

Regulation #5210
Student use of the District's Computer Systems
and Internet Safety

1. Introduction

a. Access to District Computer Systems When Students Are Physically Present on School Property

When students are physically present on school property, the Board is pleased to offer students access to the district's computers and computer networks, including access to electronic messaging systems (including email) and the Internet, as well as electronic devices, (all of which will be referred to collectively as "computer systems"). Access to the school's computer systems will enable students to explore libraries, databases, websites, and bulletin boards while exchanging information with others. Such access is provided solely for education-related purposes. Use of the district's computer systems will be allowed only for students who act in a considerate and responsible manner in using such systems.

The Board of Education (the "Board") and the Administration believe in the educational value of such computer systems and recognize their potential to support our curriculum by expanding resources available for staff and student use. The Board's goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation and communication.

These computer systems are expensive to purchase, install and maintain. As the property of the district, these computer systems must be carefully handled and their integrity preserved for the benefit of all. Therefore, students are required to adhere to a set of policies and procedures, as set forth in detail below, in conjunction with their use of the computer systems. Violations may lead to withdrawal of the access privilege and/or disciplinary measures in accordance with the Board's student discipline policy.

b. Access to District Computer Systems When Students Are Engaged in Remote Learning

The Board and the Administration recognize that technology is integral to the delivery of instruction if and when the district implements any form of digital or remote learning. The district may therefore provide students with remote access to some or all of the district's computer systems so that students may access the district's virtual learning environment. Such access, if granted, is provided solely for education-related purposes. Use of the district's computer systems will be allowed only for students who comply with district policies and procedures concerning computer system use, and demonstrate the ability to use the computer systems in a considerate and responsible manner.

These computer systems are expensive to purchase, install and maintain. As the property of the district, these computer systems must be carefully handled and their integrity preserved for the benefit of all. Therefore, students will be required to adhere to a set of

policies and procedures, as set forth in detail below, in conjunction with their use of the computer systems. Violations may lead to withdrawal of the access privilege and/or disciplinary measures in accordance with the Board's student discipline policy.

2. Definitions

Obscene – means any material or performance if, a) taken as a whole, it predominantly appeals to the prurient interest, b) it depicts or describes in a patently offensive way a prohibited sexual act and c) taken as a whole, it lacks serious literary, artistic, educational, political or scientific value.

Obscene as to minors - means any material or performance if it depicts a prohibited sexual act and, taken as a whole, it is harmful to minors.

For purposes of this section, "***harmful to minors***" means that quality of any description or representation, in whatever form, of a prohibited sexual act, when a) it predominantly appeals to the prurient, shameful or morbid interest of minors, b) it is patently offensive to prevailing standards in the adult community as a whole with respect to what is suitable material for minors, and c) taken as a whole, it lacks serious literary, artistic, educational, political or scientific value for minors.

For the purposes of this section, "***prohibited sexual act***" means erotic fondling, nude performance, sexual excitement, sado-masochistic abuse, masturbation or sexual intercourse.

Child pornography –means any visual depiction, including any photograph, film, video, picture, or computer or computer-generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct, where -

- (a) the production of such visual depiction involves the use of a minor engaging in sexually explicit conduct;
- (b) such visual depiction is a digital image, computer image, or computer-generated image that is, or is indistinguishable from, that of a minor engaging in sexually explicit conduct; or
- (c) such visual depiction has been created, adapted, or modified to appear that an identifiable minor is engaging in sexually explicit conduct.

3. Monitoring

Students are responsible for good behavior on school computer systems just as they are in a classroom or a school hallway. Communications on the computer systems are often public in nature and general school rules for behavior and communications apply. It is expected that users will comply with district standards and will act in a responsible and legal manner, at all times in accordance with district standards, as well as with state and federal laws.

It is important that students and parents understand that the district, *as the owner of the computer systems, reserves the right to monitor and review* the use of these computer

95 systems. The district intends to monitor and review in a limited fashion, but will do so as
96 needed to ensure that the systems are being used for district-related educational purposes.

97
98 As part of the monitoring and reviewing process, the district will retain the capacity to
99 bypass any individual password of a student or other user. *The system's security aspects,*
100 *such as personal passwords and the message delete function for e-mail, can be bypassed*
101 *for these purposes.* The district's ability to monitor and review is not restricted or
102 neutralized by these devices. The monitoring and reviewing process also includes, but is
103 not limited to: oversight of Internet site access, the right to review electronic messages
104 sent and received, the right to track students' access to blogs, electronic bulletin boards
105 and chat rooms, and the right to review a student's data downloading and printing.

106
107 Therefore, all users must be aware that *they should not have any expectation of personal*
108 *privacy in the use of these computer systems.*

109 110 4. Student Conduct

111
112 Students are permitted to use the district's computer systems for legitimate educational
113 purposes. Personal use of district computer systems is expressly prohibited. Conduct which
114 constitutes inappropriate use includes, but is not limited to the following:

- 115
116 ♦ Sending any form of a harassing, threatening, or intimidating message, at any time, to
117 any person (such communications may also be a crime);
- 118
119 ♦ Gaining or seeking to gain unauthorized access to computer systems;
- 120
121 ♦ Damaging computers, computer files, computer systems or computer networks;
- 122
123 ♦ Downloading or modifying computer software of the district in violation of the
124 district's licensure agreement(s) and/or without authorization from a teacher or
125 administrator;
- 126
127 ♦ Using another person's password under any circumstances;
- 128
129 ♦ Trespassing in or tampering with any other person's folders, work or files;
- 130
131 ♦ Sending any message that breaches the district's confidentiality requirements, or the
132 confidentiality of students;
- 133
134 ♦ Sending any copyrighted material over the system;
- 135
136 ♦ Using computer systems for any personal purpose or gain, or in a manner that
137 interferes with the district's educational programs;
- 138
139 ♦ Accessing or attempting to access any material that is obscene, obscene as to minors,
140 or contains child pornography, as defined above;
- 141

- ♦ Transmitting e-mail communications or accessing information on the Internet for non-educational purposes;
- ♦ Cyberbullying;
- ♦ Accessing or attempting to access social networking sites (e.g., Facebook, Twitter, Instagram, Snapchat, TikTok, etc.) without a legitimate educational purpose.

In addition, as noted above, if a particular behavior or activity is generally prohibited by law, by Board policy or by school rules or regulations, use of these computer systems for the purpose of carrying out such behavior or activity is also prohibited.

Misuse of the computer systems, or violations of these policies and regulations, may result in loss of access to such computer systems as well as other disciplinary action, including suspension and/or expulsion, depending on the specific conduct.

Anyone who is aware of problems with, or misuse of, these computer systems, or has a question regarding the proper use of these computer systems, should report or discuss the issue with a teacher or the school principal immediately. Most importantly, the Board and the Administration urge *any* student who receives *any* harassing, threatening, intimidating or other improper message through the computer system to report this immediately. It is the Board's policy that no student should be required to tolerate such treatment, regardless of the identity of the sender of the message. *Please report these events!*

5. Internet Safety

The Administration will take measures: to assure the digital safety and security of students when using electronic messaging systems, email, chat rooms, distance learning platforms, and other forms of direct electronic communications; to prohibit unauthorized access, including “hacking” and other unlawful activities by minors online; to prohibit unauthorized disclosure, use, and dissemination of personally identifiable information regarding students; to educate minor students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber-bullying awareness and response; and to restrict students’ access to online materials that are obscene or obscene as to minors or contain child pornography, to the extent practicable when students are using Board-owned computers or devices and Board-provided Internet access.

6. Student Use Agreement

Before being allowed to use the district’s computer systems, students and/or their parents/guardians must sign a computer system use agreement, stating that they have read and understood the district’s policies and regulations regarding the use of its computer systems.
