

Addendum to Mitigated Determination of Non-significance (MDNS)

Puyallup School District Pope Elementary Remodel and Expansion Capital Project #17-01-16

Proposal: Addendum to previously issued Mitigated Determination of Non-Significance (MDNS) for the Pope Elementary Remodel and Expansion, Capital Project 17-01-16 issued August 10, 2018. The proposal included the expansion and remodel of Pope Elementary to a designed capacity for 730-students without the use of portable classrooms. Over the past four years the district's Level of Service capacity has been reduced from 24 students per classroom to 22 students per classroom for K-6 elementary schools, primarily due to the State's K-3rd grade Class Size Reduction legislation (House Bill 2776). Portable classrooms are proposed to be added to achieve the intended school capacity. Three portable classrooms are proposed 2022 and forth portable classroom will be added in a future school year. With the four portable classroom addition, the revised capacity will be 758 students. A Traffic Analysis Technical Memorandum by Heffron Transportation dated July 12, 2022, concluded the four portable classroom addition will not create new adverse impacts. No changes to existing or additional mitigation measures are proposed as part of this addendum.

Location: Pope Elementary
15102 – 122nd Ave E
Puyallup, WA 98374
Pierce County APN: 0419236044

Proponent: Puyallup School District No.3

Date of Issuance: July 27, 2022

Circulation and Comment: This Addendum is issued under WAC 197-11-600(4)(c) and WAC 197-11-625. An addendum may be used if the proposal does not substantially change the analysis of significant impacts and alternatives contained in the existing environmental document. This Addendum does not change the mitigation measures outlined in the MDNS issued August 10, 2018. An addendum does not require circulation or a comment period.
