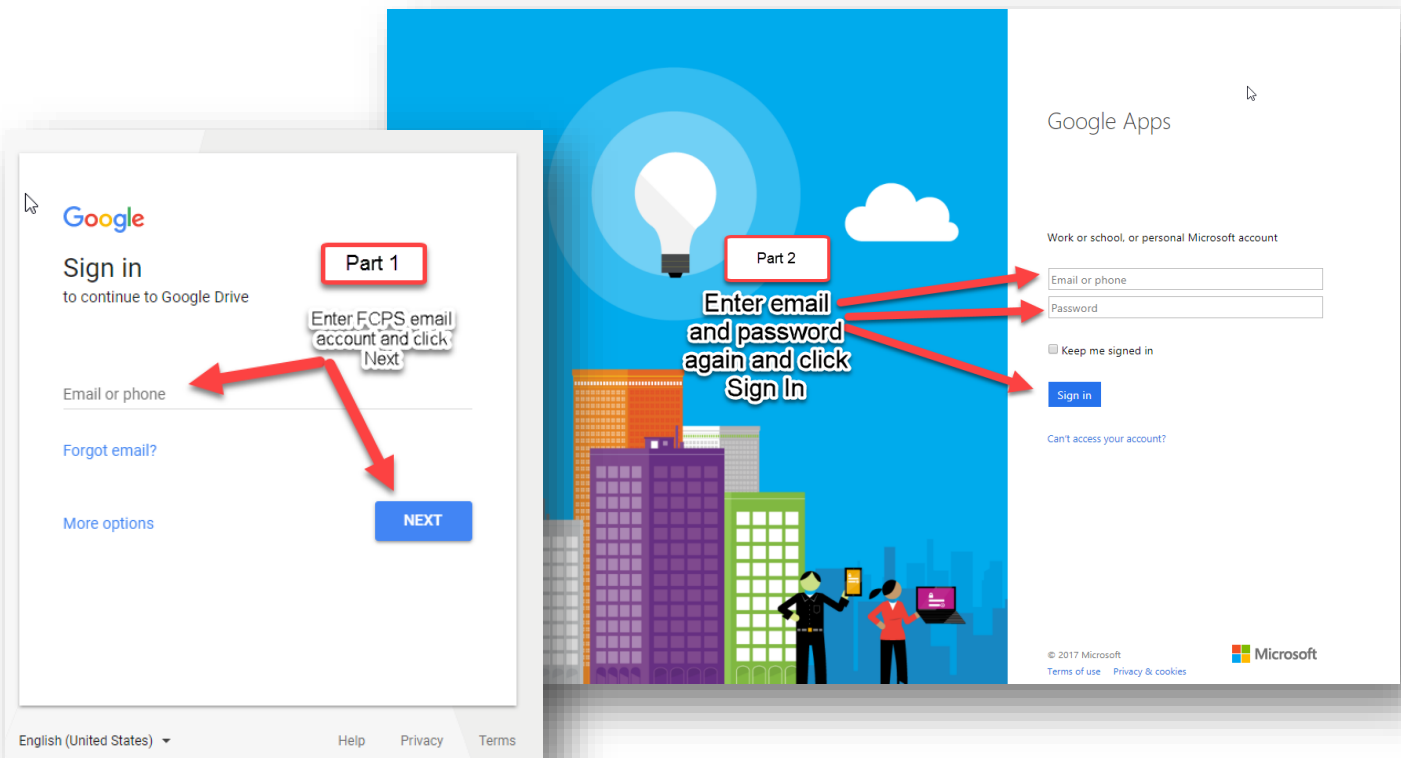

Step 1:

Open the browser and visit <http://drive.google.com> and click on Go to Google Drive.

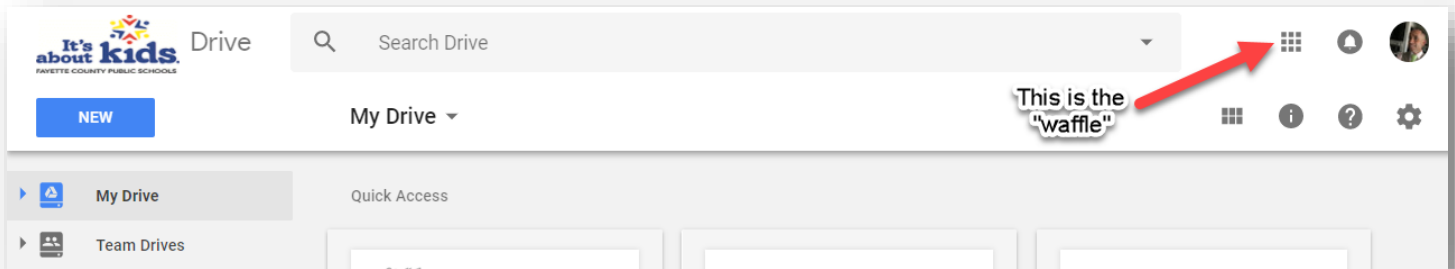

Step 2:

Enter your district email and password to login. (If you are already logged in, then it may skip step 1 and 2 and take you directly to your Drive. See Step 3.) **Make sure you are logged in with your FCPS account and NOT your personal gmail account.**

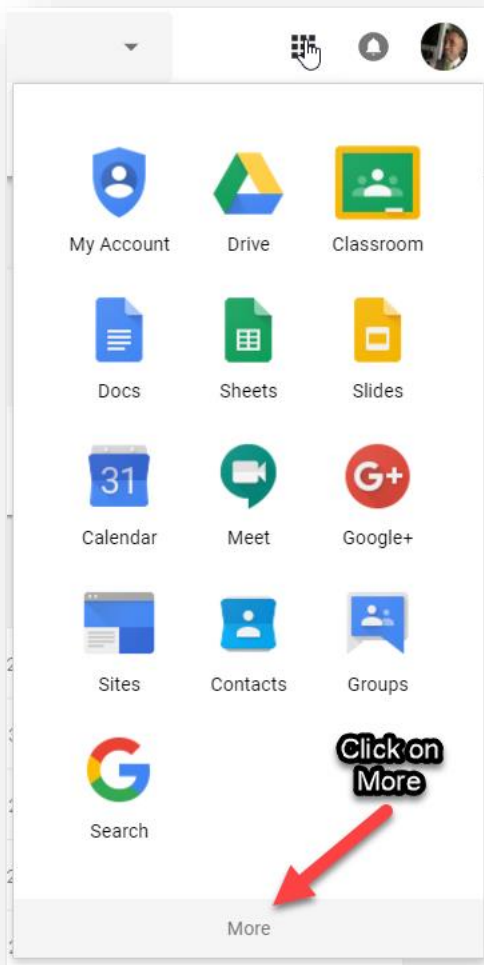

Step 3:

You should now be logged in to your Google Drive. If you haven't used it before, it may be empty, or you may have files/folders stored there. From inside Google Drive, you will click on the "waffle" in the right hand corner at the top.

When you first click on the waffle button, you will see some of the Google tools that are available to you. You must click on the More link at the bottom to find the links for Wonder, Collections and enVision.

After you click on the More button, you will see several more options. Scroll to the bottom of the box to find the login links for McGraw Hill ConnectEd (Wonders), Pearson EasyBridge (enVision) and HRW – Holt McDougal Online (Collections).
