QA/QC - Short Term Radon Tests have an estimated accuracy of ±5% when used according to directions.

*The measured radon level was lower than the detector's Lower Limit of Detection. Visit DrHomeAir.com/LLD for info

DISCLAIMER: Test results are only indicative of the sample as received by the lab. Incorrect information or improper procedures will affect results. Alpha Energy Laboratories did not provide sampling services unless otherwise indicated. This measurement is not necessarily predictive or supportive of measurements conducted at different times or different locations. Alpha Energy Laboratories is not responsible for the consequences of any action you do or do not take based on the test results. One sampler can test up to 2,000 square feet.
CONFIDENTIALITY: This report is confidential. If you receive the report in error, please inform the lab and destroy all copies.
