

First time Log-in to Schoology

Students and Teachers:

Your log in has been created by the district. It is the same username and password you use to sign into district devices.

You can log in through the CLEVER portal on your district computer or use <https://bit.ly/psdclever2021>

If you are on a device without the CLEVER shortcut or the Schoology icon, use any browser to go to www.puyallupsd.schoology.com and log in there.

This will also be your district username and password.

Parents: Parents will need the access code that was mailed to them to get in to the account linked to their student(s). If you lost your letter, call the Help Desk at (253) 841-8600 and they can look it up for you. The account needs to be created on a computer or tablet, you cannot create the account on a phone. (After it is created, the phone is all you need.)

Go to www.schoology.com and select "sign up." Then click on the "parent" button, and you will be asked for your access code. Enter the code, your name and email address, and select a password. You now have an account for all your students.

Everyone on a smart phone:

After downloading the free Schoology app to your phone, choose the GREEN button (username log in) not the blue one, then choose PUYALLUP SCHOOL DISTRICT (not a specific school) and enter your username and password. You can control alerts with the Notifications setting.
