

Summer offers kids lots of opportunities to discover new interests, new books, and the pure pleasure of reading just for fun. Summer is also a great time for hands-on explorations that connect kids to what they're reading — that helps build background knowledge and ensures that children are ready for the challenges of the new school year.”

-Reading Rockets

Elementary students do not have a required reading assignment for the summer. We do encourage students to continue reading books they love and are interested in! Continuing to read over the summer will continue to push their reading level forward and avoid that “summer slide”.

Please see a few recommendations below or visit Reading Rockets for more information.
