

## **RELATIONS WITH PLANNING AUTHORITIES**

Prior to acquiring land for a school or other district building site, the Board of Education shall submit written notification to the appropriate planning commission. Additionally, prior to construction, a site development plan will be submitted for review and comment to the relevant planning commission. District planning staff will, insofar as possible with regard to budget, safety, and other district concerns, work with planning authorities to integrate district facility planning with master development plans for the city, town, or country.
