

Cascade Elementary

How are we implementing PBIS at our school in Tier I?

The Tiered Fidelity Inventory (our PBIS assessment) indicates that we are implementing Tier I with fidelity at 93%. Within the core features, we are above benchmark in Implementation (94%) and Evaluation (100%) and at benchmark in teams (75%).

What is our Office Discipline Referral rate?

Our referral rate was at or above the nation average for most of the school year. Starting in 2023, we switched to using electronic referrals schoolwide instead of paper referrals. We continued to reteach expectations and remained consistent with our acknowledgement and consequence systems in the Spring, which helped to see some decline in the average referrals per day. We ended the year below the national average for our size and level of school.

How is our Attendance?

Last year's average of students missing less than two days a month: 78%
 This year's average of students missing less than two days a month: 78%

Our Attendance Initiative is to continue to explore ways to improve our attendance.

What is our Action Plan for the next school year?

In reviewing our behavioral and attendance data, we have the following goals:

- We will solidify our Tier 2 systems of support for Behavior/SEL.
- We will expand our Tier 1 team to include varied expertise.
- We will explore the Culturally Responsive Field Guide to PBIS.
- We will explore with parents the significant contributors toward frequent absences.
- We will continue to provide reoccurring attendance data updates to staff.

If you are interested in serving as a member of the PBIS Tier I Team, please contact Lisa Lindberg at Lisa.Lindberg@ksd.org or call the school at 509-222-5300.
