Mission Statement

Here at West Mesa's GSA, we aim to use education in order to advocate for the safety and well-being of marginalized groups, including but not limited to the LGBTQ+ community. We aim to create an environment where respect and confidentiality are priorities, in addition to providing resources to students and staff.

GOALS

- Pave the way for a more accepting community in terms of diversity
- Encourage active participation of group members in discussion
- Become more involved with the school community
- Educating the staff/students as a whole.
