Sponsor a Practical Nursing Student

Can you help an APS Practical Nursing Student?

The APS Career Enrichment Center Practical Nursing Program was started in 1981 and graduated its first class in 1983. At its inception, the purpose was to offer high school students employable skills as a licensed practical nurse. Over the years, however, this has developed beyond supplying immediate jobs into a program which opens the door to continuing career growth in healthcare fields. Most of our graduates now continue their education, beyond our doors, attaining various post-secondary degrees; most in the healthcare professions and many as advanced practice nurses.

Often students enter the program in financial need. Sometimes students think that if they can't pay their lab fees or afford their uniforms that they must quit. It is the program's position that a student's financial need should never prevent them from completing the program. If a student cannot pay for a required book, test, uniform or equipment, it will be provided to him/her. They do not go without the essential tools to help them succeed.

For years there has been a fund set up to help these students. The Nursing Student Fund has paid for students' lab fees, uniforms, books and licensing fees. However, the fund is rapidly depleting. To continue helping current and future students, we would like to offer you the opportunity to donate money to this fund or to sponsor an individual student. Sponsorship can be for one semester to a year, throughout a student's 5 semesters, or any financial assistance you would like to offer. Sponsorship of a student can include contact from that student, if you desire. Donations are tax-deductible.

TYPICAL STUDENT'S FEES

- ✓ **\$150 1st semester and \$65 each semester thereafter (\$410 FOR 5 SEMESTERS)**
