Board of Directors
Conewago Valley School District

We have performed the Single Audit of the Conewago Valley School District for the year ended June 30, 2019 and have enclosed the Single Audit package.

The Single Audit was done to fulfill the requirements of the Uniform Guidance Compliance Supplement. The audit included an examination of the systems of control, systems established to ensure compliance with laws and regulations affecting the expenditures of federal funds, financial transactions and accounts and financial statements and report of the District.

A management letter was prepared as a result of this audit and is included as part of this report.

Sincerely,

Kochenour, Earnest, Smyser & Burg

Re: Management Letter

Board of Directors:

We have completed our audit of Conewago Valley School District for the year ended June 30, 2019.

We have audited the accompanying basic financial statements of the Conewago Valley School District as of and for the year ended June 30, 2019. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. We have issued our audit report in accordance with the above standards stating that the basic financial statements present fairly in all material respects the financial position of the Conewago Valley School District.

In planning and performing our audit, we considered Conewago Valley School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of Conewago Valley School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Conewago Valley School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be significant deficiencies or material weaknesses, as defined above.

We have also audited the compliance of Conewago Valley School District with the types of compliance requirements described in the Uniform Guidance Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2019.

We did not have any findings or questioned costs for the year ended June 30, 2019.

We would like to take this opportunity to thank Lori Duncan and her staff for the cooperation and assistance we received during the course of our audit.

Sincerely,

Kochenour, Earnest, Smyser & Burg

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Conewago Valley School District
New Oxford, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Conewago Valley School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America: this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Directors
Conewago Valley School District
New Oxford, Pennsylvania

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Conewago Valley School District as of June 30, 2019, and the respective changes in financial position, and cash flows for the year ended in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary procedures in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Conewago Valley School District's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Directors
Conewago Valley School District
New Oxford, Pennsylvania

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 19, 2019, on our consideration of Conewago Valley School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Conewago Valley School District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
June 30, 2019**

The discussion and analysis of Conewago Valley School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to review the District's financial performance as a whole; readers should also review the financial statements, notes to the financial statements and related audit information to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

During the 2018-2019 fiscal year the Conewago Valley School District experienced significant increases in the costs for special education, PSERS and utilities. In the budgeting process, the Board of School Directors was able to balance the budget with a millage of 13.0457 and the use of fund reserves. The District anticipated utilizing \$1,349,966 of designated fund reserves and undesignated fund reserves to balance the budget. At year end, the District added \$399,165 to the fund reserves. The District will continue to budget in a manner that would alleviate continual dependence on fund reserves to balance the budget.

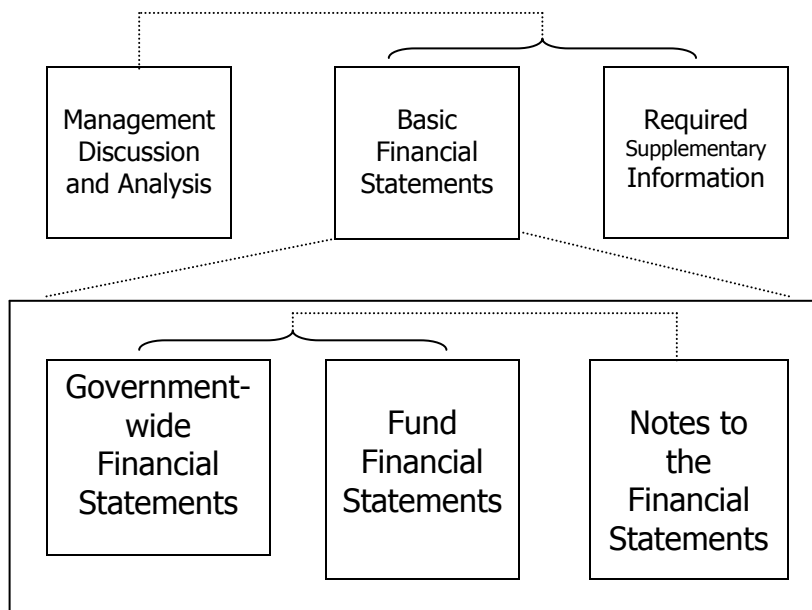

**CONEWAGO VALLEY SCHOOL DISTRICT
NEW OXFORD, PENNSYLVANIA**

The remaining statements are fund financial statements that focus on individual parts of the District's operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term, as well as what remains for future spending. Proprietary fund statements offer short- and long-term financial information about the activities that the District operates like a business. For this District, this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain specific information in the financial statements and provide more detailed data.

OVERVIEW OF FINANCIAL STATEMENTS

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, is one measurement of the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- **Governmental activities** – All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business type activities** –The District operates a food service program and charges fees to staff, students and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary Funds - The District is the trustee, or fiduciary, for some small scholarship funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets. We exclude these activities from the District's other financial statement because the District cannot use these assets to finance its operations.

The vast majority of the District's net assets are invested in capital assets (buildings, land, and equipment). The remaining unrestricted net assets are designated and undesignated amounts. The designated balances are amounts set-aside to fund future purchases or capital projects as planned by the District.

The results of this year's operations as a whole are reported in the Statement of Activities of the audited financial statements. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

THE DISTRICT FUNDS

At June 30, 2019, the District governmental funds reported a total fund balance of \$8,025,792, which is a increase of \$399,165. The primary reasons for the increase are specific to the general funds as noted below. The intent is to reduce the dependency on the fund reserves and careful scrutiny of all expenditures:

General Fund: The District is continuing to try to control expenses in an effort to alleviate its dependence on Fund Balance in order to balance the Budget. The State continues to place mandates on the District. The District has scrutinized the utilities, repairs, transportation and many others areas in order to find ways to be more efficient and cost effective. The goal of the District is to not utilize Fund Balance to balance the budget since there are many future unknown costs to the District, such as retirement and health costs. To balance the budget, the District anticipated utilizing \$1,349,966 of fund reserves; however, the District did not utilize the fund reserves. The District was able to minimize spending and utilize funds from a Bond refinance to pay for some major repairs that were originally included in the Budget. Overall the District continues to operate efficiently and is striving to eliminate its reliance on fund reserves to balance the budget in order to be prepared for the future mandates.

General Fund Budget

During the fiscal year, the Board of School Directors authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year, and is permitted by state law. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in the audited financial statements.

The District applies for federal, state, and local grants and these grants cannot always be anticipated in the budgeting process. Budgeted expenditures and other financing uses also increased by this same amount to compensate for the additional approved grants. Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur from the budget reserve category to specific expenditure areas.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The School District enrollment has increased slightly over the past three years long-range projections would indicate a slow continual increase in population. The projections for an escalated level of residential growth in the area given the presence of developable land within the district continue to slowly be developed. The revenue and expenditure budget for the 2019-20 year increased in comparison the same as the original budget for 2018-2019. This represents a 7.0% increase in budgeted revenues and expenditures.

The comparison of revenue and expenditure categories is as follows:

RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
JUNE 30, 2019

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS \$ 15,089,475

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets is \$98,078,151 and the accumulated depreciation is \$34,302,582. 63,775,569

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds. 947,750

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Bonds Payable	\$ (49,675,000)	
Accrued Interest on the Bonds	(414,202)	
Compensated Absences	<u>(673,590)</u>	(50,762,792)

These assets and liabilities are not presented in the governmental funds but are presented as assets and liabilities on the Statement of Net Position in the governmental activities.

Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore are not reported in the funds.

Deferred outflows of resources related to pensions	14,190,688
Deferred inflows of resources related to pensions	(1,658,000)

Deferred outflows of resources related to OPEB	882,217

AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2019

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ (7,692,173)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense. This is the amount which capital outlays exceeds depreciation for the period.

Depreciation Expense	\$ (1,385,215)	
Capital Outlays	<u>13,427,769</u>	12,042,554

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred tax revenues increased by this amount this year. (44,871)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 2,720,000

Bond Interest Expenses are recorded in the statement of activities, but not recorded as expenses in the governmental funds. -

Interest on serial bonds is recorded in the governmental funds when paid, but the statement of activities records interest expense as it is incurred. Accrued interest increased by this amount this year. (1,021)

Bond Issue Expenses are recorded as expenses in the statement of activities, but not recorded as expenses in the governmental funds. (87,632)

Bond discount amortizations are recorded as expenditures in the governmental funds but are recorded as long-term assets in the statement of net position and amortized over the term of the bonds. (36,658)

Bond premium amortizations are recorded as revenue in the governmental funds but is recorded as a long-term liability in the statement of net position and amortized over the term of the bonds. 124,087

Governmental funds report district pension contributions as expenditures. However in the Statement of Activities, the cost of pension related benefits earned net of employee contributions is reported as pension expense.

District pension contributions		8,543,844
Cost of pension benefits earned, net of employee contributions		(10,393,184)

OPEB expense is recorded on the Government-Wide Financial Statements but is not recorded as an expense in Governmental Funds. (173,209)

Bond Proceeds recorded as revenue in the governmental funds, but the proceeds increases long-term liabilities in the statement of net assets. (5,004,264)

Accrued compensated absences are not recorded as expenditures in compensated absences increased (decreased) by this amount this year.		30,090

CONEWAGO VALLEY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared in accordance with the accounting system and procedures prescribed for school districts by the Commonwealth of Pennsylvania, Department of Education, which conforms to generally accepted accounting principles as applicable to governmental units. The following is a summary of the significant policies.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments. Certain of the significant changes in the Statement include the following:

The GASB No. 34 financial statements include:

A Management's Discussion and Analysis (MD & A) providing an analysis of the District's overall financial position and results of operations.

Financial statements prepared using full-accrual accounting for all of the District's activities.

A change in the fund financial statements to focus on the major funds.

These changes are reflected in the accompanying financial statements (including notes to financial statements).

A. REPORTING ENTITY

Conewago Valley School District is a third class Pennsylvania School District based on its population encompassing all or portions of eleven municipalities.

The Conewago Valley School District School Board is the basic level of government which has oversight responsibility and control over all activities related to the public school education in the Conewago Valley School District. The District receives funding from local, state, and federal government sources and must comply with their accompanying requirements. However, the Board is not included in any other governmental "reporting entity" as defined by the GASB Pronouncement, since Board members are elected by the public and have decision-making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units as defined in Governmental Accounting Standards Board Statement 14 which are included in the District's reporting entity.

The reporting entity for Conewago Valley School District consists only of those funds, functions, and activities controlled by the School Board and required or allowed by State laws and regulations.

The financial statements of the School District include all funds and activities that are controlled by or dependent on the School District. Control or dependence is determined on the basis of budget adoption, taxing authority, and appointment of advisors.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. REPORTING ENTITY (CONTINUED)

The District has evaluated its relationship with the Conewago Township School Authority and determined it is a component unit. The District appoints a majority of the Authority's governing body and is obligated for the debt of the Authority. The Authority is still in existence, although dormant, and all District related debt and capital assets constructed previously would be included in the statement of net assets.

B. FUND ACCOUNTING

The accounts of the Conewago Valley School District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in the financial statements in this report as follows:

GOVERNMENTAL FUNDS

GENERAL FUND - The General Fund is the operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS - Special Revenue Funds are used to account for the proceeds of special revenue sources that are legally restricted to expenditures for specific purposes.

CAPITAL PROJECT FUNDS - Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Capital Reserve Fund is a Capital Project Fund.

PROPRIETARY FUNDS

ENTERPRISE FUNDS - Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - when the intent of governing body is that costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges. The Food Service Fund is a Modified Enterprise Fund because most food service funds in Pennsylvania's Public School System depend on support from the General Fund of the District as well as state and federal subsidization in order to operate.

FIDUCIARY FUNDS

TRUST & AGENCY FUNDS - Agency Funds are used to account for assets held by the District as an agent for school organizations or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Activities Fund and the Trust Funds are Agency Funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. BASIS OF PRESENTATION

Government-Wide Financial Statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the school district. As a general rule the effect of interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function or segment. Program revenues include charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. In addition, program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements are also provided in the report for all of the governmental funds, proprietary funds, and the fiduciary funds of the school district. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statement. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the school district's enterprise fund are food service charges. Operating expenses for the school district's enterprise fund include food production costs, supplies, administrative costs, and depreciation on capital assets. All revenues or expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District reports the following major governmental funds:

The general fund is the district's primary operating fund. It accounts for all financial resources except those required to be in another fund.

The capital project fund accounts for financial resources to be used for the acquisition or construction of major capital facilities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as soon as all eligibility requirements imposed by the provider have been met. Net position (total assets less total liabilities) are used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net position. Depreciation is charged against current operations and accumulated depreciation is reported on the statement of net position.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenues to be available if collected within 60 days of the end of the fiscal period. Revenue from federal, state, and other grants designated for payment of specific school district expenditures is recognized when the related expenditures are incurred; when such funds are received, they are recorded as deferred revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

E. INVENTORY

Inventory in the General Fund is recorded as an expenditure at the time of purchase.

Inventory in the Proprietary Fund is valued at cost, except government donated food is priced at fair market value at date of receipt.

F. CASH AND CASH EQUIVALENTS

For the purposes of the statement of cash flows, the proprietary fund type considers all highly liquid investments with a remaining maturity of three months or less when purchased to be cash equivalents.

G. RECEIVABLES AND PAYABLES

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

CONEWAGO VALLEY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. PREPAID EXPENSES

In both government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

I. POLICY FOR CAPITALIZING ASSETS AND ESTIMATING USEFUL LIVES - GOVERNMENT-WIDE FINANCIAL STATEMENTS

The School District reports capital assets at historical cost or estimated historical cost. Capital assets include land, improvements, easements, buildings, building improvements, vehicles, machinery, equipment, infrastructure and all other tangible or intangible assets that are used in operation and that have useful lives extending beyond a single reporting period. The School District's policy is to capitalize assets, or groups of assets with costs in excess \$5,000. Estimated depreciation expense is calculated using the straight-line method over the useful lives of capital assets ranging from 5 to 50 years.

J. ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. Bonds are recognized as a liability on the fund financial statements when due.

K. NET POSITION

Net Position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for acquisition, construction or improvement of those assets.

L. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CONEWAGO VALLEY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. PROGRAM REVENUES - GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Activities reports three categories of program revenues: (a) charges for services, (b) program specific operating grants and contributions and (c) program specific capital grants and contributions. Program revenues derive directly from the program itself or from parties outside the reporting government's taxpayers or citizenry. As a whole, they reduce the net cost of the function to be financed from the government's general revenues.

NOTE 2 - PROPERTY TAXES

The School District levies property taxes on July 1, for the ensuing fiscal year ending June 30. Taxes paid by August 31, receive a 2% discount. Taxes paid after October 31, are assessed a 10% penalty. Any taxes not received by April 30, are turned over to Adams County Tax Claim Bureau for collection. Interim taxes are assessed at various times during the year as needed.

Taxes receivable as reported on the Governmental Fund balance sheet represents unpaid property taxes outstanding at June 30, 2019. Taxes receivable not deemed available under generally accepted accounting principles are included in deferred revenues. Since all property taxes are presumably collectible, no provision for uncollectible taxes has been made.

NOTE 3 - CASH AND INVESTMENTS

Cash and Investments are stated at cost, which approximates market. Cash includes certificates of deposit with maturities of three months or less. Statutes authorize the School District to invest in obligations of the U.S. Treasury, agencies, and instrumentalities and state treasurer's investment pools. The School District's cash and investments are categorized to give an indication of the level of risk assumed by the School District at year-end.

The risk categories for cash are:

Category 1 - Deposits which are insured or collateralized with securities held by the District or its agent in the District's name.

Category 2 - Deposits which are collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.

Category 3 - Deposits which are uncollateralized, including any bank balance that is collateralized with securities held by the pledging financial institution or by its trust department or agent but not in the District's name.

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

The risk categories for investments are:

Category 1 - Investments that are insured or registered for which securities are held by the District or its agent in the District's name.

Category 2 - Uninsured and unregistered investments for which securities are held by a broker's or dealer's trust department or agent in the District's name.

Category 3 - Uninsured and unregistered investments for which the securities are held by the broker or dealer or by its trust department or agent but not in the District's name.

Cash

Cash on hand amounted to \$475 at June 30, 2019.

At year-end, the carrying amount of the School District's cash (checking, savings and certificates of deposit with maturities of three months or less) was \$20,529,647 and the bank balance was \$21,188,127.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2019, \$30,901,423 of the District's bank balance of \$21,188,127 was exposed to custodial credit risk as:

Uninsured and Uncollateralized	\$ 0

NOTE 5 - SUBSEQUENT EVENTS

Management of the District has evaluated subsequent events through the date of the audit report. No subsequent events were noted.

NOTE 6 - CONTINGENCIES

The District is from time to time subject to routine litigation incidental to School District Activities. While the final resolution of any matter may have an impact on the District's financial results for a particular reporting period, the District believes the ultimate disposition of any such litigation would not have a materially adverse effect upon the financial position of the District.

NOTE - 8 - PENSION PLAN

1. Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms investments are reported at fair value.

General Information about the Pension Plan

Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System included all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the members' final average salary (as defined in the code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the members' final average salary (as defined in the code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F

members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Member Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T - C) or at 6.5% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who are active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.5% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the members qualifying compensation. All new hires after June 30, 2011, who elect Class T - F membership, contribute at 10.3% (base rate) of the members qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions:

The school districts' contractually required contribution rate for fiscal year ended June 30, 2019 was 32.60% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$8,543,844 for the year ended June 30, 2019.

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019 the School reported a liability of \$89,337,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2017 to June 30, 2018. The School's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it related to the total one-year reported covered payroll. At June 30, 2018, the School's proportion was .1861%, which was an increase of .0022 from its proportion measured as of June 30, 2017 which was .1839%.

Contributions subsequent to the measurement date	<u>8,543,844</u>	<u>-</u>
	14,190,688	1,658,000

\$8,543,844 reported as deferred outflows of resources related to pensions resulting from School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2019	2,633,000
2020	1,841,000
2021	(792,000)
2022	(341,000)

Actuarial assumptions

The total pension liability as of June 30, 2018 was determined by rolling forward the System's total pension liability as of June 30, 2017 actuarial valuation to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in assumptions used in measurement of the Total Pension Liability beginning June 30, 2018

The Investment Rate of Return was adjusted from 7.50% to 7.25%.

The inflation assumption was decreased from 3.0% to 2.75%.

Salary growth changed from an effective average of 5.50%, which comprised of inflation of 3.00%, real wage growth and for merit or seniority increases of 2.50%, to an effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.

NOTE - 8 - PENSION PLAN (CONTINUED)

Mortality rates were modified from the RP-2000 Combined Healthy Annuitant Tables (male and female) with age set back 3 years for both males and females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. For Disabled annuitants the RP-2000 Combined Disabled Tables (male and female) with age set back 7 years for males and 3 years for females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. The actuarial assumption used in the June 30, 2016 valuation were based on the experience study that was performed for the five-year period ending June 30, 2015. The recommended assumption changes based on this experience study were adopted by the Board at its June 10, 2016 Board meeting, and were effective beginning with the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global public equity	20.0%	5.2%
Fixed Income	36.0%	2.2%
Commodities	8.0%	3.2%
Absolute return	10.0%	3.5%
Risk parity	10.0%	3.9%
Infrastructure/MLPs	8.0%	5.2%
Real estate	10.0%	4.2%
Cash	3.0%	0.4%
Alternative investments	15.0%	6.7%
Financing (LIBOR)	-20.0%	0.9%
	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

Sensitivity of the School's Proportionate share of the net pension liability to changes in the discount rate

NOTE - 8 - PENSION PLAN (CONTINUED)

Discount rate

The discount rate used to measure total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School's Proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
School's proportionate share of the net pension liability	110,740,000	89,337,000	71,241,000

NOTE 9 - COMPENSATED ABSENCES

Contractual provisions with Instructional General Fund employees require that in the year of retirement or demise the employee is entitled to receive an amount computed by multiplying the number of such employee's unused accumulated sick days up to a maximum of 200 such days by \$40. Contractual provisions also require that each employee shall be granted three school days of personal leave of absence per year without loss of pay. A maximum of five days of personal leave may be accumulated and if accumulated, may be used or redeemed for a payment of \$100 per day. Instructional service pay as of June 30, 2019 totals \$451,411 and is recorded on the Statement of Net Position Government Wide Statements. Also, unused vacation pay accumulated at June 30, 2019 for General Fund employees totaled \$222,178 and is recorded on the Statement of Net Position Government Wide Statements.

Likewise, Food Service Fund employees' accumulated unpaid sick leave and vacation totaled \$20,241 and \$9,053 respectively and is recorded in the Food Service Fund.

NOTE 10 - OTHER POSTEMPLOYMENT BENEFITS

Each retired qualifying employee will be able to continue hospitalization and major medical insurance benefits provided in the collective bargaining agreement and all subsequent agreements until the employee attains the age of sixty-five. The District will pay 40% of the premium cost of individual coverage for the retired employee's medical coverage under the District's medical plan. To qualify, the employee must meet the following three requirements:

- 1 Be eligible for retirement through the Public School Employees Retirement System.
- 2 Be between the ages of 55-65 or have 30 or more years of credit in the retirement system.
- 3 Continue enrollment and payment of remaining premium within established grace periods.

At such time that comparable group health insurance becomes available through any means other than the District, the option to continue coverage through this provision no longer exists.

The District finances their share of the medical insurance with current revenues. The District expended \$186,400 during the year ended June 30, 2019 for their share of the medical insurance for thirty-seven participants.

Actuarial Assumptions and Methods

Interest Rate

2.98% Based on S&P Municipal Bond 20 Year High Grade Rate Index at 7/1/2017.

Salary

An assumption for salary increases is used only for spreading contributions over future pay under the entry age normal cost method. For this purpose, salary increases are composed of a 2.5% cost of living adjustment, 1% real wage growth, and for teachers and administrators a merit increase which varies by age from 2.75% to 0%.

Withdrawal

Rates of withdrawal vary by age, gender and years of service. Sample rates for employees with more than 10 years of service are shown below. Rates for new employees start at 22.9% for both men and women and decrease with age and service.

Age	Male Rate	Female Rate	Age	Male Rate	Female Rate

1. Summary of Significant Accounting Policies

Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit term. Investments are reported at fair value.

General Information about the Health Insurance Premium Assistance Program

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost-sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2017 there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance Program if they satisfy the following criteria:

- Have 24 1/2 or more years of service or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System included all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues publicly available financial report that can be obtained at www.psers.state.pa.us.

2. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability of \$3,880,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2017 to June 30, 2018. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it related to the total one-year reported covered payroll. At June 30, 2019, the District's proportion was .1861 percent, which was an increase of .0022 from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the District recognized OPEB expense of \$184,000. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	24,000	
Net difference between projected and actual investment earnings	7,000	
Changes in proportions	40,000	11,000
Changes in assumptions	61,000	147,000
Contributions subsequent to the measurement date	186,400

3. Actuarial Assumptions

The Total OPEB Liability as of June 30, 2018, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2017 to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 3.13% - S & P 20 Year Municipal Bond Rate
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Participation rate:

- Eligible retirees will elect to participate Pre age 65 at 50%
- Eligible retirees will elect to participate Post age 65 at 70%

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2016 determined the employer contribution rate for fiscal year 2018.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset Valuation method: Market Value
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 2 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population

consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

<u>OPEB - Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	5.9%	0.35%
US Core Fixed Income	92.8%	1.20%
Non-US Developed Fixed	1.3%	0.40%
	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.98%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefits payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.98% which represents the S & P 20 year Municipal Bond Rate at June 30, 2018, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2017, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2017, 93,380 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2017, 1,077 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Conewago Valley School District
New Oxford, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Conewago Valley School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated December 19, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit, of the financial statements, we considered the Conewago Valley School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Conewago Valley School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Conewago Valley School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors
Conewago Valley School District
New Oxford, Pennsylvania

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Conewago Valley School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors
Conewago Valley School District
New Oxford, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Conewago Valley School District's compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the Conewago Valley School District's major federal programs for the year ended June 30, 2019. Conewago Valley School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Conewago Valley School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Conewago Valley School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Conewago Valley School District's compliance.

To the Board of Directors
Conewago Valley School District
New Oxford, Pennsylvania

Opinion on Each Major Federal Program

In our opinion, Conewago Valley School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Internal Control Over Compliance

Management of the Conewago Valley School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Conewago Valley School District's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Conewago Valley School District's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Conewago Valley School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CONEWAGO VALLEY SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2019

NOTE 1 - ORGANIZATION AND SCOPE

Conewago Valley School District, Adams County, Pennsylvania operates a high school, a middle school, an intermediate school and two elementary schools.

The district received federal funds to operate the programs for the benefit of some of the students as detailed on the Schedule of Expenditures of Federal Awards, which covers the period from July 1, 2018 to June 30, 2019.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District reports federal programs in its general purpose financial statements and on the Schedule of Expenditures of Federal Awards on the accrual basis.

NOTE 3 - REPORTING ENTITY

The Conewago Valley School District Board is the basic level of government which has oversight responsibility and control over all activities related to the public school education in the Conewago Valley School District. The District receives funding from local, state and federal government sources and must comply with their accompanying requirements. However, the Board is not included in any other governmental "reporting entity" as defined by the GASB pronouncement, since Board members are elected by the public and have decision-making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

The reporting entity for Conewago Valley School District consists only of those funds, functions, and activities controlled by the School Board and required or allowed by State laws and regulations.

The financial statement of the School District includes all funds and activities that are controlled by or dependent on the School District. Control or dependence is determined on the basis of budget adoption, taxing authority, and funding and appointment of advisors.
