### **1. Call To Order**

### **2. Review of Summary Notes**

### **3. Informational**

#### **3.1 Junior Achievement**

##### **Minutes:**

Dr. Winslow shared information about Junior Achievement (JA) STEM initiative. Currently we are using JA in Grades 2, 3, and 4. and next year we will include grades 1 and 5. JA meets all the elementary economic standards that we are required to teach for the state. It is an excellent way for community members to become involved. We have quite a few folks from HERCO and the Hershey Company that come over and work in our classrooms.

Clearance laws do include JA - once we have a list of parents interested in volunteering, we will cross reference this with our volunteer list of people who already have their clearances and we will share our policy with JA. We will be scheduling a date for the Cojant Machine to be here for our volunteers.

### **4. Old Business**

#### **4.1 HS Pre Biology Course**

##### **Minutes:**

A motion was made by Heidi Eby and seconded by Brian Shiflett for the approval of the Pre Biology Course. The vote was unanimous to place the Pre Biology Course on the Board Agenda for final approval.

Question was raised as to how many students have registered for this course, Dr Reimann stated that the are currently working on this roster but there will be no more than one section.
