

International School of Indiana

UPPER School

Technology Requirements

2023-2024 School Year

Grade 6 to Grade 12

2023-2024 School Year Supply List

Upper School Technology Requirements

Computer

ISI students are asked to purchase the laptop of their choice that runs one of the following operating systems that meets or exceeds the following requirements:

- **Mac OS**

- 13" or larger screen
- 8GB RAM
- 256GB SSD
- A video adapter that includes an HDMI port. MacBook options can be viewed on the Apple website's education discount page.

- **Windows 10**

- 13" or larger screen
- 8GB RAM
- 256GB SSD
- If the device does not have an HDMI port, a video adapter like this one will be needed.

- **Chrome OS**

- 13" or larger screen
- 8GB RAM
- 64GB SSD
- If the device does not have an HDMI port, a video adapter like this one will be needed.
- There is a wide range of Chromebook devices available. If possible, opt for one made with an aluminum body. The ISI Information Technology Team uses this Chromebook and highly recommends it or another device with similar features.

Note: Devices that run mobile operating systems, like tablets, do not meet ISI requirements and could only be used as supplemental tools.

Software

ISI students are asked to ensure that their purchased technology runs the following programs:

- Chrome Browser
- Adobe Reader DC (can be found on adobe.com by scrolling to the bottom of the homepage)

Note: ISI instructors may occasionally direct students to install class-specific apps, browser extensions, or software.

Families are encouraged to inquire about any educational and/or student discounts that may be available regardless of the device, manufacturer, or place of purchase.

If you have any questions upon review, contact our Information Technology Team at isihelpdesk@isind.org and use the subject line: Technology Requirements Question.
