## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Jefferson School District 14J  
Marion County, Oregon

### **Report on the Financial Statements**

We have audited the accompanying basic financial statements of the governmental activities and each major fund of Jefferson School District 14J (the District) as of and for the year ended June 30, 2021, and the related notes to the basic financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Jefferson School District 14J, as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of net pension liability and contributions for PERS or schedule of funding progress and contributions for post-employment health benefits or management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on them.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### *Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal expenditures is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal expenditures are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

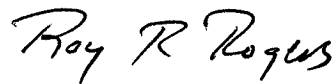

### *Other Information*

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### **Reports on Other Legal and Regulatory Requirements**

In accordance with Government Auditing Standards, we have also issued our reports dated December 9, 2021 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of these reports are to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with Government Auditing Standards in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 9, 2021, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

## **Jefferson School District 14J, Marion County Oregon Management's Discussion and Analysis**

As management of the School District No. 14J Marion County, Oregon (Jefferson School District), we offer readers a narrative overview and analysis of the financial activities of Jefferson School District for the fiscal year ended June 30, 2021. It should be read in conjunction with the District's financial statements, which follow this section.

### **Financial Highlights**

- As of June 30, 2021, the net position of Jefferson School District 14J amounted to \$(3,822,365). Of this amount \$4,849,938 was invested in capital assets, net of related debt. The remaining balance included \$72,884 restricted for debt service, \$158,420 restricted for student activities, and an unrestricted net deficit of \$(9,515,967).
- At June 30, 2021 the District's governmental funds reported combined ending fund balances of \$1,618,812 a decrease of \$322,311.
- At June 30, 2021 the principal amount of the Series 2017 GO Bond 2017 outstanding amount was \$13,810,768.
- At June 30, 2021 the principal amount of Series 2003 PERS Pension Bond outstanding was \$3,988,396.
- At June 30, 2021 the principal amount of the Department of Energy Cool Schools Loan outstanding was \$356,672.
- At June 30, 2021 the principal amount of the 2012 Certificate of Participation outstanding was \$8,000.
- At June 30, 2021 the principal amount of the 2020 Umpqua loan is \$536,791

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to Jefferson School District 14J's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### **Government-Wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The *statement of net position* presents information on all District assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Jefferson School District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and

**Jefferson School District 14J, Marion County Oregon**  
**Management's Discussion and Analysis**

expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, early retirement and earned but unused vacation leave).

**Fund Financial Statements**

The *fund Financial Statements* are designed to demonstrate compliance with finance-related legal requirements overseeing the use of fund accounting. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. All of the funds of the Jefferson School District No. 14J are governmental funds.

**Governmental funds**

*Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of available resources at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Jefferson School District No. 14J maintains five major governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances for the General, Special Revenue, ASB, Debt Service, and Capital funds, all of which are considered to be major funds.

Jefferson School District No. 14J adopts an annual appropriated budget for all of its funds. A budgetary comparison statement has been provided for each fund individually to demonstrate compliance with their respective budgets.

The basic governmental fund financial statements can be found on pages 3 and 5 of this report.

**Notes to the Financial Statements**

The *notes to the financial statements* provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 7 through 35 of this report.

**Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which includes the OPEB Schedule of Funding Progress and Employer Contributions and budgetary comparison information for the General Fund and Special Revenue Fund. This required supplementary information can be found on pages 36 through 40 of this report.

**Jefferson School District 14J, Marion County Oregon**  
**Management's Discussion and Analysis**

The Schedule of Bond and Interest Transactions and Balances is found on page 44. The Schedule of Property Tax Transactions and Balances is found on page 45-46.

**Government-Wide Financial Analysis**

**Net position** - As noted earlier, net position may serve over time as a useful indicator of the District's financial position. In the case of Jefferson School District, liabilities exceed assets by \$(3,822,365) at June 30, 2021.

A large portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets for classrooms and supporting services for providing Kindergarten through Twelfth Grade education; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

## Jefferson School District 14J, Marion County Oregon Management's Discussion and Analysis

### Revenues

The District's mission is to provide a free and appropriate public education for Kindergarten through Twelfth Grade students within its boundaries, the District may not charge for its core services. As expected, therefore, general revenues provide 92% of the funding required for governmental programs. Property taxes and State school fund combined for 88% of general revenues and 79% of total revenues.

Charges for services are only 2% of total revenues and are composed of the following items for which it is appropriate that the District charge tuition or fees:

• Food services charges for lunch and breakfast	61,158
• Various Student Extra-Curricular Activities	<u>177,649</u>
Total fees and charges for services	238,807

Operating grants and contributions represent 6% of total revenues. Included in this category are amounts for grants and contributions to support various educational activities.

### Expenses

Expenses related to governmental activities are presented in several broad functional categories. Costs of direct classroom instruction activities account for 52% of the total expenses of \$14,019,875. In addition, approximately 34% of the total costs are for supporting services related to students, instructional staff and school administration.

### Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Government Funds

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *expendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$1,618,812.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned ending fund balance of the General Fund was \$1,227,734.

### General Fund Budgetary Highlights

There were no significant amendments to the 2021-2022 budget documents.

**Jefferson School District 14J, Marion County Oregon  
Management's Discussion and Analysis**

**Capital Asset and Debt Administration**

**Capital assets** - The District's investment in capital assets for its governmental activities as of June 30, 2021 amounts to \$21,169,283. This investment in capital assets includes land, buildings, building improvements, machinery, and equipment. The total depreciation related to the District's investment in capital assets for the current fiscal year was \$617,759.

**Long-term debt** - At the end of the current fiscal year, the District had total debt outstanding of \$18,700,627. This amount is comprised of a limited tax pension obligation bond, a Certificate of Participation, an Oregon Department of Energy Small Energy Loan Program (SELP) loan, Early Retirement liability and Other Post-Employment Benefits. The District's total debt decreased by \$468,788 during the current fiscal year.

**Economic Factors and Next Year's Budgets**

- It is anticipated that the costs of providing medical insurance coverage to employees will continue to rise.
- Local enrollment is expected to stay level over the next several years.
- PERS costs for the next year will not increase but are expected to continue to increase for the following two or three biennium.

All of these factors were considered in preparing the District's budget for fiscal year 2021-2022.

The ending General Fund balance of \$1,227,734 will be available for program resources in fiscal year 2021-2022.

**Request for Information**

This financial report is designed to provide a general overview of the Jefferson School District's finances for all those with an interest in the school district's finances. Questions concerning any of the information provided in the report or requests for additional information should be addressed to the Superintendent 1328 N 2<sup>nd</sup> St, Jefferson, Oregon, 97352

**RECONCILIATION OF GOVERNMENTAL FUNDS  
BALANCE SHEET TO STATEMENT OF NET POSITION  
June 30, 2021**

---

Total Fund Balances \$ 1,618,812

Amounts reported for governmental activities in the Statement of Net  
Position are different because:

The Net PERS Pension Asset (Liability) is the difference between the total pension liability and the assets set aside to pay benefits earned to past and current employees and beneficiaries. (7,578,582)

The proportionate share of the OPEB Retiree Health Insurance Account (RHIA) OPEB asset is not reported as an asset in the District's governmental activities. 150,157

Deferred Inflows and Outflows of resources related to the pension plan include differences between expected and actual experience, changes of assumptions, differences between projects and actual earning, and contributions subsequent to the measurement date.

Deferred Outflows - PERS	3,268,535
Deferred Inflows - PERS	(1,664,577)
Deferred Outflows - RHIA	17,869
Deferred Inflows - RHIA	(52,435)
Deferred Outflows - Healthcare Premiums	28,759
Deferred Inflows - Healthcare Premiums	(19,549)

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in the governmental funds.

Capital Assets, net 21,169,283

Delinquent property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are unearned in the funds. 72,586

Long-term liabilities not payable in the current year are not reported as governmental fund liabilities. Interest in long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due.

These liabilities consist of:

Compensated Absences Payable	\$ (45,574)	
Accrued Interest Payable	(25,871)	
Other Post Employment Obligation - Health Care	(454,037)	
Loans Payable	(893,463)

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
For The Year Ended June 30, 2021**

---

Net Change in Fund Balance	\$	(275,843)
----------------------------	----	-----------

Amounts reported for governmental activities in the Statement of Activities are different because:

The PERS Pension Expense represents the changes in Net Pension Asset (Liability) from year to year due to changes in total pension liability and the fair value of pension plan net position available to pay pension benefits.		(1,000,661)
---	--	-------------

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital Asset Additions, net	\$ 139,255		
Depreciation Expense	<u>(617,759)</u>		(478,504)

Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Position, however, issuing long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Position. This is the amount by which proceeds exceeded repayments:

Debt Principal Repaid	\$ 468,788		
Bond Premium Amortized	<u>61,812</u>		530,600

Compensated absences and early retirement obligations are recognized as an expenditure in the governmental funds when they are paid. In the Statement of Activities compensated absences and early retirement obligations are recognized as an expenditure when earned.

Compensated Absences	1,364		
OPEB Income - Health	33,142		
OPEB Income - RHIA	<u>43,114</u>		77,620

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds, and are instead recorded as unearned revenue. They are, however, recorded as revenues in the Statement of Activities.

General Fund	(14,643)		
Debt Service Fund	<u>(3,530)</u>		(18,173)

**NOTES TO BASIC FINANCIAL STATEMENTS**

**JEFFERSON SCHOOL DISTRICT 14J**  
**MARION COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

**A. THE FINANCIAL REPORTING ENTITY**

Jefferson School District 14J (the District) is a municipal corporation governed by an elected Board of Directors. It was organized under provisions of Oregon Statutes Chapter 332 for the purpose of operating elementary and secondary schools. As required by generally accepted accounting principles, all activities have been included in these basic financial statements.

The District qualifies as a primary government since it has a separately elected governing board, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts which provide services. However, the District is not financially accountable for any of these entities and therefore, none of them are considered component units or included in these basic financial statements, in accordance with GASB 61.

Component Units, as established by the Governmental Accounting Standards Board (GASB) Statement 61, are separate organizations that are included in the District's reporting because of the significance of their operational or financial relationships. There are no component units.

**B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

The Statement of Net Position and Statements of Activities display information about the District as a whole.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions." For this purpose property taxes are recognized in the year for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the general revenues.

All direct expenses are reported by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**FUND FINANCIAL STATEMENTS**

The accounts are organized and operated on the basis of funds. A fund is an independent self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

**GOVERNMENTAL FUND TYPES**

Governmental funds are used to account for the general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are “measurable and available”). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period, which is 60 days. Property tax revenue and proceeds from sale of property are not considered available and, therefore, are not recognized until received. For this purpose, revenues are considered available if they are collected within 60 days of the end of the current fiscal year. Expenditures are recorded when the liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, pension costs, certain compensated absences, OPEB obligations and claims and judgments which are not recognized as expenditures because they will be liquidated with future expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

Financial operations are accounted for in the following major funds:

**GENERAL FUND**

The General Fund accounts for all financial resources and expenditures, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

**SPECIAL REVENUE FUND**

This Special Revenue Fund accounts for specific revenue sources that are legally restricted to expenditures for specific purposes. The fund balance is negative at June 30, 2021. The District will eliminate the negative balance in future years by transfers from the general fund.

**ASB FUND**

The ASB Fund accounts for all student body activities.

**JEFFERSON SCHOOL DISTRICT 14J**  
**MARION COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**DEBT SERVICE FUND**

The Debt Service Fund accounts for the payment of principal and interest of the general obligation bonds. The principal source of revenue is property taxes.

**CAPITAL FUND**

The Capital Fund receives money from debt proceeds. The funds are used for capital improvement projects.

**C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION**

Property taxes and interest are considered to be susceptible to accrual. Principal and interest on general long-term debt and claims and judgments are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources. Post employment benefits are expensed when paid rather than when incurred.

**CASH AND INVESTMENTS**

Investments with a remaining maturity of more than one year at the time of purchase are stated at fair value. Other investments are stated at amortized cost, which approximates fair value.

**PROPERTY TAXES**

Uncollected real and personal property taxes are reflected on the statement of net position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

**SUPPLY INVENTORIES AND PREPAID ITEMS**

School food and other cafeteria supplies are stated at average invoice cost. Commodities purchased from the United States Department of Agriculture in the Food Service Fund are included in inventories at USDA wholesale value. Inventory is accounted for based on the purchase method for the budgetary statements, and on the consumption method, charged to expense when used, for the government-wide financial statements. Donated commodities consumed during the year are reported as revenues and expenditures. The amount of unused donated commodities and supply inventories at the balance sheet date are considered immaterial by management for reporting purposes. Prepaid assets are recognized as expenditures when their benefits are realized. There were no prepaid items at year end.

**JEFFERSON SCHOOL DISTRICT 14J**  
**MARION COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY**

**ACCOUNTS AND OTHER RECEIVABLES**

Accounts and other receivables are comprised primarily of claims for reimbursement of costs under various federal, state and local grants.

**GRANT ACCOUNTING**

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures are recorded as unearned revenue on the statement of net position and the balance sheet.

**CAPITAL ASSETS**

Capital assets are recorded at original cost or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Interest incurred during construction is not capitalized. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Machinery and equipment	5 years
Vehicles	10 years
Buildings and improvements	40 years

**COMPENSATED ABSENCES**

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure when paid. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as a long-term liability on the statement of net position. In accordance with the provisions of GASB Statement No. 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

**LONG-TERM OBLIGATIONS**

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

**JEFFERSON SCHOOL DISTRICT 14J**  
**MARION COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

In addition to assets, the basic financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expenditure) until then. At June 30, 2021 there were deferred outflows representing PERS pension related deferrals and OPEB related deferrals for RHIA and Health Insurance reported in the Statement of Net Position.

In addition to liabilities, the basic financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items which qualify for reporting in this category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. At June 30, 2021, there were also deferred inflows representing PERS pension related deferrals and OPEB related deferrals for RHIA and Health Insurance reported in the Statement of Net Position.

**NET POSITION**

Net position is comprised of the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

Net Investment in Capital Assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – consists of all other assets that are not included in the other categories previously mentioned.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**JEFFERSON SCHOOL DISTRICT 14J**  
**MARION COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**FUND BALANCE**

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions* is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are – nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. The authority to classify portions of ending fund balance as Assigned is granted to the Superintendent and the Business Manager.
- Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

There were no committed or assigned fund balances as of June 30, 2021.

**USE OF ESTIMATES**

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**JEFFERSON SCHOOL DISTRICT 14J**  
**MARION COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**CASH AND CASH EQUIVALENTS**

The cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

**FAIR VALUE INPUTS AND METHODOLOGIES AND HIERARCHY**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

**Level 1** – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

**Level 2** – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market-corroborated inputs)

**Level 3** – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

**2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**BUDGETS**

A budget is prepared and legally adopted for all funds on the modified accrual basis of accounting in the main program categories required by Oregon Local Budget Law.

The budget process begins early in each fiscal year with the establishment of the budget committee. Recommendations are developed through late winter with the budget committee approving the budget in early spring. Public notices of the budget hearing are generally published in spring with a public hearing being held approximately three weeks later. The Board may amend the budget prior to adoption. However, budgeted expenditures for each fund may not be increased by more than ten percent without re-publication. The budget is then adopted, appropriations are made, and the tax levy declared no later than June 30th.

**JEFFERSON SCHOOL DISTRICT 14J**  
**MARION COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)**

Expenditure budgets are appropriated at the following levels for each fund:

**Level of Control**

Instruction  
Support Services  
Enterprise & Community Services  
Facilities Acquisition and Construction  
Operating Contingency  
Other Uses of Funds:   Debt Service  
                                  Interfund Transfers

Expenditures cannot legally exceed the adopted appropriation levels except in the case of grants which could not be estimated at the time of budget adoption. Appropriations lapse at the fiscal year-end. Management may amend line items in the budget without Board approval as long as appropriation levels (the legal level of control) are not changed. Supplemental appropriations may occur if the Board approves them due to unforeseen circumstances which could not be determined at the time the budget was adopted.

Budget amounts shown in the budgetary financial statements reflect the original and final budget. Expenditures of the various funds were within authorized appropriations at June 30, 2021.

**3. BUDGETARY BASIS OF ACCOUNTING**

The budgetary basis of accounting differs from generally accepted accounting principles. The budgetary basis statements provided as part of supplementary information elsewhere in this report are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The budgetary basis of accounting is substantially the same as generally accepted accounting principles in the United States of America, with the exceptions that capital outlay expenditures are expensed when purchased, depreciation is not calculated, inventories of supplies are budgeted as expenditures when purchased, property taxes are recorded as revenue when received instead of when levied, compensated absences and post-employment benefits are expensed when paid rather than when incurred, pension and OPEB costs are not recorded until paid, and principle payments and proceeds on long-term debt are recorded as revenues when received and expenditures when paid.

**4. CASH AND INVESTMENTS**

Cash management policies are governed by state statutes. Statutes authorize investing in banker's acceptances, time certificates of deposit, commercial paper, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

A cash pool is maintained that is available for use by all funds. Each fund type's portion of this pool is reported on the combined balance sheet as Cash and Investments or amounts Due to Other Funds.

In addition, cash is separately held by some of the funds.

**4. CASH AND INVESTMENTS (CONTINUED)**

Cash and Investments at June 30, 2021 (recorded at fair value) consisted of:

Deposits With Financial Institutions:	
Demand Deposits	\$ 953,723
Investments	<u>819,059</u>
Total	<u>\$ 1,772,782</u>

**DEPOSITS**

Deposits with financial institutions include bank demand deposits. The total bank balance per the bank statements as of June 30, 2021 was \$1,102,360, of which \$250,037 was covered by federal depository insurance and remainder was collateralized by the Oregon Public Funds Collateralization Program (PFCP). Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

**Credit Risk – Deposits**

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. All deposits were either FDIC insured or collateralized.

**INVESTMENTS**

Policy is to follow state statutes governing cash management. Statutes authorize investing in banker's acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund's compliance with all portfolio guidelines can be found in their annual report when issued. The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it approximates fair value. The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized.

At year-end, investment balances were as follows:

Investment Type	Fair Value	Investment Maturities (in Months)		
		Less than 3	3 - 18	18 - 59
State Treasurer's Investment Pool	\$ 819,059	\$ 819,059	\$ -	\$ -
Total	<u>\$ 819,059</u>	<u>\$ 819,059</u>	<u>\$ -</u>	<u>\$ -</u>

Investments in the State Treasurer's Local Government Investment Pool cannot be classified as to credit risk because they are not evidenced by securities that exist in physical or book entry form.

**Interest Rate Risk -- Investments**

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond three months.

**Credit Risk - Investments**

Oregon Revised Statutes do not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

**Concentration of Credit Risk**

At June 30, 2021, 100% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

**6. LONG-TERM OBLIGATIONS**

**General Obligation Bond**

The District passed a General Obligation Bond in August of 2017 for construction and improvement of various school buildings, in the amount of \$14,345,768. The bond is being amortized over 30 years. Interest rates are variable between 2% and 4.20%, interest on the final 6 years will be payable only at maturity. Interest is due semi-annually on June 15 and December 15. Debt service on bond principal and interest is paid from the Debt Service Fund. In the event of default, the lender may divert State School Funds and/or LGIP transfers from the District to the lender for payment.

**Limited Tax Pension Obligation Bond**

The OSBA Pension Bond Pool was participated in for the purpose of funding the District's allocated portion of the PERS Unfunded Actuarial Liability (UAL). A bond in the amount of \$6,818,701 was issued on April 21, 2003. The bond is being amortized over 26 years. Interest rates are fixed and range between 2.03% and 6.27%. Interest is due semi-annually on June 30 and December 31. Debt service on bond principal and interest is paid from the Debt Service Fund.

**Certificate of Participation**

On October 30, 2012 a Certificate of Participation was issued to purchase capital assets. Interest rates are fixed and range between .5% and 3%. Interest is due semi-annually on June 1 and December 1.

**Oregon Department of Energy Cool Schools Loan**

The Cool Schools Loan was issued to provide funds for the acquisition, construction and equipping of "small scale local energy projects." The original amount of the loan was \$803,659 at 3.5% interest and is received on a reimbursement only basis. In the event of default, lender may accelerate the maturity date for both principal and interest. In addition, assets acquired from expenditures of the proceeds and any unexpended proceeds are considered collateral of the loan.

**Umpqua Bank Loan**

On May 19, 2020, the District entered into an agreement with Umpqua Bank for a loan of \$600,000 to use on improvements to the facilities of the District. The loan has a term of nine years with an interest rate of 2.699%. The principal and interest is due semi-annually on March 1 and September 1. In the event of default, the lender may increase the interest rate applicable to the outstanding balance by 2.00%, however the amounts due are not subject to acceleration.

The Debt Service Fund has traditionally been used to liquidate long-term obligations.

**7. DEFINED BENEFIT PENSION PLAN**

Plan Description – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

<https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf>

If the link is expired please contact Oregon PERS for this information.

- a. **PERS Pension (Chapter 238).** The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
- i. **Pension Benefits.** The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results. A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.
- ii. **Death Benefits.** Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following contributions are met:
- member was employed by PERS employer at the time of death,
  - member died within 120 days after termination of PERS covered employment,
  - member died as a result of injury sustained while employed in a PERS-covered job, or
  - member was on an official leave of absence from a PERS-covered job at the time of death.
- iii. **Disability Benefits.** A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
- iv. **Benefit Changes After Retirement.** Members may choose to continue participation in their variable account after retiring and may experience annual benefit fluctuations due to changes in the fair value of the underlying global equity investments of that account. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.

**7. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

- b. **OPSRP Pension Program (OPSRP DB).** The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
- i. **Pension Benefits.** This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:
- Police and fire:* 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.
- General service:* 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.
- A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.
- ii. **Death Benefits.** Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70½ years.
- iii. **Disability Benefits.** A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

**Contributions** – PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation, which became effective July 1, 2019. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Effective January 1, 2020, Senate Bill 1049 requires employees to pay contributions on re-employed PERS retirees' salaries as if they were an active member, excluding IAP (6%) contributions. Employer contributions for the year ended June 30, 2021 were \$1,217,553, excluding amounts to fund employer specific liabilities. In addition approximately \$235,232 in employee contributions were paid or picked up by the District in fiscal 2021.

**Pension Asset or Liability** – At June 30, 2021, the District reported a net pension liability of \$7,578,582 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation dated December 31, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement date of June 30, 2020 and 2019, the District's proportion was .035 percent and .039 percent, respectively. Pension expense for the year ended June 30, 2021 was \$1,000,661.

**Actuarial Valuations** – The employer contribution rates effective July 1, 2019 through June 30, 2021, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

**7. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Disabled retirees: Pub-2010 Disabled Retiree, sex distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2018 Experience Study which is reviewed for the four-year period ending December 31, 2018.

**Long-Term Expected Rate of Return:**

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

**7. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

**Discount Rate** – The discount rate used to measure the total pension liability as of the measurement dates of June 30, 2020 and 2019 was 7.20 percent for both years for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percent lower (6.20 percent) or one percent higher (8.20 percent) than the current rate.

	<u>1% Decrease (6.20%)</u>	<u>Discount Rate (7.20%)</u>	<u>1% Increase (8.20%)</u>
District's proportionate share of the net pension liability	\$ 11,253,569	\$ 7,578,582	\$ 4,496,936

**Changes Subsequent to the Measurement Date**

As described above, GASB 67 and GASB 68 require the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, Paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer's reporting date that are expected to have a significant effect on the employer's share of the collective Net Pension Liability, along with an estimate of the resulting change, if available. There are no changes subsequent to the June 30, 2020 Measurement Date that meet this requirement.

**OPSRP Individual Account Program (OPSRP IAP)**

*Plan Description:*

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

**7. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

*Pension Benefits:*

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

*Death Benefits:*

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

*Contributions:*

Employees of the District pay six (6) percent of their covered payroll. Effective July 1, 2020, currently employed Tier 1/Tier 2 and OPSERP members earning \$2,500 or more per month will have a portion of their 6 percent monthly IAP contributions redirected to an Employee Pension Stability Account. The Employee Pension Stability Account will be used to pay part of the member's future benefit. Of the 6 percent monthly IAP contribution, Tier 1/Tier 2 will have 2.5 percent redirected to the Employee Pension Stability Account and OPSERP will have 0.75 percent redirected to the Employee Pension Stability Account, with the remaining going to the member's existing IAP account. Members may voluntarily choose to make additional after-tax contributions into their IAP account to make a full 6 percent contribution to the IAP. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2021.

**8. OTHER POST EMPLOYMENT BENEFIT PLANS – (RHIA)**

**Plan Description:**

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

**Funding Policy:**

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.06% of annual covered OPERF payroll and 0.00% of OPSRP payroll under a contractual requirement in effect until June 30, 2021. Consistent with GASB Statement 75, the OPERS Board of Trustees sets the employer contribution rates as a measure of the proportionate relationship of the employer to all employers consistent with the manner in which contributions to the OPEB plan are determined. The basis for the employer's portion is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the plan with the total actual contributions made in the fiscal year of all employers. The District's contributions to RHIA for the years ended June 30, 2019, 2020 and 2021 were \$22,380, \$5,263, and \$1,031, respectively, which equaled the required contributions each year. These amounts are combined and presented with the District's contributions to PERS in the Required Supplementary Information PERS Schedule of Contributions on Page 37.

At June 30, 2021, the District reported a net OPEB liability/(asset) of (\$150,157) for its proportionate share of the net OPEB liability/(asset). The OPEB liability/(asset) was measured as of June 30, 2020, and the total OPEB liability/(asset) used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of December 31, 2018. Consistent with GASB Statement No. 75, paragraph 59(a), the District's proportion of the net OPEB liability/(asset) is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. As of the measurement dates of June 30, 2020 and 2019, the District's proportion was .074 percent and .045 percent, respectively. OPEB expense/(income) for the year ended June 30, 2021 was (\$43,114).

Disabled retirees: Pub-2010 Disabled Retiree, sex distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2018 Experience Study which is reviewed for the four-year period ending December 31, 2018.

**Discount Rate:**

The discount rate used to measure the total OPEB liability as of the measurement dates of June 30, 2020 and 2019 was 7.20 and 7.20 percent, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Long-Term Expected Rate of Return:**

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

**9. OTHER POST-EMPLOYMENT BENEFITS (OPEB) HEALTHCARE**

A single employer post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims cost, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the implicit employer contribution.

**Funding Policy** - The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation to fund these benefits in advance. The plan is currently unfunded in accordance with GASB Statement No. 75.

**10. PROPERTY TAX LIMITATIONS**

The voters of the State of Oregon imposed a constitutional limit on property taxes for schools and nonschool government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The state voters further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

**11. COMMITMENTS AND CONTINGENCIES**

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

There is participation in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The federal audits for these programs for the year ended June 30, 2021 have not been conducted. Accordingly, compliance with grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although management expects such amounts, if any, to be immaterial.

The District in the course of normal operations is subject to litigation. As of the financial statement issuance date there is no material pending or threatened litigation that would have an adverse effect on the financial condition of the District.

The COVID-19 outbreak in the United States has caused substantial disruption to business and local governments due to mandated and voluntary suspension of operations and stay at home orders. There is considerable uncertainty around the duration of the outbreak and the long-term impact to the overall economy. The ultimate impact on the School's finances is not determinable.

**12. TRANSFERS AND INTERFUND RECEIVABLE/PAYABLE**

Operating transfers are reflected as other financing sources (uses) in the governmental funds. Interfund transfers and interfund receivables/payables during the year consisted of:

	<u>Transfers Out</u>	<u>Transfers In</u>	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>
General Fund	\$ 259,337	\$ -	\$ 536,480	\$ -
Special Revenue Fund	-	134,000	-	536,480
Debt Service Fund	-	125,337	-	-
Total	<u>\$ 259,337</u>	<u>\$ 259,337</u>	<u>\$ 536,480</u>	<u>\$ 536,480</u>

Transfers are made to finance operations between funds. Interfund balances represent cash advanced by the General Fund for operations.

**13. RISK MANAGEMENT**

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. Settled claims have not exceeded this commercial coverage for any of the past three fiscal years.

**14. TAX ABATEMENTS**

As of June 30, 2021, the District potentially had tax abatements through various state allowed programs that impacted levied taxes. Based on the information available from the counties as of the date of issuance of these basic financial statements, there were no material abatements disclosed by the District for the year ended June 30, 2021 for any program covered under GASB 77.

**15. DEFICIT FUND BALANCE**

At fiscal year end, the Special Revenue Fund had a deficit fund balance of \$302,429. The District expects the fund balance to become positive in the upcoming fiscal years through general fund transfers and grants.

**16. PRIOR PERIOD ADJUSTMENT**

Prior period adjustments were recorded to correct accounts receivable, capital assets, and accumulated depreciation on capital assets. Accounts receivable was decreased 46,468, capital assets was increased \$43,400, and accumulated depreciation was increased \$545,844; these adjustments had a combined effect of decreasing Beginning Net Position by \$548,912.

### **Independent Auditors' Report Required by Oregon State Regulations**

We have audited the basic financial statements of the Jefferson School District 14J as of and for the year ended June 30, 2021, and have issued our report thereon dated December 9, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

#### **Compliance**

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of the basic financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

In connection with our testing nothing came to our attention that caused us to believe the Jefferson School District 14J was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

**OAR 162-10-0230 Internal Control**

In planning and performing our audit, we considered the internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal control over financial reporting.

This report is intended solely for the information and use of the Board and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, and each major fund of Jefferson School District 14J (the District) as of and for the year ended June 30, 2021, and the related notes to the basic financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 9, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the basic financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did identify a deficiency in internal control that we consider to be a material weakness. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

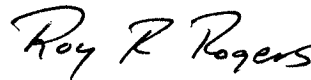

As part of obtaining reasonable assurance about whether the basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **The District's Response to Findings**

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To the Board of Directors  
Jefferson School District 14J  
Marion County, Oregon

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM  
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

**Report on Compliance for Each Major Federal Program**

We have audited Jefferson School District 14J's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2021. The major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

## Opinion on Each Major Federal Program

In our opinion, Jefferson School District 14J complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

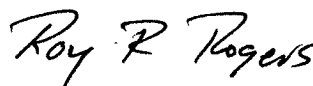

## Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**NOTES TO SCHEDULE OF EXPENDITURE OF FEDERAL AWARDS**

1. **BASIS OF PRESENTATION**

The schedule of expenditures of federal awards included in this report includes federal grant activity and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presents in, or used in the preparation of the basic financial statements.

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the schedule of expenditure of federal awards are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District has elected not to charge any indirect costs in the current year.
