

Incoming Freshman Summer Math Program

To help prepare you for the upcoming Algebra 1 course you are being asked to complete review activities using the online platform DeltaMath. The estimated time of completion (according to DeltaMath) is 150 minutes. It is highly recommended that you have these activities completed prior to the start of classes so that you may transition smoothly into Algebra 1. My suggestion is to take 20-30 minutes a day the two weeks prior to the start of school; this should give you plenty of time to complete all the tasks and have you ready for the start of classes all while not overburdening your summer vacation time. The completed activities are worth a quiz grade and are due Monday August 21, 2023 at 8:00 am.

Should you have any questions, comments or concerns please feel free to reach out to me at dneufeld@incarnateword.org. I look forward to having you in class this upcoming school year!

Mr. Neufeld
Algebra 1/Honors Algebra 1

Creating a DeltaMath Account

Here are the instructions for creating a new DeltaMath account. If you already have an account, you may be able to use it and then enter the invite code.

- deltamath.com
- click three horizontal bars in the top right corner
- select "Students"
- click on "Register" (may be toward the bottom of the page)
- follow prompts using your personal email or Google account information to create an account
- the class invite code is 397E-C3AK

After you have created your account you should be able to log in and use your account. A list of assignments will display on your home page; work through at your leisure.
