

## West Mesa Club Info & Contact Sheet

The National Honor Society (NHS) elevates a school's commitment to the values of scholarship, service, leadership, and character. The National Honor Society transcends American education and life. Since 1921, NHS has been recognizing the highest achieving students in grades 10-12. Today, NHS inducts more than 1 million members each year who make significant service contributions to their schools and communities. NHS has become a springboard for life for successful individuals—from public servants, to media luminaries, to Supreme Court justices, to sports legends. What do entertainer Taylor Swift, former first lady Michelle Obama, and baseball legend Cal Ripken Jr., have in common? They were all members of the National Honor Society. Welcome to the organization the world's highest achieving students have been proudly adding to their résumés since 1921.
