| If you've taught at or seen a middle school with a feature that doesn't exist at ACPS that you think should be here, please identify it:	
1.	Outdoor access for teaching on a regular basis that is safe
2.	Turf field
3.	Library at my old school was HUGE - biggest space in the school. 20 ft walls of E/S/W windows, small stage, 2 flexible classrooms (chairs/tables for 25, smartboard, whiteboard), lots of casual seating. It was the hub of the school, ran before school hangout/game time, and had adjoining makerspace. It set the tone in the school - incredibly high checkout rates, awesome reading scores, sunny friendly attitudes. Also had large open classroom space in each grade/wing for project time & class collab.
4.	Charging stations for staff electric vehicles. Seems like a really nice perk to attract teachers. Also, some things like coffee in the workroom would be nice. Our PATSO provides it this year, but seems like a small thing which would make people happy. Companies do things like this to retain employees and attract new ones. School systems may need to start these kinds of practices too.
5.	A large enough space for the whole school to gather-- an auditorium or larger cafeteria. There's nowhere to hold a whole school assembly! Henley also needs significantly more natural light-- especially in shared spaces like the library and cafeteria.
6.	I liked the Smartboards higher on the walls-
