

How to Find and Check out an E-Book in the ECA Library

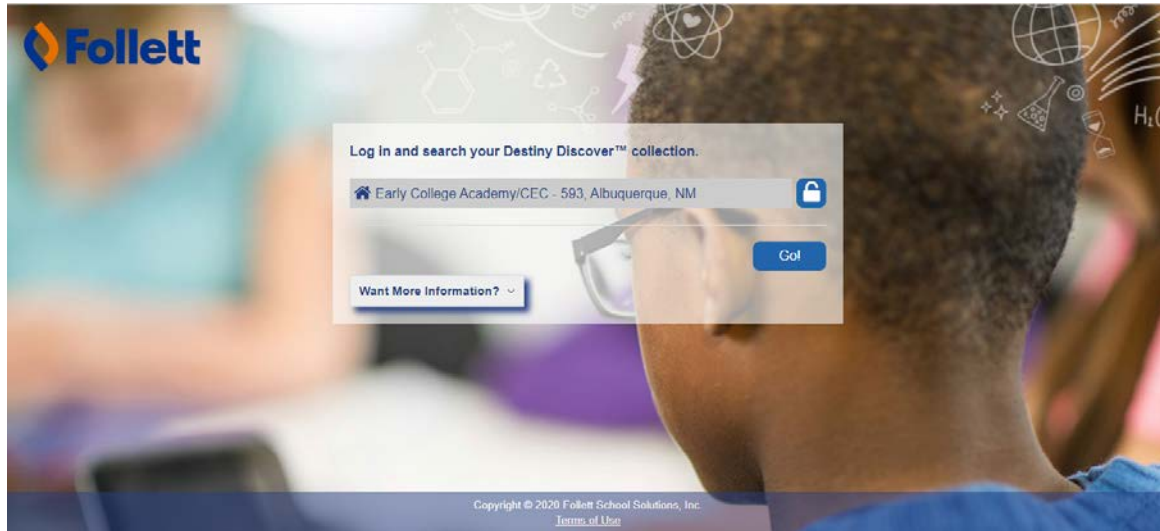

1. Go to cec.aps.edu
2. Click on “Our School” and scroll down to “Library”.

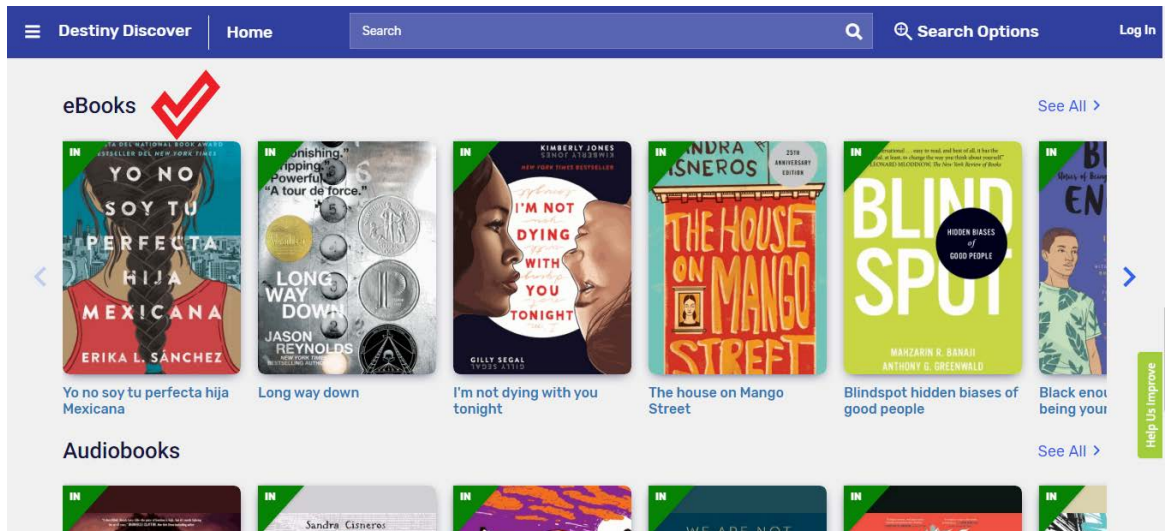

3. On the library page, click on Destiny Discover.

4. Now you will see this page. Simply click on “Go”. (If you don’t see our school name and state already filled in as it is on this screenshot, then simply choose New Mexico as the state and Early College Academy as the school from the drop down boxes.)

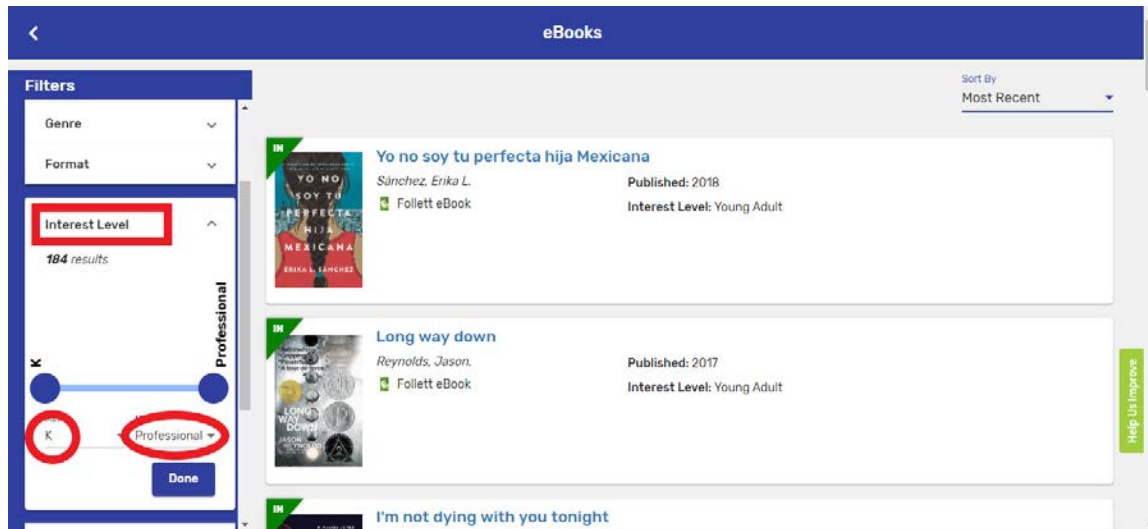

5. Once you get to this page, scroll down until you see eBooks. Then click on “See All”.

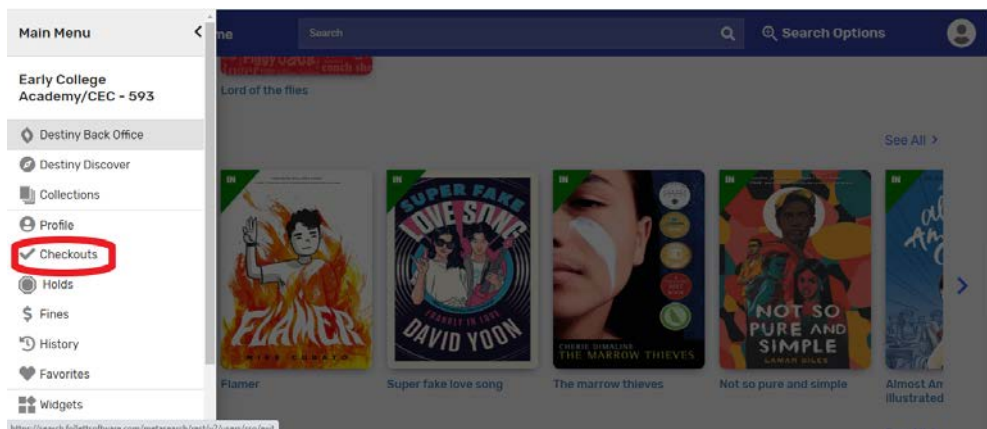

6. On the left are several filters you can use to narrow down your choices. I would start with “Interest Level”. The default setting is K - Professional.

This means you will see every book beginning from those for Kindergarten to those geared toward how to teach. I would suggest setting the parameters for 9 - Young Adult. This should bring up everything that is of interest to you.

7. Once you have found a book that interests you, just click on the title and follow the directions to simply open the book or to complete one more log in and then check out the book.

The advantage to checking out the book is that you can set bookmarks and come back to the place where you left off. If you check out a book, you can access it later by returning to Destiny Discover (follow steps 1-4 above). From the home page, click on the three horizontal bars at the top left of the page, and you will see information about your account, including your checked out books.

Anytime you are asked to log in, just remember that you should use your APS credentials.

If you have any questions about how to check out an e-book from our library, please contact Ms. Bartlett at bartlett@aps.edu/.
