SUPERINTENDENT’S BUDGET MESSAGE – PROPOSED BUDGET
May 2023

Dear Pleasant Hill Community,

I am pleased to present the Proposed Budget for the 2023-24 school year in alignment with our mission to graduate all students with high levels of academic and personal achievement, ready for post-secondary excellence, and prepared for productive, compassionate citizenship through research-based instruction and a collaborative system of support. The proposed budget reflects a total of \$18,814,654 for the general fund and \$28,557,275 for all funds.

Last year, we were encouraged to return closer to a full year of traditional brick and mortar education, activities, and events, and we are even more excited to continue expanding these opportunities for the 2023-24 school year.

Our budget provides a combination of system-wide opportunities to provide stability and supports to our students while expanding programs aimed at engaging and supporting students in school. We are focusing on making improvements that increase attendance, proficiency in reading, 9th grade on-track for

graduation, and on-time graduation in order to fulfill our mission.

Our Average Daily Membership (ADM) increased by approximately 63 students over the 2021-22 school year, and strong inter-district transfer requests indicate that our post-pandemic planning is paying off.

Furthermore, we continue to remain on solid financial footing with another year of available Elementary and Secondary School Emergency Relief Fund III (ESSER III) funds.

Our ending fund balance is well above the 20% target, which provides one-time opportunities to solidify facility upgrades that will directly impact the future success of our programs and student achievement as well as help us continue to weather the storms of unpredictable state funding.

The State of Oregon’s Governor and Joint Committee on Ways and Means Co-Chairs proposed a \$9.9 billion

biennium total funds for the State School Fund in March 2023. While this proposal does not reach the education system's anticipated roll-up costs, estimated at \$10.3 billion, it provides solid footing for another academic year for us with the continued assistance of the ESSER funds. This grant will expire September 30, 2024 and decisions will have to be made next budget cycle regarding expenditures that are currently supported through these funds, including recurring expenditures such as program software and staffing that will figure into true roll-up costs.

Our 2023-24 proposed budget maintains existing programs and services while enhancing facilities to support program growth, addresses curriculum, technology and maintenance needs, and strategically leverages federal relief funds to support our programs.

More specifically, this budget will greatly address Career and Technical Education (CTE) program stability by updating the electrical service to the metal shop for 21st century tooling, a paraprofessional to assist with CTE classroom programming where additional safety measures are required, and the consideration of updating the original Forestry

Building into an Agriculture classroom. In addition, the budget considers programmatic challenges of housing a middle and high school together within the same building by providing funds to upgrade our library, considers the differentiation of middle and high school staffing, and begins to address student supports specific to the developmental needs of our middle school students.

Lastly, I want to thank the Budget Committee for their willingness to serve the District and the Pleasant Hill Community. We look forward to your questions and guidance as we move toward approval and adoption of this budget for the 2023-24 school year.

Jim Crist
Superintendent
Pleasant Hill School District

Introduction and Overview

INTRODUCTION AND OVERVIEW

WELCOME!

This section of the budget explains how the Pleasant Hill School District budget is organized and developed.

The purpose of the budget is to present meaningful estimates of resources and requirements for district programs in the following year, in a way that can be readily understood by members of the community.

The budget process is open to the public, and all budget discussions are held in public meetings. Any member of the public is invited to address the Budget Committee or Board. The budget process and calendar are described below.

BUDGET FORMAT

Inside the cover is a list of the names and terms of the ten members of the Budget Committee. The Budget Committee consists of five elected school board members and five appointed lay members. As a committee, they are responsible for reviewing the proposed budget, receiving public comment and approving the budget.

The budget document is organized into five main sections:

- **Superintendent’s Budget Message** – Explanation of priorities and key issues addressed during the budget process and any significant changes from the previous year
- **Introduction and Overview** – Descriptions of budget format, process, calendar and structure; fiscal management policies; student enrollment and staffing summaries; academic performance measures; and tax rate computations

- **Financial Summaries** – Summaries of all funds budget totals, descriptions and summary of General Fund resources, summaries of expenditures by fund, and impact of interfund transfers
- **General Fund** – Budget detail for chief operating fund used to account for the daily operations of the district
- **Other Funds** – Budget detail for special funds established to account for resources with restricted uses: Special Revenue Fund, Debt Service Fund and Capital Projects Fund
- **Appendices** – Glossary, State School Fund Grant and ADMw (weighted average daily membership) estimates

BUDGETING AND ACCOUNTING

The budget was prepared in accordance with Oregon Local Budget Law, which provides standard procedures for Oregon municipalities, promotes citizen involvement in the budgeting process and controls the expenditure of public funds. The budget was also developed to reflect Generally Accepted Accounting Principles (GAAP), a uniform minimum standard for financial accounting and reporting.

As governmental funds, revenues and expenditures are budgeted and accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized when they become measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay obligations of the current period. Revenues subject to accrual include property taxes, grant proceeds, interest earnings and charges for services.

Expenditures are recorded when a liability is incurred, except for principal and interest on long-term debt which are recorded when payments are due.

BUDGET PROCESS

The budget is a financial plan based on estimates of resources and requirements of the school district’s operations and programs for the next fiscal year. It is prepared in accordance with the requirements of Oregon Local Budget Law (ORS 294), which provides standard procedures for the preparation, presentation, administration and review of budgets. The law requires citizen involvement in the preparation of the budget and public disclosure of the budget before its final adoption. The law also requires that the budget be balanced – that resources equal requirements in each fund.

The proposed budget is prepared by district staff under the direction of the superintendent, the district’s budget officer. Once the budget is developed, the superintendent presents it and the budget message to the budget committee. The budget committee reviews the proposed budget, hears and considers public comment, makes revisions as needed and approves the budget. Once the budget document is given to budget committee members, it is considered to be a public document and made available to members of the community.

Upon approval by the budget committee, the budget is forwarded to the board for further public input and discussion. Between five and 30 days prior to the public hearing, the district must publish public notice of the board hearing on the approved budget as well as a summary of the approved budget.

The school board may make changes in the approved budget prior to adoption, which must take place no later than June 30. Should any expenditure in any fund increase by more than 10% or tax rates

increase at all, notice of a hearing and a revised budget summary must be published and another budget hearing must be held.

The board then adopts the budget, making appropriations for public funds to be spent and imposing and categorizing taxes.

After the budget is adopted, public funds must be spent for the purposes and within the amounts appropriated in the budget, except for certain changes permitted by statute. Any board revisions must be approved through board resolution or supplemental budget.

BUDGET FUND STRUCTURE

Oregon Budget Law requires that school district budgets be prepared by fund. A fund is a fiscal and accounting entity with self-balancing accounts set aside to carry on a specific activity or meet certain objectives. Within each fund, the budget includes estimates of

resources and requirements in line-item detail. Again, resources and requirements must balance.

Budget resources, which are classified as local, intermediate, state and federal sources, include beginning fund balances and revenues.

Budget requirements are categorized by program or function – the type of activity that is being carried out. Requirements include appropriations for expenditures, contingencies, and unappropriated ending fund balances which cannot be spent during the budget year. Expenditures are presented in five major functional areas: Instruction, Support Services, Community Services, Facilities Acquisition and Construction, and Other Uses (e.g., transfers). Contingencies or planned reserves are budgeted to allow for unforeseen expenditures in funds where Local Budget Law permits. Unappropriated ending fund balances represent a cash carry-over to the next year for stability in uncertain economic times and support cash flow needs until other resources are received.

Every budget has at least one fund, commonly called the General Fund, to account for the daily operations of the district. Special funds may also be established to account for revenues that must be used for particular types of expenditure. Examples of special revenue funds include grant funds and reserve funds.

This budget document presents budgets for three individual governmental funds: the General Fund, the Special Revenue Fund, and the Debt Service Fund. Descriptions of each fund and the functions they address are provided below.

General Fund

The General Fund is the district's general operating fund where most revenues and expenditures are recorded. The primary sources of

revenue are the State School Fund and local property taxes. Other sources include earnings on investments, fees for services and reimbursements for certain costs. Expenditures represent the costs associated with the district's on-going operations – educational programs, administrative support and other support services.

Staff compensation comprises the greatest portion of the district's operating expenditures. Additional costs include purchased services, materials and supplies, capital outlay (more typically accounted for in reserve funds and the Capital Projects Fund), transfers, other expenditures such as dues and fees, insurance premiums and transfers to other funds.

Special Revenue Fund

The District utilizes the Special Revenue Fund to account for revenues and expenditures related to grants, student activities, reserves, and to support operations outside the General Fund. Main categories of special revenue funds include the following:

- Federal, state, local and private grants
- Student activity funds
- Board-approved reserves
- Preschool Fund
- Nutrition Services Fund.

These funds are described in more detail in the Other Funds section of the budget document.

Debt Service Fund

This fund accounts for the district's repayment of general obligation (G.O.) bonds. Taxes levied for this purpose and scheduled principal and interest payments on the bonds are budgeted in the Debt Service Fund.

CLASSIFICATION OF RESOURCES AND REQUIREMENTS

Resources

Revenues are classified by fund and by source. Sources are designated as Local, Intermediate, State, Federal or Other. Examples of each include the following:

Local Sources (1000) – Property taxes, interest earnings

Intermediate Sources (2000) – County School Fund, reimbursements from Lane ESD

State Sources (3000) – State School Fund grant proceeds, Common School Fund payments

Federal Sources (4000) – Federal Forest Fees, grants

Other (5000) – Interfund transfers, beginning fund balance

Requirements

Expenditures are classified by fund, function and object. **Functions** describe the activity for which a service or material object is acquired. The seven major functions are:

Instruction (1000) – Activities dealing directly with teaching students

Support Services (2000) – Services to provide administrative, technical, personal and logistical support to facilitate and enhance instruction

Enterprise and Community Services (3000) – Activities concerned with operations that are financed in a manner similar to

private businesses or for which costs are recovered primarily through user charges and community programs

Facilities Acquisition and Construction (4000) – Activities concerned with the acquisition of land and buildings; major remodeling and construction of buildings and major additions to buildings; installation or extension of service systems and other built-in equipment; and major improvements to sites. Major capital expenditures eligible for general obligation bond financing are recorded here.

Other Uses (5000) – Activities including debt service and transfers between funds

Contingencies (6000) – To budget for expenditures which cannot be foreseen and planned in the budget process

Unappropriated Ending Fund Balance (7000) – An estimate of funds needed to maintain operations of the district from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditure can be made from the UEFB in the year in which it is budgeted.

Objects represent the service or commodity obtained as the result of a specific expenditure. Seven object categories are used for this purpose:

Salaries (100)

Associated Payroll Costs (200)

Purchased Services (300)

Supplies and Materials (400)

Capital Outlay (500)

Other Objects (600) (*i.e., debt service, dues and fees, insurance*)

Transfers (700)

Reserves (800)

DISTRICT POLICY – SECTION D: FISCAL MANAGEMENT

DB. District Budget

The district budget will serve as the financial plan of operation for the district and will include estimates of expenditures for a given period and purpose and the proposed means of financing the estimated expenditures.

The amount of the budget will be based upon the financial requirements of the educational program, insofar as the district's financial resources permit and in keeping with statutory provisions.

The district budget will be prepared in full compliance with Local Budget Law. The superintendent will be designated as budget officer and will prepare the budget document.

DBC. Budget Calendar

The Board will annually, in the fall of each year, adopt a budget calendar which identifies dates and deadlines required for the legal presentation and adoption of the budget.

The superintendent will prepare and recommend a proposed calendar for Board approval. The calendar will identify dates and activities to include those needed to comply with state law.

DBE. Budget Preparation

The superintendent has the overall responsibility for budget preparation and will develop such procedures necessary to ensure that the proposed budget reflects all areas of district operation.

The superintendent and administrative staff will establish budget priorities for the district and will make appropriate recommendations related to those priorities to the Board and budget committee.

The superintendent will deliver the budget message and actual budget document to the budget committee when the message and budget have been completed and are ready for presentation.

A copy of the budget document will be made available at the district office for local district patrons to review. In addition, specific pages of the budget document or the budget document as a whole will be available for purchase.

DBG. Budget Hearing

After the budget document has been approved by the budget committee, a public hearing will be held regarding the recommended budget document. The date, time and place will be determined by the Board. At the hearing, any person may speak for or against items in the budget document.

DBH. Budget Adoption Procedures

After the public hearing on the budget and any modifications of the budget deemed necessary as a result of that hearing, the Board will approve the proper resolutions to adopt and appropriate the budget. The Board will further determine, make and declare the ad valorem

property taxes to be certified to the assessor for the ensuing year; and itemize and categorize the ad valorem property taxes.

The superintendent will ensure all necessary documentation is submitted to the county assessor's office as required by the Local Budget Law.

DBJ. Budget Implementation

The budget, as adopted by the Board, becomes the financial plan of the district for the coming year.

The superintendent and staff are authorized to make expenditures and commitments in accordance with the policies of the Board and the approved budget.

The superintendent will make the Board aware of any substantial changes in expected revenues or unusual expenditures so the Board may adjust the budget, if necessary.

DBK Budget Transfer Authority

The adopted budget is a financial plan which may be subject to change as a result of circumstances or events occurring during the fiscal year. All appropriation transfers shall be made as follows:

Intrafund Transfers

Transfers between the levels of appropriation (i.e., functions 1000 - instruction, 2000 - support services, 3000 - community services, etc.) must be made by official resolution of the Board stating the need for the transfer, the purpose and the amount.

The superintendent has the authority to approve transfers between programs (i.e., elementary, middle school, high school) and/or object codes (i.e., 100 - salaries, 200 - benefits, 300 - purchase services, 400 - supplies, etc.) within the same level of appropriation.

Interfund Transfers

Transfers from the general fund to any other fund are authorized when completed by official resolution of the Board stating the need, the purpose and the amount.

Appropriations transfers from any special revenue fund to the general fund or any other special revenue fund are prohibited.

Student enrollment, as resident average daily membership (ADMr), represents average annual enrollment. ADMr serves as the basis for the distribution of state resources to K-12 districts through the State School Fund formula.

State funding is distributed on the basis of ADMw, or weighted average daily membership. Weighting is added to the district's ADMr to recognize the additional cost of serving students in special education programs, poverty, foster care, English as a Second Language programs, and pregnant or parenting programs.

Additional student weighting is also assigned for districts with small high schools. The difference in ADMr and ADMw above reflects weighting added to the district's ADMr for state funding purposes.

2023-24 GENERAL FUND RESOURCES

The 2023-24 General Fund budget includes total resources of \$18,814,654. This is \$2,893,979 (18.17%) higher than the budget adopted for 2022-23.

This proposed General Fund budget is based on the projected \$9.9 billion State School Fund for the biennium.

State School Fund - \$8,323,523

State aid to K-12 schools is appropriated by the Oregon Legislature and provided through the State School Fund (SSF) which consists of State General Fund and Lottery Fund revenues. Aid is distributed to school districts using a formula designed to provide equal funding for all school districts. Funds are allocated on a per student (average daily membership) basis with additional weight provided for factors such as special education, poverty, foster care and remote small schools.

The SSF grant consists of a general purpose grant, transportation grant, small high school grant, high cost disability grant and facility grant, less local revenues. Local revenues are defined as local property taxes designated for school operations (excluding taxes to pay general obligation bonds), and funds provided from the Common School Fund, County School Fund, and other funds received in lieu of taxes.

A district's general purpose grant is determined by multiplying a district's total weighted average daily membership (ADMw) by a statewide target amount. This amount is adjusted by \$25 per year that a district's average teacher experience exceeds state average teacher experience. A funding ratio representing available state resources is applied to determine the grant amount.

The general purpose grant is added to a transportation grant (70% state reimbursement of eligible transportation expenditures) to determine a district's total formula revenue.

State funding is set on a biennial basis in the State budget adopted by the Legislature. Appropriations are based on projected corporate and personal income taxes as well as local property taxes. Every other year, school districts must develop their proposed budgets before the conclusion of the legislative process.

The 2023-24 General Fund budget includes a State School Fund grant of \$8,223,523, a \$55,000 Small High School Grant, and a \$45,000 High Cost Disability Grant. Grant amounts are based on estimates provided by the Oregon Department of Education in February 2023.

Local Property Taxes - \$3,584,893

School districts have permanent authority to levy property taxes for general operations up to a maximum rate. The permanent tax rate

for Pleasant Hill School District is \$4.6414 per \$1,000 of assessed property value. Increases in assessed value are limited to 3% per year, with exceptions such as for the value of new construction.

General Fund revenues budgeted for 2023-24 include \$3,531,893 in current year taxes and \$53,000 in taxes that were levied in prior years and penalties and interest on delinquent taxes. The budget assumes that 95.6% of current year's taxes will be collected, based on current trends. Local property taxes are included in the State School Fund formula.

Other SSF Revenue - \$169,593

Income from the Common School Fund and the County School Fund is also included in the State School Fund formula.

Common School Fund - \$144,593

The State of Oregon holds income from lands granted by the federal government in trust for the benefit of public schools. Investment earnings from the management of these lands are distributed annually to school districts based on the value of the fund. Amounts are allocated to districts on a per student basis. Budgeted revenues are based on estimates provided by the Oregon Department of Education.

County School Fund - \$25,000

A portion of revenues received by counties from the sale of timber cut on federal forest land and other sources are shared with local school districts. Funds are distributed to schools on a per student basis. Funds included in the 2023-24 General Fund budget are estimated based on prior year receipts.

Other Revenue - \$289,000

Additional revenues include earnings on investments, transportation fees, rental income, co-curricular fees and other miscellaneous sources. These revenues are not included in the State School Fund Formula.

Beginning Fund Balance - \$6,447,645

Other resources include unexpended amounts and the unappropriated ending fund balance carried over from the prior year. These funds are excluded from the SSF formula.
