Listed below are the district-approved regulations for middle school student's participation on a high school team.

KHSAA Bylaw 4, Enrollment Requirements – sets the rules governing all schools in Kentucky regarding below grade nine participation.

<http://khsaa.org/handbook/bylaws/20142015/bylaw4.pdf>

3. Middle school students, regardless of whether they have applied and received admission to a high school based on a program, still may only play for their high school of residence, determined by the Fayette County Schools Board of Education.

NOTE: The Middle School “Playing Up Approval Form” can be found as Appendix R, at your High School of residence, and on the FCPS Athletic website

Cancellations and Postponement of Games

If no appropriate alternate area is available, the coach must take reasonable precautions to minimize the risk for participants; Note: See suggestions in Coaches Responsibilities;*

Rule 2-1-10 states: *Spirit participants must remain outside the playing area during a 30-second or less time-out in a basketball game;*

BOMB THREATS DURING ATHLETIC EVENTS

A. Due to the excitement and various types of people that an athletic event draws, a bomb threat (if not handled in an orderly fashion) could result in complete pandemonium that could further result in serious injuries. If a threat is made during an athletic event, a possible means of delivering the message is by note. If a threat is delivered in writing, or by messenger, or posted in the building, the recipient of the note or letter must protect it against further handling by anyone else. The sender's fingerprints may be obtained from the envelope/paper containing the warning. If the written threat states that an explosive device is in a certain area that day, the bomb threat procedures adopted by the district shall be followed.

1. The paper/envelope containing the threat, along with the names of all known persons who have touched the paper and the envelope shall be turned over to the Law Enforcement Officer in charge.
2. If a threat is made by telephone, the procedure is the same as for a threat received during school hours.

B. If a threat is received during an athletic event, these procedures are to be followed:

1. Once the threat is received, the Principal and the Department of Law Enforcement shall be immediately informed.
2. The Principal shall implement the bomb threat procedures.

Should an evacuation be necessary, the following procedure will be followed:

- a. The public address system or similar device shall be utilized to announce the following:

"THE SAFETY OF THIS FACILITY HAS BEEN THREATENED AND WE MUST EVACUATE THE BUILDING IMMEDIATELY."

The evacuation shall be implemented by first removing the players and referees from the floor or field. Secondly, remove the occupants of the press box or score table. This action should result in making the evacuation of the spectators simpler. NO SCHOOL OFFICIAL, PLAYER, REFEREE OR PARTICIPANT (cheerleaders, band, etc.) SHALL BE ALLOWED TO REMAIN IN THE STADIUM OR GYMNASIUM.

After evacuation, the Department of Law Enforcement shall be responsible for searching the building and grounds. The first area to be searched shall be the area where the teams, referees, etc., will be housed. The second area to be searched shall be the areas accessible to the public; i.e., rest rooms, concessions, bleachers, etc. The third area to be searched shall be the playing field and surrounding school property within the stadium or gymnasium.

- C. If a suspected explosive device is located prior to or during the search, the following relocation procedures are to be utilized:
1. Depending on the type of explosive, it may become necessary to detonate the explosive immediately. If time allows relocation of the device, it will be relocated by the LEXINGTON-FAYETTE URBAN COUNTY POLICE BOMB SQUAD or the KENTUCKY STATE POLICE BOMB DISPOSAL UNIT to prevent unnecessary damage to school property.
 2. The relocation area must be an area away from the evacuated persons and away from the school building. The area should also be located in an area to prevent damage of the immediate residences, streets, business establishments, etc. (if possible).
 3. The Department of Law Enforcement shall survey for suitable areas for relocation purposes. By having a prearranged area, time will be saved in case the area is needed. Upon decision of an area for each school, the Principal will be notified.
- D. Announcement of re-entry or facility status will be made by the Principal as follows:

"THE BUILDING HAS BEEN SEARCHED AND NO EXPLOSIVE DEVICES HAVE BEEN DISCOVERED."

AT NO TIME will it be stated that the facility is "CLEAR" or "SAFE" for re-entry if evacuation has been implemented. Any follow-up announcements should NOT state the facility is "CLEAR" or "SAFE". There is no way of being positive that the facility or area is clear or safe.

PRECAUTIONARY MEASURES TO PROTECT PLAYERS
FROM EXCESSIVE HEAT DURING ATHLETIC PRACTICE

Extreme heat and humidity mandates that certain precautions be taken to protect your players from heat related injuries and illnesses.

PRECAUTIONS: These precautions apply to all practices.

1. Players shall be cautioned by the coaches as to signs and symptoms of heat exhaustion, and players shall be instructed to notify the coaches immediately when certain signs and symptoms of heat exhaustion occurs to them. Example: dizziness, blurred vision, nausea, severe cramping. Players shall be taken out of practice immediately and first aid should be administered immediately if such symptoms occur. Heat illness is a completely preventable illness but can be a life threatening emergency if left untreated. Heat illness is cumulative. Once an athlete stops sweating and their skin becomes red, these individuals need to be transported immediately to an emergency room. Instruct players to monitor their teammates on the signs and symptoms of heat illness.
2. Acclimate your players slowly to the heat and be aware that younger athletes may be more susceptible. Do not practice vigorously at first. Changing practice time to earlier or later in the day may be necessary.
3. The two (2) prime causes of heat exhaustion are overweight or out of condition athletes.
4. The first five (5) to seven (7) days of practice shall be in shorts and helmets. (Helmets apply only to football.)
5. Unlimited water shall be made available at practice. Your players should drink plenty of water - more than usual - proper diet habits, i.e., fruit, sports drinks, no soda or anything with caffeine. Drink fluids throughout the day to establish a proper hydration level.
6. Check humidity levels on practice days and on the field if possible. Humidity is extremely important in the cause of heat related injuries.
7. In excessive heat, coaches shall develop procedures to check weight before and after practice. Continued weight loss during practice will cause heat exhaustion.
8. Practice time shall be 1 ½ hours in length maximum. A break of five (5) to ten (10) minutes shall be given every one-half (½) hour.
9. Advise your players that too much salt intake can be harmful. (salt tablets)
10. Football helmets shall be removed whenever possible.
11. If symptoms of heat exhaustion occur in any player, special attention and supervision shall be given to the player. Treat all heat related injuries as serious.

PRECAUTIONARY MEASURES TO PROTECT PLAYERS
FROM EXCESSIVE HEAT DURING ATHLETIC GAMES

Extreme heat and high humidity mandate that precautions be taken at athletic events to protect players from heat related injuries and illness.

PRECAUTIONS: These precautions apply to both home and away games.

1. Players shall be cautioned by the coaches as to signs and symptoms of heat exhaustion and players shall be instructed to notify the coaches immediately when certain signs and symptoms of heat exhaustion occur to them. Example: dizziness, blurred vision, nausea, severe cramping. Players shall be taken out of the game immediately and first aid should be administered immediately if such symptoms occur. Heat illness is a completely preventable illness but can be a life threatening emergency if left untreated. Heat illness is cumulative. Once an athlete stops sweating and their skin becomes red, these individuals need to be transported immediately to an emergency room. Instruct players to monitor their teammates on the signs and symptoms of heat illness.
2. Acclimate your players slowly to the heat and be aware that younger athletes may be more susceptible. Do not practice vigorously at first. Changing practice time to earlier or later in the day may be necessary.
3. Pre-game warm-ups shall be shortened to include only stretching exercises.
4. A pre-game meeting shall be held with the coaches of both teams and the game officials to alert the officials to be observant of players that appear to be sluggish and extremely tired due to the heat.
5. A plan shall be formulated in the pre-game meeting of the coaches and officials as to what measures will be taken during all sports (soccer, baseball, track, etc.):
 - a. to possibly shorten the game, especially the last half of the game, and
 - b. to provide for lengthening the breaks between quarters in football up to 5 minutes and between halves up to 20 minutes, if needed.
 - c. Increase frequency of water breaks during game.
5. Be certain that there is a paramedic present at home football games.

6. Extra amounts of water and ice shall be provided by the school for team use.
7. When a player comes out of the game, he/she should remove any non-essential equipment (this would include but not be limited to helmets, shoulder pads, goalie shirts, goalie gloves) and be provided sufficient water to cool down. Consideration should be given to all players on the sidelines, especially players that have been involved in the game, to be permitted to remove any head covering.
8. Treat ALL heat related injuries as serious. Special attention and observation shall be given to all players that have experienced any symptoms of heat exhaustion.

NOCSAE FOOTBALL HELMET WARNING STATEMENT

Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injury, paralysis or death to you and possible injury to your opponent. No helmet can prevent all head or neck injuries a player might receive while participating in football.

SHARED RESPONSIBILITY FOR SPORT SAFETY

1. Serious head and neck injuries, leading to death, permanent brain damage, or quadriplegia (extensive paralysis from injury to the spinal cord at the neck level), occur each year in football. The toll is relatively small (less than one fatality for every 100,000 players, and an estimated one nonfatal severe brain and spinal cord injury for every 100,000 players, and an estimated one nonfatal severe brain and spinal cord injury for every 100,000 players), but persistent. They cannot be completely prevented due to the tremendous forces occasionally encountered in football collisions, but they can be minimized by manufacturer, coach and player compliance with accepted safety standards.
2. The NOCSAE seal on a helmet indicates that a manufacturer has complied with the best available engineering standards for head protection. By keeping a proper fit, by not modifying its design, and by reporting to the coach or equipment manager any need for its maintenance, the athlete is also complying with the purpose of the NOCSAE standard.
3. The rules against intentional butting, ramming, or spearing the opponent with the helmeted head are there to protect the helmet person much more than is the candidate for catastrophic injury. For example, no helmet can offer protection to the neck, and quadriplegia now occurs more frequently than brain damage. The typical scenario of this catastrophic injury in football is the lowering of one's head while making a tackle. The momentum of the body tries to bend the neck after the helmeted head is stopped by the impact, and the cervical spine cannot be "splinted" as well by the neck's muscles with the head lowered as with the preferred "face up, eyes forward, neck pulled position. When the force at impact is sufficient, the vertebrae in the neck can dislocate or break, cause damage to the spinal cord they had been protecting, and thereby produce permanent loss of motor and sensory function below the level of injury.
4. Because of the impact forces in football, even the "face up" position is no guarantee against head or neck injury. Further, the intent to make contact "face up" is no guarantee that the position can be maintained at the moment of impact. Consequently, the teaching of blocking/tackling techniques which keep the helmeted head from receiving the brunt of the impact are now required by rule and coaching ethics, and coaching techniques which help athletes maintain or regain the "face up" position during the milieu of a play must be respected by the athletes.

NOTE: It is mandatory for the head coach to read these statements to all football players followed by explanations and discussions. Further, this statement is to be posted in a conspicuous place in the football dressing room.

The function of a coach is to properly educate students through participation in interscholastic competition. The interscholastic program is designed to enhance student achievement and should not interfere with opportunities for academic success. The welfare of each child shall be of utmost importance at all times. To recognize the importance of a high standard of ethics, sportsmanship and personal conduct on the part of all coaches the following guidelines have been developed:

Coaches must not neglect their academic duties. Practice length and times should not conflict with class preparation and responsibility.

Coaches are expected to be aware of the tremendous influence they have in the education of student participants and, thus should never place the value of winning above the value of instilling the highest desirable ideals of character.

Coaches are expected to uphold the honor and dignity of their professions. In all personal contact with student participants, school officials, state governing associations, the media, and the public, the coaches shall strive to set an example of the highest ethical and moral conduct.

Coaches are expected to maintain open lines of communication with parents, guardians, participants and community.

Coaches are expected to take an active role, in the prevention of drug, alcohol and tobacco abuse and under no circumstances should authorize their use. Furthermore, all coaches shall refrain from personal use of drugs, alcohol and tobacco while on property owned or used by the school district, while performing their assigned coaching duties at any location, or while attending any training sessions for coaches at any location.

Coaches have the responsibility to promote the entire athletic program of the school. The coaches should not mandate off season conditioning, weight training, etc. for athletes who are presently participating in a seasonal sport. Athletes can only attend if there are no conflicts with the current season sport. Coaches are prohibited from encouraging student athletes to quit participation in any sport. Coaches should not communicate to student athletes in any manner that participation on or membership on a team is contingent on the student athlete's participation in out of season conditioning, weight training, etc.

Coaches are expected to be thoroughly knowledgeable with state association policies/rules, district policies, contest rules and are responsible for their interpretation to team members and parents. The spirit and letter of the rules should be regarded as mutual agreements. The coach shall not try to seek an advantage by circumvention of the spirit or letter of the rules.

Coaches are expected to actively use their influence to enhance sportsmanship among participants, spectators, support groups, pep clubs, and administrators. Furthermore, at the completion of the contest coaches and participants should demonstrate good sportsmanship by shaking hands.

Coaches are expected to show respect for and support of the contest officials. The coaches should not indulge in conduct that will incite players or spectators against officials. Public criticism of officials is unethical.

Coaches are expected to avoid abusive, vulgar and profane language whether directed at participants, spectators, contest officials or opponents.

Coaches must report infractions, suspensions and disqualifications of players and teams to the principal and middle school director.

Coaches must not request from faculty members special consideration for student participants.
