Dear Moon Families,

Moon Area School District has proudly provided students with opportunities to learn online through the Moon Area Cyber Program (MACP) for the past 7 years. As an extension of the Moon Area School District, students continue to have direct support from our outstanding Moon Area Teachers allowing our MACP students to be provided with the highest level of support while earning a Moon Area diploma. Our cyber offerings provide students with standards-based courses through an outside vendor. Beginning with the 2023-2024 school year the Moon Area Cyber Program will be partnering with a new course provider and learning platform. MASD teachers will continue to lead and support students with their online courses. With the change in providers, MACP will focus on providing online learning for students in upper middle and high school. Requests for online learning in the lower middle and elementary schools will be limited on a case-by-case basis. Look for more detailed information to follow within the next few months.

Your Partner in Education,

Mr. Barry Balaski

Superintendent of Schools
