Bullies will receive consequences!
Your computer is a learning tool.
Everything you write, view and search can be seen by others.
If you use the computer irresponsibly, we receive a message from our Technology Department and we will need to meet with you and your parents to talk about your actions.
You may lose your opportunity to use your computer.
When you use social media, your messages are not private, even though you think they are.

- People can screen shot your message and show others.
- Your message can be forwarded to someone else.
- If you are saying something hurtful or inappropriate, it could get back to the person and hurt them.
- Sometimes the person you think you are speaking with is really not the person on the other end.

If your social media posts cause problems with others and that affects people at school, you can receive school consequences.
Before you text, type or speak, THINK first

T - is it True?
H - is it Helpful?
I - is it Inspiring?
N - is it Necessary?
K - is it Kind?
