

Setting Up Parent Observer Access in Canvas

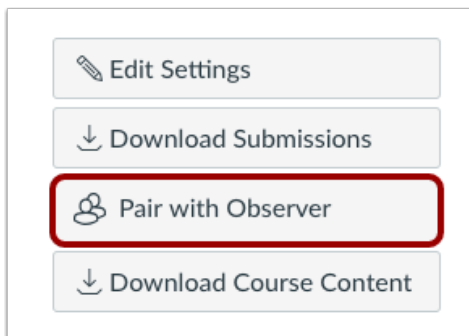

1. The parent will first need to ask their child to sign on to Canvas and generate a pairing code. See instructions for the student below:

Open **Settings**

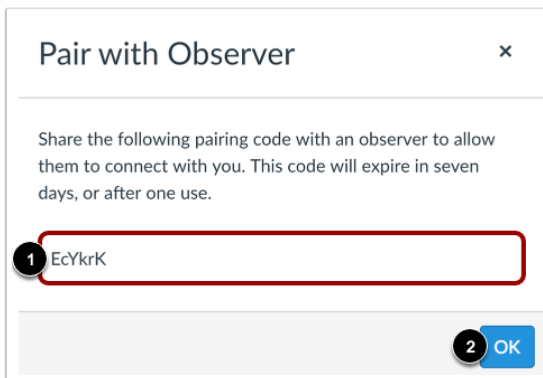

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].

Click on **Pair with Observer**

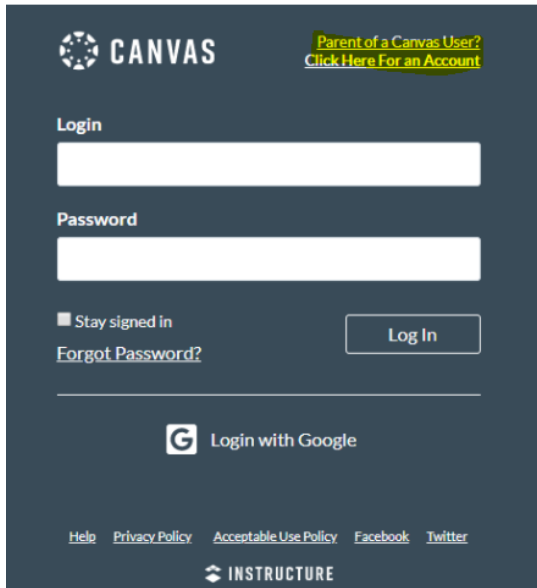

Copy the six-digit alphanumeric pairing code [1]. You will need to share the code with the observer who will link to your account. The pairing code will expire after seven days or its first use.

To close the window, click the **OK** button [2].

2. The parent will go to <https://newtonhs.instructure.com/login/canvas>
Click on the link in the upper right that says **Parent of a Canvas User? Click Here for an Account.**

Fill out the information including the **Student Pairing Code**.

Using One Observer Account for All of Your Students

- You can link to multiple students as an observer, as long as you use a unique pairing code for each student.
- When creating an account, you will only be able to enter one pairing code.
- Additional pairing codes can be **entered from your User Settings**.
