

# Triennial Assessment Tool

Every three years or more often if the district desires, the district must conduct an assessment of the wellness policy that is made available to the public. The evaluation must address:

- Compliance with the district policy
- The extent to which the local wellness policy compares to the [Model Wellness Policy](#)
- Progress made in attaining the goals of the wellness policy

The first triennial assessment should be completed by June 30, 2023 or earlier. The second triennial assessment is due 3 years from the completion of the first triennial assessment. Districts are required to make the Local Wellness Policy and Triennial Assessment available to the public.

KEY	
Completed	select if you have met this goal at all schools
Partially Completed	select if one or more schools has met this goal
In Progress	select if you are working on the goal, but none of the schools have met the goal
