<input type="checkbox"/>	Enlist in the US Armed Forces and earn a 31 or better on ASVAB
<input type="checkbox"/>	Graduate with a completed Individualized Plan (IEP) and complete a Program of Study and show Workforce Readiness

Dual Credit (effective to all grades):

To receive the full year credit of science using a dual credit class you will need to take two courses as they will count for 0.5 credits.

SCIENCE			
Biology (Fall)	0.5	Biology for Science Majors 1 (BIOL 1406)	ELAR TSI
Biology (Spring)	0.5	Biology for Science Majors 2 (BIOL 1407)	BIOL 1406
Environmental Science (Fall)	0.5	Biology 2 (BIOL 2406)	ELAR TSI
Anatomy & Physiology (Fall)	0.5	Human A&P (BIOL 2401)	ELAR TSI
Anatomy & Physiology (Spring)	0.5	Human A&P (BIOL 2402)	BIOL 2401

LaGrone Academy (effective to all grades):

Only certain classes will be available to take at LaGrone. Refer to the 2023-24 course catalog for a list of classes available and their estimated fees for each course. If the course is also offered at Sanger High School students will not be approved to take the course at LaGrone Academy.

ENGLISH ADDITION:

H01700

Journalism (Newspaper)(Yearbook)

Grade(s): 9-12

Prerequisites: None

Journalism is a course where students are expected to plan, draft, and complete written compositions on a regular basis, carefully examining their papers for clarity, engaging language, and the correct use of the conventions and mechanics of written English. In Journalism, students are expected to write in a variety of forms and for a variety of audiences and purposes. Students will become analytical consumers of media and technology to enhance their communication skills. Published work of professional journalists, technology, and visual and electronic media are used as tools for learning as students create, clarify, critique, write, and produce effective communications. Students enrolled in Journalism will learn journalistic traditions, research self-selected topics, write journalistic texts, and learn the principles of publishing.

MATH ADDITIONS/ADJUSTMENTS:

H11233

Statistics (replaces Business Statistics)

Grade(s): 12

Prerequisites: Algebra 2 or Honors

Students will broaden their knowledge of variability and statistical processes. Students will study sampling and experimentation, categorical and quantitative data, probability and random variables, inference, and bivariate data. Students will connect data and statistical processes to real-world situations. In addition, students will extend their knowledge of data analysis.

FINE ART ADDITIONS:

H09010

Art 2: Painting 1

Grade(s): 10-12

Prerequisites: Art 1

This studio course will focus on the fundamentals of painting with an emphasis on creative thinking, craftsmanship, color theory and technical exploration. Students will work with a variety of painting mediums and a wide range of subject matters.

PARTNER ADDITIONS

H09087-8

Partner Theatre OR Partner PE

Grade(s): 10-12

Prerequisites: Theater 1

Students in this course serve as Partner Theatre Mentors. As peer assistants, they are provided the opportunity to understand the different disabilities of the students, develop leadership skills to aid the learners and work on communication skills between the peer assistant and the learners. Peer assistants obtain initial training in confidentiality, cueing, prompting, and positive reinforcement to be used with their students. Peer assistants aid the teacher inside the special education setting by modeling appropriate learning behaviors, assisting with hands-on learning activities, and developing activities to facilitate inclusion within the classroom. Students need to have completed Theater 1 previous to taking this class.

CTE

BUSINESS PROGRAM OF STUDY:

H11202

Social Media Marketing

Grade(s): 9-12

Prerequisites: None

Social Media Marketing is designed to look at the rise of social media and how marketers are integrating social media tools in their overall marketing strategy. The course will investigate how the marketing community measures success in the new world of social media. Students will manage a successful social media presence for an organization, understand techniques for gaining customer and consumer buy-in to achieve marketing goals, and properly select social media platforms to engage consumers and monitor and measure the results of these efforts.

H11202

Sports and Entertainment Marketing

Grade(s): 9-12

Prerequisites: None

Sports and Entertainment Marketing will provide students with a thorough understanding of the marketing concepts and theories that apply to sports and entertainment. The areas this course will cover include basic marketing concepts, publicity, sponsorship, endorsements, licensing, branding, event marketing, promotions, and sports and entertainment marketing strategies.

H11204

Retail Marketing

Grade(s): 11-12

Prerequisites: Social Media and Sports Entertainment Marketing

Retail management focuses on the distribution and selling of products to consumers using various vending points such as chain stores, department stores, stand-alone stores, and various online markets. The course highlights the everyday mechanisms necessary to operate a successful retail establishment. The student is taught to evaluate methods for promoting merchandise, supervising employees, handling customer needs, and maintaining inventories.

Students will be provided the opportunity to earn the following certifications: Student Social Media Marketing Certification; Facebook Digital Marketing Associate Certification; Entrepreneurship and Small Business

H11204

Practicum in Entrepreneurship

Grade(s): 12

Prerequisites: Retail Marketing and Business Management

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. **Students will be in charge of management and distribution of the Sanger High School store during before and after school, along with lunches.**

ADDING ENTIRE AUTOMOTIVE PROGRAM OF STUDY: (We will begin with Principles of Transportation Systems with incoming 9-10 and Automotive Basics/Small Engine Technology 1 with incoming 11).

H11911

Principles of Transportation Systems

Grade(s): 9-10

Prerequisites: None

In Principles of Transportation Systems, students will gain knowledge and skills in the safe application, design, production, and assessment of products, services, and systems. This knowledge includes the history, laws and regulations, and common practices used in the transportation industry. Students should apply knowledge and skills in the application, design, and production of technology as it relates to the transportation industries. relevant activities, problems and settings.

H11912**Automotive Basics****Grade(s):** 10-11**Prerequisites:** Principles of Transportation Systems

Automotive Basics includes knowledge of the basic automotive systems and the theory and principles of the components that make up each system and how to service these systems. Automotive Basics includes applicable safety and environmental rules and regulations. In Automotive Basics, students will gain knowledge and skills in the repair, maintenance and servicing of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems and settings. **The required fee for this course is \$100.00.**

H11913**Small Engine Technology 1****Grade(s):** 10-11**Prerequisites:** Principles of Transportation Systems

Small Engine Technology I includes knowledge of the function and maintenance of the systems and components of all types of small engines such as outdoor power equipment, motorcycles, generators, and irrigation engines. This course is designed to provide training for employment in the small engine technology industry. Instruction includes the repair and service of cooling, air, fuel, lubricating, electrical, ignition, and mechanical systems.. **The required fee for this course is \$100.00.**

ADDED TO ROBOTICS PROGRAM: May be taken after Robotics 1**H11104****Drone: Introduction to Unmanned Aerial Vehicles (UAV)****Grade(s):** 9-12**Prerequisites:** Robotics 1

The Introduction to Unmanned Aerial Vehicle (UAV) Flight course is designed to prepare students for entry-level employment or continuing education in piloting UAV operations. Principles of UAV is designed to instruct students in UAV flight navigation, industry laws and regulations, and safety regulations. Students are also exposed to mission planning procedures, environmental factors, and human factors involved in the UAV industry

ADDED TO HEALTHCARE PROGRAM:**H11330****Practicum in Health Science****Grade(s):** 12**Prerequisites:** Health Science Theory and Clinic

Students will have the opportunity to observe various health care professionals during clinical rotations and study health care related topics in the classroom. There is an application process to be accepted to this class as well as a cost. Items that must be purchased by the student before fall semester begins include: black scrubs, a watch with a second hand, a black pair of non-slip leather tennis shoes, flu and Hepatitis B vaccinations and textbooks (approximately \$200.00). Students will be able to choose from the following placement options: CNA, Phlebotomy, Radiology, Occupational Therapy, Physical Therapy, or Speech Therapy.

Students will have the opportunity to earn an Industry-based certification including:

Healthcare Therapeutic: Certified Nursing Aide/Assistant (CNA)

Healthcare Diagnostics: Phlebotomy Technician

Limited Radiologic Technologist

Medical Laboratory Assistant

Medical Therapy: Certified Occupational Therapy Assistant

ADDED FULL LAW ENFORCEMENT PROGRAM OF STUDY ON SHS CAMPUS: Will begin with incoming 9th, 10th, and 11th. Seniors can apply for LaGrone Academy courses.**H11699****Principles of Law, Public Safety, and Corrections and Security****Grade(s):** 9-11**Prerequisites:** None

Principles of Law, Public Safety, Corrections, and Security introduces students to professions in law enforcement, protective services, corrections, firefighting, and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, protective services, and corrections.
