Bella Vista High School Work Permit Requirements

Student and parents are reminded that:

1. All students under 18 years of age **MUST** possess a valid Work Permit when employed.
2. Work permits must be renewed the first week of school.
3. Students must demonstrate that they can maintain academic success, good attendance, and appropriate behavior before a Work Permit will be granted allowing work outside the school day.

A student without a valid Work Permit exposes their employer to a potential fine of \$10,000 per day as per California state law.

Criteria for approving a Work Permit:

1. Positive attendance (students receiving a 2nd truancy or 2nd excessive absences letter will have their Work Permit immediately revoked).
2. 2.0 GPA with no F's in any class (grades will be revised after each SEMESTER; students receiving a failing grade on the semester report card will have their Work Permit immediately revoked).
3. Student must be on track to graduate (credits).

I understand the above attendance and grade requirements and understand that I must first fully demonstrate that I am meeting all my school responsibilities before my Work Permit is granted. I am aware that an administrator will revoke my Work Permit if I fail to meet the above criteria and that my work employer will be contacted by an administrator in the event of permit revocation.
