Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. **LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources;** however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

This template is designed to be used by LEAs who already have completed their LCAP Federal Addendum and received approval from CDE. This template will support LEAs with the review of their LCAP Federal Addendum and revision.

The review and revision of the LCAP Federal Addendum do not need to be submitted to CDE for approval. However, an LEA should have their local Board approve any revisions.

Even if the LEA plans to transfer all of its title funds, it must still address all of the provisions of the title from which it is transferring its funds. The LEA must first meet the application requirements of those funds before it can elect to transfer those funds to another title.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

Enterprise Elementary's goals are for all students to receive high-quality instruction in order to ensure proficiency on current academic standards, for staff and students to access rigorous and relevant learning tools, resources, and professional development in order to ensure student learning, and for all schools to cultivate systems of supports for staff and student personal, social, emotional, and academic growth. Action items include, but are not limited to, supporting, training, and maintaining staffing of credentialed teachers, counselors, and classified staff, providing current and standard-aligned curriculum, maintaining low student-to-teacher ratio, providing parent involvement opportunities, and transportation for students for extended day tutoring. We also employ a family liaison/interpreter to support EL families, site literacy coaches at each site to serve the needs of underachieving students, and behavior tech aides to support students in emotional and social education. Actions that are supported with Title I funds to provide supplemental academic support to low-achieving students include support from site literacy coaches for small group instruction, access to digital programs that help student academic growth, and transportation for homeless students to increase attendance. Staff development and professional development activities using Title II funds include increased collaboration for teachers, new teacher credentialing support, and professional development sessions throughout the school year. Title III funds are allocated to hiring specific staff that only work with EL students, purchasing curriculum for supplemental English acquisition, and trainings for staff on the ELD framework. Low-income and EL students are provided with better supports and services because of the continued professional development and investment in programs and curriculum that supplement the adopted curriculum.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

Enterprise Elementary's mission is to empower every student, every day, to create a better world. Budgets are developed and aligned with student achievement and need in mind. All resources, including federal and state, are looked at to determine the base level of support and supplemental support to achieve those established goals and objectives. Our district thoroughly examines processes and programs that we implement, takes continued input from stakeholders, uses data to determine the effectiveness of new initiatives, and keeps the ultimate goal of student success at the forefront of all purchases. Student data drives decisions at the site level (through site literacy coaches and teachers) and up through the district level. Using assessment and analytics programs have made collecting and analyzing student data a more efficient and useful process. Information regarding such decisions is presented to staff and families through newsletters, posted online, and presented to our board. Input is gathered through LCAP partner meetings, Site Councils meetings, Leadership Team meetings, ELAC (at each site), DELAC meetings, staff meetings, surveys, parent meetings, and Administrative Council meetings. Each site develops a School Plan for Student Achievement, taking survey data, student achievement, and other factors in mind. With several groups constantly gaining knowledge and adding input, financial decisions become aligned with our vision.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP, it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

Educator Equity Data Tables available [here](#).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Enterprise Elementary Human Resources department and Shasta County's Office of Education both annually monitor that all teachers meet state certification requirements and are teaching under their appropriate authorization. Enterprise Elementary School District notifies all parents of their "Right to Know" teacher qualifications and if their child is taught four or more consecutive weeks by a teacher who has not met state certifications. These parents receive a "Four Week Letter." We also post these notifications on our website.

Any teacher without proper credentials cannot be compensated. Because of the annual monitoring, if a teacher is without appropriate credentials, Enterprise Elementary ensures that the teacher gets a permit through California Commission on Teacher Credentialing, which qualifies the teacher to be in the classroom.

On November 6, 2019, the SBE approved updated definitions for "ineffective" and "out-of-field" teachers to be included in the amended California ESSA Consolidated State Plan.

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

One of the district's schools, PACE Academy, has been identified for CSI. The use of these funds is outlined in the LCAP and is targeted toward addressing the social-emotional and academic needs of those students. PACE students are referred there on the basis of intense behavioral needs that can not be addressed at a comprehensive site. The school holds monthly family breakfasts along with several family events and celebrations. Regular reports on behavioral goal progress are provided to families with the understanding that the school and home partnership is essential for the students' success.

To meet this requirement, LEAs must provide a description of the following:

ESSA Section 1112(b)(3): how the LEA will carry out its responsibilities under paragraphs (1) and (2) of Section 1111(d);

1. How the LEA will involve parents and family members at identified schools in jointly developing Comprehensive Support and Improvement plans
2. How the LEA will involve parents and family members in identified schools in jointly developing the Targeted Support and Improvement plans
3. In the absence of the identification of any schools for Comprehensive Support and Improvement (CSI) or any schools for Targeted Assistance and Intervention (TSI), the LEA may write N/A. This provision will not be reviewed.

ESSA Section 1112(b)(7): the strategy the LEA will use to implement effective parent and family engagement under Section 1116; shall include how the LEA and its schools will build capacity for parent and family engagement by:

Describe how the LEA will provide materials and training to help parents to work with their children to improve their children's achievement, such as literacy training and using technology (including education about the harms of copyright piracy), as appropriate, to foster parental involvement; (ESSA Section 1116(e)(2))
4. Describe how the LEA will educate teachers, specialized instructional support personnel, principals, other school leaders, and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school; (ESSA Section 1116(e)(3))
5. Describe how the LEA will to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with other Federal, State, and local programs, including public preschool programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children; (ESSA Section 1116(e)(4))
6. Describe how the LEA will ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand (ESSA Section 1116(e)(5))

Also, include how the LEA will align parent involvement required in Section 1116 with the LCAP educational partner engagement process.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Enterprise Elementary holds an annual Title I Parent meeting. This meeting is advertised through mailers and digital communication to all families, as well as posted on our website. At this meeting, parents review the Title I plan, get answers to questions, and give input. EESD supports schools in having numerous school activities for parent involvement. Each site builds capacity of parents and school staff to build partnerships for student success. Along with frequent newsletters sent home at the classroom, site, and district levels, many sites send home progress reports. EESD schedules parent/teacher conferences twice a year and encourages parent/teacher meetings if needed throughout the year. Each site invites parents be a part of the Site Council and holds parent engagement nights that are academically themed (STEAM Night, Technology Night, Math Night, etc.).

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

All eight sites in Enterprise Elementary are identified as Title I schools. Each site is providing specialized services to support academically at-risk students. The site literacy coaches help with developing unique plans to meet student needs, providing small group instruction, coaching classroom teachers on strategies to improve student learning, and using data to guide instructions. Each site also utilizes digital programs to gather and analyze student performance data. These are schoolwide programs and help all students at-risk of not meeting state standards. The district uses a literacy coach and math coach to serve all sites in targeted instruction strategies. The district has established a charter that serves students who are in need of increased adult and social-emotional/behavioral support during the school day. Each site has a full-time counselor and has adopted a social-emotional curriculum.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The district has established a multi-tiered system of supports at each site. Teachers collaborate weekly on student needs and analyze data to identify students who would most benefit from intervention. Building level teams meet at least once a month, consisting of the site principal, site literacy coach, school counselor, and school psychologist. Teachers present cases to the team as a means of problem-solving and matching student needs to more intensive interventions. Goals are established and the team determines the intervals at which each case is revisited to monitor progress. In addition, formal meetings are held with parents to address students most at-risk for continued progress.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Enterprise Elementary supports our homeless children and youth with attendance by providing transportation. Transportation can include, but is not limited to, bus passes, gas gift cards, and ride services. Twice a year we purchase and distribute clothing and self-care items to each student and provide gift cards for other essential purchases. Families are offered on-site after school care without charge. Our Homeless Liaison makes referrals for family services and health needs and connects families to other community services.

Student Transitions

ESSA SECTIONS 1112(b)(8), 1112(b)(10), and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Assessment data of preschool students is shared with elementary schools. Visits to kindergarten classes are arranged. Students with disabilities all have transition IEP's with the elementary school they will attend after preschool.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

- (A) through coordination with institutions of higher education, employers, and other local partners; and

- (B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Enterprise Elementary coordinates correspondence between our elementary and junior high schools. Data and student information is transferred, and staff hold parent information nights to make the school transition smooth. Our middle schools all connect with the local high school district by arranging several presentations and time for students to meet with the high school counselors in planning the transition into high school. Assessment data is shared with the high school as well. Students are made aware of A-G requirements to assist in preparation for college. All middle schools also engage in college campus visits. Middle school administrators participate in a county effort to coordinate with high school administrators to identify eighth-graders most at-risk so that interventions and support are put in place as they transition to high school.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Each site is given funds to develop a program for gifted and talented students. Some schools choose to participate in Odyssey of the Mind to address this need. Students have the opportunity for accelerated learning determined on an individual basis.

Every school has 1:1 Chromebooks in all grades. The district employs an educational technology coach to assist teachers with the implementation of technology in the classroom to enhance learning and support the development of digital literacy skills in students.

We also pay for teacher inductions programs to have our new teachers clear their credentials and gain further professional development.

All school leaders, teachers, and administrators are given several professional development opportunities, from summer conferences to full professional learning days throughout the school year. We have provided professional development sessions after school all year. Each site has a leadership team whose memberships change annually, giving different teachers opportunities to be a part of leadership decision at their site. Special opportunities, such as leading extracurricular groups, being a teaching vice principal, and helping at events, as well as other committee opportunities (PBIS, Hope Teams, etc.) are all opportunities given to teachers to gain leadership experience. Evaluations are conducted annually for all temporary and probationary staff, and bi-annually for all tenured staff. These evaluations are used to gauge growth and improvement.

Analysis of student achievement data (CAASPP scores, district assessments, ELPAC scores, etc.) is used to determine the effectiveness of professional development activities. By considering weaknesses in the data, professional learning opportunities are planned or arranged to meet the needs of teachers to help their students. Yearly assessments are used throughout the year, as well as district data every trimester. Sites use their own formative data regularly to determine need and find trainings they wish to attend. The district also uses parent, student, and staff surveys to determine needs. Surveys are given once a year. Site Councils are at each site to help gain input from other partners in regard to needs for professional development. Staff is surveyed regularly for input on professional development. Administrators meet every two weeks and have the opportunity to share best practices and discuss concerns. In these meetings, needs for professional development are often determined and addressed.

Title II funds are used for professional development. The use of these funds has assisted our staff in helping the needs of low-performing students who are receiving aid due to Title I part A funds, as well as improving the education of English Learners who benefit from supplemental assistance from Title III funds.

The district monitors RFEP students for 4 years and communicates with each site, gaining input of achievement and support needs for each student who reclassified. Each site includes EL students in their Building Level Team meetings, where they meet monthly or bimonthly to look at individual student growth and needs. Plans are created to help EL students achieve goals. At determined intervals (bi-weekly, monthly, etc.), each student is monitored for growth at the site level. The district provides resources, information, and trainings for all sites to ensure that implementation of programs and services for ELs is consistent. Each site (with 21 or more EL students) holds their own English Language Advisory Committee (ELAC) meetings throughout the school year to gain input from other stakeholders as well. The district holds District level advisory meetings (DELAC) to monitor sites, determine need, adjust the EL Master Plan, and find where support needs to be placed for success at each site.
