

ACCREDITATION

The Board of Education believes that its primary responsibility is to provide leadership in the area of student achievement. To foster greater accountability and enhance improvement in student achievement, the Board shall enter into an accreditation contract with the State Board of Education regarding district accreditation and shall accredit the schools within the district.

District Accreditation

The accreditation contract shall bind the Board to manage the district and its schools to meet certain standards, goals and requirements over the term of the contract, in accordance with the Education Accountability Act of 2009 and applicable State Board of Education rules. At a minimum, the accreditation contract shall address the following elements:

- the district's level of attainment on the four key performance indicators: student longitudinal academic growth, student achievement on statewide assessments, postsecondary and workforce readiness, and progress made on closing the achievement and growth gaps;
- the district's adoption and implementation of its performance, improvement, priority improvement or turnaround plan (whichever is required based on the district's assigned accreditation category);
- the district's implementation of its system for accrediting its school; and
- the district's substantial, good-faith compliance with the provisions of title 22, C.R.S. and other statutory and regulatory requirements applicable to school districts.

In conjunction with accreditation, the Board is committed to adopting content standards for student learning, achievement performance levels, systems for measuring student achievement, and methods for improving student achievement.

School Accreditation

While the state accredits the district, the Board accredits the schools within the district, including district charter schools. The Board's accreditation of district schools shall emphasize attainment on the four key performance indicators: student longitudinal academic growth, student achievement on statewide assessments, postsecondary and workforce readiness, and progress made on closing the achievement and growth gaps. Schools are also accredited on school culture and climate which includes school safety and wellness plans. The Board may adopt additional accreditation indicators and measures for district schools in all four plans; performance, improvement, priority improvement, or turnaround.

The Board directs the superintendent to develop a school accreditation process for the Board's input and approval. Such process shall be developed in accordance with the Education Accountability Act of 2009 and shall assign an accreditation category to each district school on an annual basis. The accreditation process shall also require each district school to enter into an accreditation contract with the Board that is comparable to the accreditation contract between the Board and the State Board of Education. By October 15 of each year, the district shall provide the Colorado Department of Education with the accreditation category assigned to each district school

In accordance with the process required by the Education Accountability Act of 2009 and applicable State Board of Education rules, the superintendent, principals, and other district administrators shall develop a proposed school performance, improvement, priority improvement or turnaround

plan for each district school. Pursuant to the Board's constitutional and statutory authority to control instruction in its schools and determine the allocation of district resources, the Board shall review and approve all school plans, regardless of whether the plan is a performance, improvement, priority improvement or turnaround plan. Each school plan shall be submitted to the Colorado Department of Education in accordance with the timeliness prescribed by applicable State Board of Education rules.
