- If you've taught at or seen a middle school with a feature that doesn't exist at ACPS that you think should be here, please identify it:**
- Outdoor seating and work areas
 - Other ACPS middle schools have a larger kitchen lab space. Ours is not large enough for full size classroom. A more functional room/s should be designed for exploratory courses. The room also does not have any windows. Also, my students think that middle schoolers would still use outdoor playscapes and swings. I agree!
