4. Unfinished Business

a. Commercial Advertising-Market Street Sports Report Review

General Ordinance:

CURRENT REGULATIONS:

Non-street fronting signs (can't be seen from any public street/roadway) are acceptable.
Signage on fences, snack stands, etc... cannot be readable from any street

PROPOSED NEW/REVISED REGULATION (Still in process and will most likely not be acted upon until Fall 2016):

Advertising/signage on Scoreboards: Maximum of 10% of size of scoreboard up to 200 sq. feet (maximum size of advertising-20 sq. feet)

So, as for what could/couldn't be done from the recommendations in the Market Street Sports report:

Tennis Courts-no signage permitted (any signage would be visible and readable from streets)

Multi-purpose prepared field-possible, but would need to ensure fence signage is NOT readable from any street (I have a letter visibility chart that Chuck would use to determine distance from road and size of lettering as to whether it was permissible); scoreboard signage would need to follow proposed new regulations noted above (assuming they pass as currently proposed)

Field Concession Stands-allowable as long as not readable from any street

322 Turf Field-Wall/fence along 322-allowable; scoreboard-allowable within proposed new regulations

Varsity Baseball Field-scoreboard-as allowed above; fencing-most likely not due to readability from Cocoa Avenue

Softball and Little League Fields-scoreboard-as allowed above; fencing-would depend on visibility/readability from Cocoa

Minutes

Committee approved for administration to engage booster clubs to discuss how the district entering into an agreement with Market Street Sports may impact boosters clubs ability to generate revenue through

solicitation of advertisements.
