French (with M. Kondratiev): Ongoing Reading (1+ Book)

English (with Ms. Kemper): Ongoing Reading (1+ Book)

The first semester we will be studying the individual within the global community. So, students should choose at least ONE book to read from the list below. An assignment related to their choice book will be completed the first week of school. *Note: all books listed are Young Adult Books, but some do contain intense topics/scenes and should be chosen at the parent/guardian's discretion.*

Obtaining the books: Students will NOT have to have a copy with them at school so borrowing the book from the library is a good option. If the library doesn't have it for some reason, you can request that they order it at the front desk.

Written Assignment:

Will be assigned and completed during the first week of school.

Math: One Ongoing Task

The purpose of summer work is to prevent loss of learning.

For Math this summer, please use your IXL account to practice any skills you'd like within the 6th and 7th grade sections. It can be topics we learned this year that you'd like to refresh or new topics you'd like to learn. You should complete at least 2.5 hours (180 minutes) total practice for the summer.

Rationale for IXL math instead of a paper packet:

Students can choose topics

It shows you how to do it if you don't know

It shows you how to do it if you get it wrong

It can be done anywhere with internet access on any device (phone, tablet, laptop, etc.)

Parents who don't want kids online over the summer can request a paper packet OR kid can do the IXL at home during the first week back

During the first week of next school year, I will access the records in IXL and check that you practiced for 180 minutes.
