**Players should bring:** shoes for turf or grass as well as running/futsal shoes, socks, extra socks, and shin guards, **sunscreen**, Dutchmen soccer or other Collegiate sport shorts and shirts are allowed.

Players will continue to use their own **water bottles** this preseason.

### **Important Reminders:**

- Fulfill all Health Requirements on Magnus Health Portal:

**All Forms (requirements) must be completed on the Magnus Health portal prior to attending Soccer tryouts.**

- Email Coach Novkovic ([dnovkovic@collegiateschool.org](mailto:dnovkovic@collegiateschool.org)) with any questions, **and to make sure your son is on the list of players trying out for the teams.**

### **Itinerary**

The players will be participating in vigorous physical activity during pre-season tryouts and training. The team will have some sessions at school, including strength training and film sessions. There will be at least 1 scrimmage set for the varsity team early the week of the 29<sup>th</sup> and only players that have the required number of 8 practices will be allowed to play. We hope both the JV and Varsity teams will have other scrimmages set up later that week and will also need to meet the practice requirements.

Let's go Dutch!
